

United States Transportation Command
USTC-CA-00071
18 August 2023

Subject: Commercial Air Movement of Air Force cargo into Saudi Arabia.

Purpose: Provide Mission Impaired Capability Awaiting Parts (MICAP) and General Cargo shipping instructions to Air Force and DLA shippers. This advisory supersedes USTC-CA-00027.

GENERAL INFORMATION:

1. MICAP is a part or piece of equipment that is needed in an urgent manner to satisfy an existing not mission capable status. Please use discretion when identifying the level of need for a part or piece of equipment.

Due to customs processing requirements and delays, U.S. Air Forces Central Command (AFCENT) has implemented the following limitation for Air Force shipper use of the Next Generation Delivery Services (NGDS) contract. Effective immediately, Air Force shippers are allowed to transport **ONLY** NGDS eligible MICAP shipments into Kingdom of Saudi Arabia (KSA). All NGDS eligible MICAP shipments into Prince Sultan Air Base (PSAB) will be shipped utilizing the CENTCOM Fastest Most Reliable Carrier Listing and consigned to **DoDAAC FB4863. Commercial air shipments destined to PSAB will not exceed 300 pounds.** Shipments over 300lbs, regardless of priority, will be sent via military airlift to APOD AKH. Prior to shipping MICAP assets via NGDS into Saudi Arabia, send advanced documentation to 378ELRS.CargoCustoms@psab.afcent.af.mil. Utilize the following address when shipping MICAPs Assets to PSAB:

FB4863
US FORCES - 378 ELRS LGRDDC
Import# 3504818
CP 0113184603784
1 Aerial Port Way
Prince Sultan AB, Saudi Arabia
16466-4699

2. General Cargo (Non-MICAP) will be shipped via military airlift, as applicable to this advisory and as allowable in DTR 4500.9R. Shipping all other, non-MICAP, cargo through commercial carriers causes backlogs with brokers, thus delaying movement of shipments. This advisory does not prohibit the use of surface movements/sealift for routine priority general cargo, or bulky shipments. As a reminder, all surface/sealift moves must be booked through SDDC on door to door terms.
