Subject: Feedback on SDDC Computer Lab at 2022 NDTA Fall Meeting

Purpose: To request feedback from attendees on the SDDC Computer Lab, held on Wednesday, October 19, during the 2022 NDTA Fall Meeting.

Be Advised: The SDDC NDTA team is looking for feedback on the inaugural SDDC Computer Lab held during this year's Fall NDTA meeting.

While there are surveys available for specific Transportation Academy courses, as well as a general survey for feedback on the Fall Meeting as a whole, there is no survey option available specific to the SDDC Computer Lab. Therefore, the SDDC NDTA Team requests feedback from participants via email to help improve and enhance the lab experience at future Fall Meetings.

Any feedback regarding the Computer Lab is welcome, to include what you liked, what you did not like, areas for improvement, and systems you would like to see in the future.

Please provide responses NLT than 4 Nov 22.
