Supplement 1 to the D-11

Due to the changes in SDDC's Fuel Surcharge Policy, the following charges are authorized for Personal Property shipments that were picked up prior to 1 May 2007, but were not released from SIT until on or after 1 May 07.

TSP's will bill the Chapter IV, Appendix E [PDS] or item 105C (Additional Delivery from SIT) transportation rate from SIT using the applicable rate determined by the original pick up date of the shipment.

In addition TSP's are authorized to bill an additional 12% of the total PDS or 105C charge under item 429, Miscellaneous Charge (MSG) and the applicable fuel surcharge in effect on the date of delivery from storage.

TSP's must note in CWA/PowerTrack, the pick up date, the release date from SIT, and indicate that the MSG charge is in addition to charges under Chapter IV, Appendix E in accordance with Supplement 1 to the D-11.
