CLAUSES INCORPORATED BY FULL TEXT

52.212-5 CONTRACT TERMS AND CONDITIONS REQUIRED TO IMPLEMENT STATUTES OR EXECUTIVE ORDERS--COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES (MAY 2024)

(a) The Contractor shall comply with the following Federal Acquisition Regulation (FAR) clauses, which are incorporated in this contract by reference, to implement provisions of law or Executive orders applicable to acquisitions of commercial products and commercial services:

(1) 52.203-19, Prohibition on Requiring Certain Internal Confidentiality Agreements or Statements (JAN 2017) (section 743 of Division E, Title VII, of the Consolidated and Further Continuing Appropriations Act, 2015 (Pub. L. 113-235) and its successor provisions in subsequent appropriations acts (and as extended in continuing resolutions)).

(2) 52.204-23, Prohibition on Contracting for Hardware, Software, and Services Developed or Provided by Kaspersky Lab Covered Entities (DEC 2023) (Section 1634 of Pub. L. 115-91).

(3) 52.204-25, Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment. (NOV 2021) (Section 889(a)(1)(A) of Pub. L. 115-232).

(4) 52.209-10, Prohibition on Contracting with Inverted Domestic Corporations (NOV 2015).

(5) 52.232-40, Providing Accelerated Payments to Small Business Subcontractors (MAR 2023) (31 U.S.C. 3903 and 10 U.S.C. 3801).

(6) 52.233-3, Protest After Award (AUG 1996) (31 U.S.C. 3553).

(7) 52.233-4, Applicable Law for Breach of Contract Claim (OCT 2004) (Public Laws 108-77 and 108-78 (19 U.S.C. 3805 note)).

(b) The Contractor shall comply with the FAR clauses in this paragraph (b) that the Contracting Officer has indicated as being incorporated in this contract by reference to implement provisions of law or Executive orders applicable to acquisitions of commercial products and commercial services: [Contracting Officer check as appropriate.]

☒ (1) 52.203-6, Restrictions on Subcontractor Sales to the Government (JUN 2020), with Alternate I (NOV 2021) (41 U.S.C. 4704 and 10 U.S.C. 4655).

☒ (2) 52.203-13, Contractor Code of Business Ethics and Conduct (NOV 2021) (41 U.S.C. 3509).

☐ (3) 52.203-15, Whistleblower Protections under the American Recovery and Reinvestment Act of 2009 (JUN 2010) (Section 1553 of Pub. L. 111-5). (Applies to contracts funded by the American Recovery and Reinvestment Act of 2009.)

\_\_\_ (4) 52.203-17, Contractor Employee Whistleblower Rights (NOV 2023) (41 U.S.C. 4712); this clause does not apply to contracts of DoD, NASA, the Coast Guard, or applicable elements of the intelligence community--see FAR 3.900(a).

✓ (5) 52.204-10, Reporting Executive Compensation and First-Tier Subcontract Awards (JUN 2020) (Pub. L. 109-282) (31 U.S.C. 6101 note).

\_\_\_ (6) [Reserved]

\_\_\_ (7) 52.204-14, Service Contract Reporting Requirements (OCT 2016) (Pub. L. 111-117, section 743 of Div. C).

\_\_\_ (8) 52.204-15, Service Contract Reporting Requirements for Indefinite-Delivery Contracts (OCT 2016) (Pub. L. 111-117, section 743 of Div. C).

✓ (9) 52.204-27, Prohibition on a ByteDance Covered Application (JUN 2023) (Section 102 of Division R of Pub. L. 117-328).

\_\_\_ (10) 52.204-28, Federal Acquisition Supply Chain Security Act Orders--Federal Supply Schedules, Governmentwide Acquisition Contracts, and Multi-Agency Contracts. (DEC 2023) (Pub. L. 115-390, title II).

✓ (11)(i) 52.204-30, Federal Acquisition Supply Chain Security Act Orders--Prohibition. (DEC 2023) (Pub. L. 115-390, title II).

\_\_\_ (ii) Alternate I (DEC 2023) of 52.204-30.

✓ (12) 52.209-6, Protecting the Government's Interest When Subcontracting with Contractors Debarred, Suspended, or Proposed for Debarment. (NOV 2021) (31 U.S.C. 6101 note).

✓ (13) 52.209-9, Updates of Publicly Available Information Regarding Responsibility Matters (OCT 2018) (41 U.S.C. 2313).

\_\_\_ (14) [Reserved]

\_\_\_ (15) 52.219-3, Notice of HUBZone Set-Aside or Sole-Source Award (OCT 2022) (15 U.S.C. 657a).

\_\_\_ (16) 52.219-4, Notice of Price Evaluation Preference for HUBZone Small Business Concerns (OCT 2022) (if the offeror elects to waive the preference, it shall so indicate in its offer) (15 U.S.C. 657a).

\_\_\_ (17) [Reserved]

\_\_\_ (18)(i) 52.219-6, Notice of Total Small Business Set-Aside (NOV 2020) (15 U.S.C. 644).

(d) Comptroller General Examination of Record. The Contractor shall comply with the provisions of this paragraph (d) if this contract was awarded using other than sealed bid, is in excess of the simplified acquisition threshold, as defined in FAR 2.101, on the date of award of this contract, and does not contain the clause at 52.215-2, Audit and Records--Negotiation.

(1) The Comptroller General of the United States, or an authorized representative of the Comptroller General, shall have access to and right to examine any of the Contractor's directly pertinent records involving transactions related to this contract.

