

**Military Surface Deployment and Distribution Command**

**Customer and Carrier Advisory**

**September 20, 2023**

**CA-23-09-20/0071**

**Subject:** Follow-On Guidance Regarding YRC and Government Cargo Recover Effort (GOCARE)

**Purpose:** To provide updated guidance to GOCARE Committee Members regarding DoD astray freight located in YRC and Yellow Freight terminals.

**Be Advised:** As of Monday, 18 September 2023, DoD freight can no longer be retrieved from YRC terminals. Additionally, government personnel will no longer be able to access YRC terminals. **As a result of these changes, GOCARE Committee Members should no longer attempt to schedule visits to YRC terminals to check for astray freight.**

Any shipments that are no longer identifiable due to a lack of labeling or paperwork will be processed through YRC's long standing over, short, and damaged protocol and matched up against any missing shipments.

DoD ITOs and shippers are encouraged to document any loss, shortage, or damage discrepancies via the Transportation Discrepancy Report (TDR) process as outlined in Defense Transportation Regulation (DTR) Chapter 210.

Please note, the previously issued Customer Advisory on this topic, CA-23-08-25/0059, Recovery of DoD Astray Freight in YRC's Possession, has been cancelled.
