

**Military Surface Deployment and Distribution Command**

**Customer and Carrier Advisory**

**January 14, 2025**

**CA-25-01-14/0004**

**Subject:** Defense Transportation Tracking System (DTTS) GeoFencing of Super Bowl LIX at Caesars Superdome in New Orleans, LA, 9 February 2025.

**Purpose:** To advise Department of Defense (DoD) shipping activities and Transportation Service Providers (TSP) that the DTTS office will establish a GeoFence for the area surrounding Caesars Superdome in New Orleans, LA during Super Bowl LIX

**Be Advised:** DTTS will establish a GeoFence to monitor DTTS-monitored shipments moving in/out of the affected area from 06:30 to 23:59 Central Standard Time (CST), 9 February 2025. The GeoFence will extend approximately 50 miles from the Caesars Superdome in New Orleans, LA. It includes parts of I-10 from Slidell to Gonzales, LA, I-55 south of Ponchatoula LA, The Lake Pontchartrain Causeway and various other highways leading to DoD activities.

**Guidance:** TSPs should use alternate routes to avoid the affected area. Recommend DoD installations plan Satellite Motor Surveillance Service (SNS) pick-ups or deliveries appropriately.

Transportation Officers are advised to coordinate with SDDC/DTTS for inbound/outbound SNS shipments to/from the affected area. Shipments required to enter the GeoFenced zone due to operational necessity must be reported to the DTTS Operations Center at (800) 826-0794.

**POC:** For information on the GeoFence process please contact the DTTS Operations Center at (800) 826-0794.

**Expiration:** 2359 CST, 9 February 2025