(2) The Contractor shall make available at its offices at all reasonable times the records, materials, and other evidence for examination, audit, or reproduction, until 3 years after final payment under this contract or for any shorter period specified in FAR Subpart 4.7, Contractor Records Retention, of the other clauses of this contract. If this contract is completely or partially terminated, the records relating to the work terminated shall be made available for 3 years after any resulting final termination settlement. Records relating to appeals under the disputes clause or to litigation or the settlement of claims arising under or relating to this contract shall be made available until such appeals, litigation, or claims are finally resolved.

(3) As used in this clause, records include books, documents, accounting procedures and practices, and other data, regardless of type and regardless of form. This does not require the Contractor to create or maintain any record that the Contractor does not maintain in the ordinary course of business or pursuant to a provision of law.

(e) (1) Notwithstanding the requirements of the clauses in paragraphs (a), (b), (c), and (d) of this clause, the Contractor is not required to flow down any FAR clause, other than those in this paragraph (e)(1) in a subcontract for commercial products or commercial services. Unless otherwise indicated below, the extent of the flow down shall be as required by the clause—

(i) 52.203-13, Contractor Code of Business Ethics and Conduct (NOV 2021) (41 U.S.C. 3509).

(ii) 52.203-17, Contractor Employee Whistleblower Rights (NOV 2023) (41 U.S.C. 4712).

(iii) 52.203-19, Prohibition on Requiring Certain Internal Confidentiality Agreements or Statements (JAN 2017) (section 743 of Division E, Title VII, of the Consolidated and Further Continuing Appropriations Act, 2015 (Pub. L. 113-235) and its successor provisions in subsequent appropriations acts (and as extended in continuing resolutions)).

(iv) 52.204-23, Prohibition on Contracting for Hardware, Software, and Services Developed or Provided by Kaspersky Lab Covered Entities (DEC 2023) (Section 1634 of Pub. L. 115-91).

(v) 52.204-25, Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment. (NOV 2021) (Section 889(a)(1)(A) of Pub. L. 115-232).

(vi) 52.204-27, Prohibition on a ByteDance Covered Application (JUN 2023) (Section 102 of Division R of Pub. L. 117-328).

(vii)(A) 52.204-30, Federal Acquisition Supply Chain Security Act Orders--Prohibition. (DEC 2023) (Pub. L. 115-390, title II).

(B) Alternate I (DEC 2023) of 52.204-30.

(viii) 52.219-8, Utilization of Small Business Concerns (FEB 2024) (15 U.S.C. 637(d)(2) and (3)), in all subcontracts that offer further subcontracting opportunities. If the subcontract (except subcontracts to small business concerns) exceeds the applicable threshold specified in FAR 19.702(a) on the date of subcontract award, the subcontractor must include 52.219-8 in lower tier subcontracts that offer subcontracting opportunities.

(ix) 52.222-21, Prohibition of Segregated Facilities (APR 2015).

(x) 52.222-26, Equal Opportunity (SEP 2016) (E.O. 11246).

(xviii) 52.222-53, Exemption from Application of the Service Contract Labor Standards to Contracts for Certain Services--Requirements (MAY 2014) (41 U.S.C. chapter 67)

(xix) 52.222-54, Employment Eligibility Verification (MAY 2022) (E. O. 12989).

(xx) 52.222-55, Minimum Wages for Contractor Workers Under Executive Order 14026 (JAN 2022) (E.O. 13658).

(xxi) 52.222-62, Paid Sick Leave Under Executive Order 13706 (JAN 2022) (E.O. 13706).

(xxii) (A) 52.224-3, Privacy Training (JAN 2017) (5 U.S.C. 552a).

(B) Alternate I (JAN 2017) of 52.224-3.

(xxiii) 52.225-26, Contractors Performing Private Security Functions Outside the United States (OCT 2016) (Section 862, as amended, of the National Defense Authorization Act for Fiscal Year 2008; 10 U.S.C. Subtitle A, Part V, Subpart G Note).

(xxiv) 52.226-6, Promoting Excess Food Donation to Nonprofit Organizations. (JUN 2020) (42 U.S.C. 1792). Flow down required in accordance with paragraph (e) of FAR clause 52.226-6.

(xxv) 52.232-40, Providing Accelerated Payments to Small Business Subcontractors (MAR 2023) (31 U.S.C. 3903 and 10 U.S.C. 3801). Flow down required in accordance with paragraph (c) of 52.232-40.

(xxvi) 52.247-64, Preference for Privately-Owned U.S. Flag Commercial Vessels (NOV 2021) (46 U.S.C. 55305 and 10 U.S.C. 2631). Flow down required in accordance with paragraph (d) of FAR clause 52.247-64.

(2) While not required, the Contractor may include in its subcontracts for commercial products and commercial services a minimal number of additional clauses necessary to satisfy its contractual obligations.

(End of clause)

52.216-19 ORDER LIMITATIONS (OCT 1995)

(a) Minimum order. When the Government requires supplies or services covered by this contract in an amount of less than **1 (twenty-foot equivalent) TEU (for container carriers) or 1 measurement ton (MTON) (for breakbulk carriers)**, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

(b) Maximum order. The Contractor is not obligated to honor -

(1) Any order for a single item in excess of **10% of vessel capacity for the booking of Government cargo on each U.S. flag vessel sailing from contiguous United States (CONUS) on the designated routes listed below:**

Outbound Description

Routes/Zones

01 West Coast to Far East

05/11 East & Gulf Coasts to Europe & UK

6A/12A East & Gulf Coast to Western Mediterranean

07/13 East & Gulf Coasts to Middle East, South Asia, Indian Ocean

(2) Any order for a combination of items in excess of **10% of vessel capacity for the booking of Government cargo on each U.S. flag vessel sailing from CONUS on the designated routes listed below:**

Outbound Description

Routes/Zones

01 West Coast to Far East

05/11 East & Gulf Coasts to Europe & UK

6A/12A East & Gulf Coast to Western Mediterranean

07/13 East & Gulf Coasts to Middle East, South Asia, Indian Ocean

(3) A series of orders from the same ordering office within **7** days that together call for quantities exceeding the limitation in paragraph (b) (1) or (2) of this section.

