Customer and Carrier Advisory

March 28, 2025

CA-24-06-03/0034

Update 2

Subject: Clearance Requirement for Outsize Cargo through Aerial Port of Embarkation (APOE) Travis AFB

Purpose: To notify shippers of limitations at the 60th Aerial Port Squadron, Travis AFB, during renovations of our Mechanized Material Handling System (MMHS) and outsized cargo building/storage area.

Note: The update extends the date from 30 Apr 25 to 30 Jun 25 and provides updated guidance below.

Be Advised: Until 30 Jun 2025, storage and building space in the MMHS and outsize cargo area will be limited due to ongoing construction work at the terminal. 60th APS Cape Forecasting office requires that cargo exceeding "any" of the following dimensions be cleared by the Aerial Port before shipment:

Length: 217"
Width: 88"
Height: 96"

Required Information for Clearance:

- TCN (Transportation Control Number)
- Destination/Aerial Port of Debarkation (APOD)
- Piece count
- Weight
- Length
- Width
- Height
- Nomenclature

Capability Forecasting will provide the ACA a clearance number when approved.

60th Aerial Port POC:
Capability Forecasting
