

Military Surface Deployment and Distribution Command

Customer and Carrier Advisory

December 5, 2024

CA-24-12-05/0071

Subject: Removing Inactive Government Bill of Lading Office Codes (GBLOC) from the Transportation Facilities Guide (TFG) and Transportation Reference Data Model (TRDM)

Purpose: To advise Transportation/Traffic Management officers that SDDC will remove inactive GBLOCs from the TFG and TRDM. These GBLOCs have not had their TFG site updated, or show shipment activity, for over a year. A full list of the inactive GBLOCs is below.

Background: IAW DTR Part II Chapter 201, Q, freight TOs are required to update their TFG site annually at a minimum. SDDC G3 routinely reviews the TFG for outdated TFG sites and contacts their points of contact to update those sites. In the case of the GBLOCs listed below, SDDC G3 has made numerous attempts to contact the listed points of contact found in these GBLOC's TFG site but has been unsuccessful in identifying personnel to update the TFG site. Additionally, SDDC G3 reviewed shipment activity for these GBLOCs and have discovered these activities have not awarded a shipment for the past two years.

Please see Customer Advisory CA-24-08-12/0046, Removing Unused TFG Sites and Their GBLOC, for additional information.

Be Advised: On **20 December 2024** SDDC will remove the inactive GBLOCs listed below from the TFG and will coordinate with TRANSCOM TRDM to have the GBLOC inactivated. TOs must contact SDDC G3 Domestic Freight Services Branch to retain any of the GBLOCs listed below prior to 20 December 2024.

POC: SDDC G3 Domestic Freight Services Branch