(c) If this is a requirements contract (i.e., includes the Requirements clause at subsection 52.216-21 of the Federal Acquisition Regulation (FAR)), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) of this section.

(d) Notwithstanding paragraphs (b) and (c) of this section, the Contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within **24 hours** after issuance, with written notice stating the Contractor's intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

(End of clause)

52.216-22 INDEFINITE QUANTITY. (OCT 1995)

- (a) This is an indefinite-quantity contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies and services specified in the Schedule are estimates only and are not purchased by this contract.
- (b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. The Contractor shall furnish to the Government, when and if ordered, the supplies or services specified in the Schedule up to and including the quantity designated in the Schedule as the "maximum". The Government shall order at least the quantity of supplies or services designated in the Schedule as the "minimum".
- (c) Except for any limitations on quantities in the Order Limitations clause or in the Schedule, there is no limit on the number of orders that may be issued. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.
- (d) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after [the end of the period of performance identified on the order](#).

(End of clause)

52.216-32 TASK-ORDER AND DELIVERY-ORDER OMBUDSMAN (SEPT 2019)

- (a) In accordance with 41 U.S.C. 4106(g), the Agency has designated the following task-order and delivery-order Ombudsman for this contract. The Ombudsman must review complaints from the Contractor concerning all task-order and delivery-order actions for this contract and ensure the Contractor is afforded a fair opportunity for consideration in the award of orders, consistent with the procedures in the contract.

Chief, Business Support and Policy Division  
USTRANSCOM Acquisition Directorate  
508 Scott Drive  
Scott Air Force Base, IL 62225  
Email: [transcom.scott.tcaq.mbx.ombudsman@mail.mil](mailto:transcom.scott.tcaq.mbx.ombudsman@mail.mil)

- (b) Consulting an ombudsman does not alter or postpone the timeline for any other process (e.g., protests).
- (c) Before consulting with the Ombudsman, the Contractor is encouraged to first address complaints with the Contracting Officer for resolution. When requested by the Contractor, the Ombudsman may keep the identity of the concerned party or entity confidential, unless prohibited by law or agency procedure.

(End of clause)

52.217-8 OPTION TO EXTEND SERVICES (NOV 1999)

The Government may require continued performance of any services within the limits and at the rates specified in the contract. These rates may be adjusted only as a result of revisions to prevailing labor rates provided by the Secretary of Labor. The option provision may be exercised more than once, but the total extension of performance hereunder shall not exceed 6 months. The Contracting Officer may exercise the option by written notice to the Contractor within **30 calendar days before the contract expires**.

(End of clause)

**52.217-9 OPTION TO EXTEND THE TERM OF THE CONTRACT (MAR 2000)**

(a) The Government may extend the term of this contract by written notice to the Contractor within **30 days before the contract expires**; provided that the Government gives the Contractor a preliminary written notice of its intent to extend at least **60 calendar days before the contract expires**. The preliminary notice does not commit the Government to an extension.

(b) If the Government exercises this option, the extended contract shall be considered to include this option clause.

(c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed **66 months (includes the 6 months available under the Option to Extend Services clause)**.

(End of clause)

**52.252-2 CLAUSES INCORPORATED BY REFERENCE (FEB 1998)**

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es):

<https://www.acquisition.gov>

(End of clause)

**52.252-6 AUTHORIZED DEVIATIONS IN CLAUSES (NOV 2020)**

(a) The use in this solicitation or contract of any Federal Acquisition Regulation (48 CFR Chapter 1) clause with an authorized deviation is indicated by the addition of "(DEVIATION)" after the date of the clause.

(b) The use in this solicitation or contract of any **Defense Federal Acquisition Regulation Supplement (48 CFR Chapter 2)** clause with an authorized deviation is indicated by the addition of "(DEVIATION)" after the name of the regulation.

(End of clause)

**USROK / SOFA**

INVITED CONTRACTOR OR TECHNICAL REPRESENTATIVE STATUS UNDER U.S. – REPUBLIC OF KOREA (ROK) STATUS OF FORCES AGREEMENT (SOFA)

Invited Contractor (IC) and Technical Representative (TR) status shall be governed by the U.S.-ROK Status of Forces Agreement (SOFA) as implemented by United States Forces Korea (USFK) Instruction (USFKI) 4901.01, which can be found under the “publications” tab on the U.S. Forces Korea homepage at <http://www.usfk.mil>.

(a) Definitions. As used in this clause—

“U.S. – ROK Status of Forces Agreement” (SOFA) means the Mutual Defense Treaty between the Republic of Korea and the U.S. of America, Regarding Facilities and Areas and the Status of U.S. Armed Forces in the Republic of Korea, as amended

“Combatant Commander” means the commander of a unified or specified combatant command established in accordance with 10 U.S.C. § 161. In Korea, the Combatant Commander is the Commander, United States Indo-Pacific Command.

“United States Forces Korea” (USFK) means the subordinate unified command through which U.S. forces would be sent to the Combined Forces Command fighting components.

“Commander, United States Forces Korea” (COMUSK) means the commander of all U.S. forces present in Korea. In the Republic of Korea, COMUSK also serves as Commander, Combined Forces Command (CDR CFC) and Commander, United Nations Command (CDR UNC).

“USFK, Office of Acquisition Management” (USFK/FKAQ) means the principal staff office to USFK for all acquisition matters and administrator of the U.S.-ROK SOFA as applied to US and Third-Country contractors under the (IC) and (TR) Program (USFKI 4901.01).

“Responsible Officer (RO)” means a DoD employee (such as a military E5 and above or civilian GS-7/KGS-07 and above), appointed by the USFK Sponsoring Agency (SA), who is directly responsible for determining and administering appropriate logistics support for IC/TRs during contract performance in the ROK.

(b) IC or TR status under the SOFA is subject to the written approval from the Office of Acquisition Management, USFK (FKAQ), Unit #15289, APO AP 96271-5289. (Continued)

(c) The contracting officer will coordinate with HQ USFK/FKAQ, IAW FAR 25.8, and USFKI 4901.01. FKAQ will determine the appropriate contractor status under the SOFA and notify the contracting officer of that determination.

(d) Subject to the above determination, the contractor, including its employees and lawful dependents, may be accorded such privileges and exemptions under conditions and limitations as specified in the SOFA and USFKI 4901.01. These privileges and exemptions may be furnished during the performance period of the contract, subject to their availability and continued SOFA status. Logistics support privileges are provided on an as-available basis to properly authorized individuals. Some logistics support may be issued as Government Furnished Property (GFP) or transferred on a reimbursable basis.

(e) The contractor warrants and shall ensure that collectively, and individually, its officials and employees performing under this contract will not perform any contract, service, or other business activity in the ROK, except under U.S. Government contracts IAW the SOFA.

(f) The contractor’s direct employment of any Korean-National labor for performance of this contract shall be governed by ROK labor law and USFK instruction(s) pertaining to the direct employment and personnel administration of Korean National personnel.

(g) The authorities of the ROK have the right to exercise jurisdiction over invited contractors and technical representatives, including contractor officials, employees and their dependents, for offenses committed in the ROK and punishable by the laws of the ROK. In recognition of the role of such persons in the defense of the ROK, they will be subject to the provisions of Article XXII, SOFA, related Agreed Minutes and Understandings. In those cases, in which the authorities of the ROK decide not to exercise jurisdiction, they shall notify the U.S. military authorities

as soon as possible. Upon such notification, the military authorities will have the right to exercise jurisdiction as is conferred by the laws of the U.S.

(h) Invited contractors and technical representatives agree to cooperate fully with the USFK SA and RO on all matters pertaining to logistics support and theater training requirements. Contractors will provide the assigned SA prompt and accurate reports of changes in employee status as required by USFKI 4901.01.

(i) Theater Specific Training. Training Requirements for IC/TR personnel shall be conducted in accordance with USFK Reg 350-2 Theater Specific Required Training for all Arriving Personnel and Units Assigned to, Rotating to, or in Temporary Duty Status to USFK. IC/TR personnel shall comply with requirements of USFK Reg 350-2.

(j) Except for contractor air crews flying Air Mobility Command missions, all U.S. contractors performing work on USAF classified contracts will report to the nearest Security Forces Information Security Section for the geographical area where the contract is to be performed to receive information concerning local security requirements.

(k) IC/TR status may be withdrawn by USFK/FKAQ upon:

- (1) Completion or termination of the contract.
- (2) Determination that the contractor or its employees are engaged in business activities in the ROK other than those pertaining to U.S. armed forces.
- (3) Determination that the contractor or its employees are engaged in practices in contravention to Korean law or USFK instructions.

(l) It is agreed that the withdrawal of IC or TR status, or the withdrawal of, or failure to provide any of the privileges associated therewith by the U.S. and USFK, shall not constitute grounds for excusable delay by the contractor in the performance of the contract and will not justify or excuse the contractor defaulting in the performance of this contract. Furthermore, it is agreed that withdrawal of SOFA status for reasons outlined in USFKI 4901.01, Enclosure A, paragraph 4 shall not serve as a basis for the contractor filing any claims against the U.S. or USFK. Under no circumstance shall the withdrawal of SOFA Status or privileges be considered or construed as a breach of contract by the U.S. Government.

(m) Support.

(1) Unless the terms and conditions of this contract place the responsibility with another party, the COMUSK will develop a security plan to provide protection, through military means, of Contractor personnel engaged in the theater of operations when sufficient or legitimate civilian authority does not exist.

(2)(i) All Contractor personnel engaged in the theater of operations are authorized resuscitative care, stabilization, hospitalization at level III military treatment facilities, and assistance with patient movement in emergencies where loss of life, limb, or eyesight could occur. Hospitalization will be limited to stabilization and short-term medical treatment with an emphasis on return to duty or placement in the patient movement system.

(ii) When the Government provides medical or emergency dental treatment or transportation of Contractor personnel to a selected civilian facility, the Contractor shall ensure that the Government is reimbursed for any costs associated with such treatment or transportation.

(iii) Medical or dental care beyond this standard is not authorized unless specified elsewhere in this contract. (3) Unless specified elsewhere in this contract, the Contractor is responsible for all other support required for its personnel engaged in the theater of operations under this contract.

(n) Compliance with laws and directives. The Contractor shall comply with, and shall ensure that its personnel supporting U.S. Armed Forces in the Republic of Korea as specified in paragraph (b)(1) of this clause are familiar with and comply with, all applicable –

- (1) United States, host country, and third-country national laws;
- (2) Treaties and international agreements;
- (3) United States regulations, directives, instructions, policies, and procedures; and

(4) Orders, directives, and instructions issued by the COMUSK relating to force protection, security, health, safety, or relations and interaction with local nationals. Included in this list are force protection advisories, health advisories, area (i.e., "off-limits"), prostitution and human trafficking and curfew restrictions.

(o) Vehicle or equipment licenses. IAW USFK Regulation 190-1, Contractor personnel shall possess the required licenses to operate all vehicles or equipment necessary to perform the contract in the theater of operations. All contractor employees/dependents must have either a Korean driver's license or a valid international driver's license to legally drive on Korean roads, and must have a USFK driver's license to legally drive on USFK installations. Contractor employees/dependents will first obtain a Korean driver's license or a valid international driver's license then obtain a USFK driver's license.

(p) Evacuation.

(1) If the COMUSK orders a non-mandatory or mandatory evacuation of some or all personnel, the Government will provide assistance, to the extent available, to United States and third-country national contractor personnel.

(2) Non-combatant Evacuation Operations (NEO).

(i) The contractor shall designate a representative to provide contractor personnel and dependents information to the servicing NEO warden as required by direction of the Responsible Officer.

(ii) If contract period of performance in the Republic of Korea is greater than six months, non-emergency essential contractor personnel and all IC/TR dependents shall participate in at least one USFK sponsored NEO exercise per year.

(q) Next of kin notification and personnel recovery.

(1) The Contractor shall be responsible for notification of the employee-designated next of kin in the event an employee dies, requires evacuation due to an injury, or is missing, captured, or abducted.

(2) In the case of missing, captured, or abducted contractor personnel, the Government will assist in personnel recovery actions in accordance with DoD Directive 2310.2, Personnel Recovery.

(3) IC/TR personnel shall accomplish Personnel Recovery/Survival, Evasion, Resistance and Escape (PR/SERE) training in accordance with USFK Reg 525- 40, Personnel Recovery Procedures and USFK Reg 350-2 Theater Specific Required Training for all Arriving Personnel and Units Assigned to, Rotating to, or in Temporary Duty Status to USFK. (Continued)

(r) Mortuary affairs. Mortuary affairs for contractor personnel who die while providing support in the theater of operations to U.S. Armed Forces will be handled in accordance with DoD Directive 1300.22, Mortuary Affairs Policy and Army Regulation 638-2, Care and Disposition of Remains and Disposition of Personal Effects.

(s) USFK Responsible Officer (RO). The USFK appointed RO will ensure all IC/TR personnel complete all applicable training as outlined in this clause.

(End of Clause)

**USC-10 LIST OF EXHIBITS/ATTACHMENTS (Generic/Conformed Copy of Contract):**

TCAQ/SDDC Ref: USC-10 Original Award Conformed Copy (Effective 1-Sep-2024)

## **1. Contractor Protection from Competition**

### **1.1. Contractor Protection**

1.1.1. A Contractor receiving an initial base period award or an option period award for this contract shall, during the respective base or option period of this contract, be protected from the subsequent competition of other Contractors after that initial award within the limitations of the Military Cargo Preference Act of 1904 (31 U.S.C. § 2631), as amended. This Contractor protection encourages initial competition among vessel owning or controlling contractors, protects the integrity of the contracting process, facilitates a streamlined acquisition process, promotes the Department of Defense's (DoD) sealift readiness goals implemented in the Voluntary Intermodal Sealift Agreement (VISA) priorities, and complies with applicable law. The Military Cargo Preference Act of 1904 also has the effect of establishing a ceiling price; it states the DoD may waive the requirement to use a vessel belonging to the United States or vessel of the United States (as such term is defined in section 116 of title 46, United States Code)(collectively a U.S. flag vessel) if such a vessel is either not available or not available at a fair and reasonable rate for commercial vessels of the United States. This protection does not prevent the DoD from using an organic vessel (e.g., a vessel belonging to the United States) when appropriate. Only Contractors offering a vessel compliant with the Jones Act will receive bookings for shipments subject to the Jones Act unless a waiver is granted pursuant to 46 U.S.C. § 501.

### **1.2. Cargo Preference**

The availability of U.S. flag service shall be evaluated at the time of Task Order (booking) award based on Carrier submitted vessel schedules located in Integrated Booking System (IBS). Additional contracts may be awarded to Contractors at any time during the contract to Carriers offering a higher level of flag-service on a specific lane.

### **1.3. VISA Preference**

1.3.1. VISA Participant is defined as follows:

An entity that is a U.S.-flag vessel operator organized under the laws of a State of the United States, or the District of Columbia, that is a signatory party to VISA, including all United States subsidiaries and affiliates of the entity which own, operate, charter or lease ships and intermodal equipment in the regular course of their business and in which the entity holds a controlling interest.

1.3.2. VISA preference shall be applied at the time of Task Order (booking).

The order of preference:

- 1) VISA Participant
- 2) VISA Nonparticipant

1.3.3. U.S. Transportation Command (USTRANSCOM) will verify VISA Participant status of the Contractors by validating enrollment with the Maritime Administration (MARAD) and confirming with the USTRANSCOM VISA Contracting Officer that the Contractor has an active VISA Contingency Contract. For VISA affiliate and subsidiary companies, USTRANSCOM will verify the VISA Participant status of the parent company in the same manner.

### **1.4. Late Rates**

1.4.1. USTRANSCOM shall not accept proposals of service and rates from Contractors that were not awarded any contracts as a result of this solicitation unless the Contractor is offering U.S. flag service or combination U.S. flag/foreign flag service (i.e., service where the cargo is loaded on two or more vessels to complete the ocean movement, at least one of which is a US Flag ship and at least one of which is a Foreign-Flag ship) that cannot otherwise be obtained from Contractors that were awarded USC-10 contracts. In such case, Exhibit 1, paragraph 1.2 applies.

1.4.2. The Contracting Officer shall negotiate rates when capacity from Contractors with initially awarded rates is not available to meet requirements or a new service will provide a higher U.S. flag service or combinations of U.S. flag/foreign service than otherwise available to the U.S. Government under initially awarded rates. Rates for ocean

and single factor service accepted after initial award will be marked as late and used only when the late rates involve a service with a higher U.S. flag service than the service otherwise available to the U.S. Government under initially awarded rates; or capacity from Contractors with initially awarded rates is not available to meet the requirement.

### **1.5. Option Years Rate Additions**

Contractors awarded a contract during the basic contract period may offer rates on additional routes during the option year rate refresh on routes they do not have accepted rates on for the basic contract period. Contractors who had accepted rates on these routes during the basic contract period are not protected from this new competition on those routes during any option period; the protection described in Exhibit 1, section 1.4 above does not apply to this situation. All Contractors with accepted rates on the same routes for an option period and any extension shall compete equally for all cargo volumes based on procedures outlined in Exhibit 3, Ordering Procedures. A similar ability to offer new service on a route shall not exist at the time of contract extension, if any; the offer of new rate at time of contract extension would be processed under Exhibit 1, paragraph 1.4.2.

### **1.6. Domestic Shipyard Preference**

Domestic Shipyard Preference will be applied at the time of Task Order (booking) in accordance with Exhibit 3, Ordering Procedures. The Contractor shall submit the Domestic Shipyard Report utilizing the report template listed in Exhibit 2, PWS, Attachment 13 annually in conjunction with the Option Year rate refresh.

## **2. Maritime Clauses.**

### **2.1. Liability for Lost or Damaged Cargo.**

#### **2.1.1. Application of Carriage of Goods by Sea Act (COGSA).**

2.1.1.1. For containers, the United States Carriage of Goods by Sea Act (See 46 U.S.C. § 30701 note) (hereinafter “COGSA” or “the Act”) is incorporated and shall apply to the ocean transportation of all goods, including goods in containers stowed on deck, under any Shipping Order with the same force and effect as if the Act applied to such carriage by express provision therein. For the purpose of interpreting Section 4 of the Act, “Limitation of Liability”, the act of loading cargo into, or upon, a container shall not transform such containerized cargo into a single COGSA “package” (as defined herein). For example, the act of loading multiple boxes, bundles, or pieces of cargo into a container does not convert all boxes, bundles, or pieces of cargo into a single COGSA “package.” The limitation of liability set out in Section 4 of the Act shall apply to each package in a container and the government packing list itemizing the cargo in the container is prima facie the controlling document for determining how many “packages” are in a container. The Government packing list is the document completed by the origin shipper listing the items in a container.

2.1.1.2. For purposes of Section 4(5) of the Act, the parties agree that the package limitation shall be \$500.00 per package, or in case of goods not shipped in packages, per measurement ton of cargo (e.g., customary freight unit) except for cargo whose value has been declared in accordance with paragraph 2.1.5.

2.1.1.3. For breakbulk, COGSA is incorporated and shall apply to the ocean transportation of all goods, under any Shipping Order with the same force and effect as if the Act applied to such carriage by express provision therein. The COGSA limitation of liability for cargo not in packages is to each measurement ton of cargo. If the Government through its booking system (currently IBS) indicates an order is being shipped “breakbulk,” the COGSA limitation of liability will be valued by the measurement ton of breakbulk cargo regardless of whether other shipping documents (i.e., shipping manifest, etc.) refer to the breakbulk cargo as a single “piece,” “unit,” or other single item. The fact that breakbulk cargo may be fitted into some form of packaging preparation that facilitates handling and stowage such as a cradle, rack or skid shall not convert breakbulk cargo into a single package. The IBS booking document indicating “breakbulk” is the controlling document between the parties.

2.1.1.4. For all cargo, container and breakbulk, the carriage of cargo under any Shipping Order issued pursuant to this contract shall not be deemed or construed to be the carriage of cargo pursuant to special terms and conditions as provided for in Section 6 of the Act; and nothing in this solicitation is intended to relieve the Contractor or the vessel from liability for loss or damage to or in connection with the goods arising from negligence, fault or failure in the duties and obligations provided by the Act or to lessen such liability otherwise than as provided therein.

2.1.1.5. COGSA shall apply from the point of delivery to the Contractor to the point of delivery to the Consignee whether in connection with intermodal or ocean-only transportation under this Contract. Accordingly, COGSA shall apply in determining the limits of a Contractor's liability, as set forth above, for loss or damage to cargo booked under this Contract arising at any time in the custody of the Contractor. COGSA liability limitations shall not apply to cargo that is stolen or pilfered.

2.1.1.6. Upon U.S. Senate ratification of the United Nations Commission on International Trade Law (UNCITRAL) Convention on the Carriage of Goods Wholly or Partly by Sea (the Convention) or entry into force of the Convention (whichever event occurs first), the package limitation provisions of the Convention shall substitute for or otherwise stand in the place of the COGSA package limitation for the purpose of determining the limits of a Contractor's liability for loss or damage to U.S. Government cargo arising at any time in the custody of the Contractor.

2.1.1.7. Government claims shall be submitted to the Contractor within two years of the accrual of a claim. However, the Government will take all reasonable steps to provide notice of loss as soon as it is discovered.

## **2.1.2. Application of COGSA for Non-Government Owned Cargo.**

2.1.2.1. For containers, COGSA is incorporated and shall apply to the ocean transportation by the Contractor of all goods, including goods in containers stowed on deck, owned by a non-government cargo owner under any Shipping Order with the same force and effect as if the Act applied to such carriage by express provision therein. For the purpose of interpreting Section 4 of the Act, "Limitation of Liability", the act of loading cargo into, or upon, a container shall not transform such containerized cargo into a single COGSA "package" (as defined herein). For example, act of loading multiple boxes, bundles, or pieces of cargo into a container does not convert all boxes, bundles, or pieces of cargo into a single COGSA "package." The limitation of liability set out in Section 4 of the Act shall apply to each package in a container and the shipper or government packing list itemizing the cargo in the container is prima facie the controlling document for determining how many "packages" are in a container. The shipper packing list is the document completed by the origin shipper listing the items in a container.

2.1.2.2. For purposes of Section 4(5) of the Act, the Parties agree that the package limitation shall be \$500.00 per package, or in case of goods not shipped in packages, per measurement ton of cargo (e.g., customary freight unit) except for cargo whose value has been declared in accordance with paragraph 2.1.5.

2.1.2.3. For breakbulk, COGSA is incorporated and shall apply to the ocean transportation of all goods, under any Shipping Order with the same force and effect as if the Act applied to such carriage by express provision therein. The COGSA limitation of liability for cargo not in packages is to each measurement ton of cargo. If the shipper through its booking system indicates an order is being shipped "breakbulk," the COGSA limitation of liability will be valued by the measurement ton of breakbulk cargo regardless of whether other shipping documents (i.e., shipping manifest, etc.) refer to the breakbulk cargo as a single "piece," "unit," or other single item. The fact that breakbulk cargo may be fitted into some form of packaging preparation that facilitates handling and stowage such as a cradle, rack, or skid shall not convert breakbulk cargo into a single package. The shipper booking document indicating "breakbulk" is the controlling document between the parties and will determine whether cargo is valued as a "package" or by the measurement ton.

2.1.2.4. For all cargo, container and breakbulk, the carriage of cargo under any Shipping Order issued pursuant to this contract shall not be deemed or construed to be the carriage of cargo pursuant to special terms and conditions as provided for in Section 6 of the Act; and nothing in this solicitation is intended to relieve the Contractor or the vessel from liability to the non-government cargo owner for loss or damage to or in connection with the goods arising from negligence, fault or failure in the duties and obligations provided by the Act or to lessen such liability otherwise than as provided therein. COGSA shall apply from the point of delivery to the Contractor to the point of delivery to the Consignee whether in connection with intermodal or ocean-only transportation under this Contract. Accordingly, COGSA shall apply in determining the limits of a Contractor's liability, as set forth above, for loss or damage to cargo booked under this Contract arising at any time in the custody of the Contractor. COGSA liability limitations shall not apply to cargo that is stolen or pilfered.

2.1.2.5. When the application of COGSA would not result in a limitation on liability, this contract also excludes any limitation on liability.

2.1.2.6. Upon U.S. Senate ratification of the UNCITRAL Convention on the Carriage of Goods Wholly or Partly by Sea (the Convention) and entry into force, the package limitation provisions of the Convention shall substitute for or otherwise stand in the place of the COGSA package limitation for the purpose of determining the limits of a Contractor's liability for loss or damage to U.S. Government cargo arising at any time in the custody of the Contractor.

2.1.2.7. Government claims shall be submitted to the Contractor within two years of the accrual of a claim. However, the Government will take all reasonable steps to provide notice of loss as soon as it is discovered.

### **2.1.3. Application of COGSA for Barge Service.**

2.1.3.1. If the Contractor provides service via a barge system, the following additional provisions apply. The Contractor will be liable for cargo claims in accordance with COGSA from the time the cargo is loaded on a barge to the time the cargo is discharged from the barge. On any voyage, the Contractor will not invoke limitation of ship owner's liability under 46 U.S.C. § 30523 for aggregate losses or damages to cargo in barges to a value less than the limitation value of the tug(s) and barges at time of completion of the voyage. A barge will not be deemed to be a package within the meaning of the five hundred (\$500) dollar package limitation in COGSA section 4(5). All containerized cargo in or on barges will be considered to be stowed underdeck.

2.1.3.2. The Government will not be liable for any damage sustained by a barge or tug while alongside a loading or discharging facility, except to the extent that it would be liable for such damage to an oceangoing vessel alongside such facility under the law and other terms of this contract. All barges will be equipped with sufficient battery-operated mooring lights, when required.

2.1.3.3. Upon U.S. Senate ratification of the UNCITRAL Convention on the Carriage of Goods Wholly or Partly by Sea (the Convention) and entry into force of the Convention, the package limitation provisions of the Convention shall substitute for or otherwise stand in the place of the COGSA package limitation for the purpose of determining the limits of a Contractor's liability for loss or damage to U.S. Government cargo arising at any time in the custody of the Contractor.

2.1.3.4. Government claims shall be submitted to the Contractor within two years of the accrual of a claim. However, the Government will take all reasonable steps to provide notice of loss as soon as it is discovered.

2.1.4. The COGSA liability limitations are not applicable to the Government's recovery from the Contractor for the cost of nonconforming transportation for pilfered or stolen cargo, including, but not limited, to enhanced ITV or enhanced security. This recovery is limited to the amount paid for the services by the Government.

### **2.1.5. Increased Liability for Lost or Damaged Cargo.**

2.1.5.1. **Lost or Damaged Cargo.** The Contractor is required to deliver cargo to final destination in the same condition it was tendered by the shipper. The Contractor is liable for cargo that is lost, damaged, or in any way altered from the tendered condition. For all bookings, for the COGSA period of the shipment, the Contractor is liable for lost or damaged cargo up to the COGSA liability limitation, in paragraph 2.1.2 and 2.1.3., or the actual amount of the loss or damage to the cargo, whichever is less. Should a shipper desire to declare the value of its booked cargo in an amount greater than the COGSA liability limitation, the shipper will order the "increased value" at the time of booking and a one-time-only (OTO) rate will be solicited in accordance with Exhibit 3, Ordering Procedures, for the additional coverage. For the surface transportation portion of door-to-door shipments, the shipper is not required to declare or order an increased value of the cargo.

2.1.6. A "booking" covers all cargo booked under a single Port Call File Number (PCFN) and the Contractor is liable to the shipper for lost or damaged cargo up to the amount declared in the booking, or the actual value of the lost cargo, whichever is less.

2.1.7. Notice. Government claims shall be submitted to the Contractor within two years of the accrual of a claim. However, the Government will take all reasonable steps to provide notice of loss as soon as it is discovered.

**2.2. Scope of Voyage (Liberties).** U.S. Government cargo, by its very nature, may require special diligence in the prosecution of a voyage at sea. In some cases, the highly sensitive nature of military cargo may require extraordinary handling to ensure the safety and security of the cargo as well as that of our warfighters in the field. Accordingly, the diversion of U.S. Government cargo at sea requires the unique conditions set forth below.

**2.2.1. Diversion of Cargo.** In any situation, whatsoever or wheresoever occurring and whether existing or anticipated before commencement of or during the voyage, which in the judgment of the Contractor or master of the vessel is likely to give rise to capture, seizure, detention, damage, delay or disadvantage to or loss of the vessel or any part of her cargo, or to make it unsafe, imprudent, or unlawful for any reason to begin or continue the voyage or to enter or discharge the goods at the port of discharge, or to give rise to delay or difficulty in arriving, discharging at or leaving the port of discharge or the usual place of discharge in such port, the master, whether or not proceeding toward or entering or attempting to enter the port of discharge or reaching or attempting to reach the usual place of discharge therein or attempting to discharge U.S. Government Cargo (the Cargo) may, upon notification to the Contracting Officer as described in Exhibit 1, paragraph 2.2.1.1, discharge the Cargo into another port, depot, lazarette, craft, or other place, or retain the goods on board until the return trip or until such other time as would be prudent in the ordinary course of the Contractor's business.

**2.2.1.1. Notice of Diversion.** The notice described in Exhibit 1, paragraph 2.2.1 shall include, at a minimum, a description of the cargo to be diverted (container number, Transportation Control Number, etc.), the conditions giving rise to the Contractor's planned diversion of the Cargo, the diversion planned, and any other measures deemed necessary by the Contractor to protect the Cargo. The Contractor or his designated representative shall provide such notice in a manner and place consistent with the provisions of this agreement (e.g., electronic mail), but it is understood that such notice may be delayed if it would put the vessel, her crew or cargo at risk of loss, damage, or injury.

**2.2.1.2. Mutual Agreement.** Where the Contracting Officer determines that the Contractor's planned diversion of the Cargo is not in the best interest of the U.S. Government, the Contracting Officer shall so advise the Contractor as soon as practicable. Thereafter, the Contracting Officer and the Contractor shall, with all due diligence and good faith, endeavor to mutually agree upon the prudent disposition of the Cargo.

**2.2.1.3. Responsibility for the Cargo.** Where the Contracting Officer determines that the Contractor's planned diversion of the Cargo is not in the best interest of the U.S. Government and the Contracting Officer and the Contractor cannot timely agree upon the disposition of the Cargo, the Contractor shall comply with the Contracting Officer's direction to the Contractor to deliver the cargo to a port of the U.S. Government's choice and to make any other arrangements for the cargo the Contracting Officer deems necessary to protect the Government's interest.

**2.2.1.4. Equitable Adjustment for U.S. Government Directed Course of Action.** The Contractor may submit a request for an equitable adjustment to the contract for reasonable, allocable costs incurred to carry out the Contracting Officer's direction if such costs are caused by the need to respond to the special situation and would not have been incurred in performing the contract of carriage except for the special situation. This equitable adjustment includes costs associated with cargo on the vessel that is not transported under this contract to the extent these costs exceed costs allocable to any non-USC-10 shipper under any Scope of Voyage (Liberties) or similar clause in any contract between the Contractor and a non-USC-10 shipper. In no case shall an equitable adjustment duplicate compensation provided in a contract freight rate, accessorial charge or similar charge or otherwise reimburse the Contractor for costs chargeable (by the Contractor) to or otherwise allocable to a non-USC-10 shipper. If the Contractor has been paid for delivery to destination, the Contracting Officer will consider this fact in evaluating any request for an equitable adjustment or any government claim for a windfall to the Contractor.

2.2.1.5. In any event, the Contractor shall at all times be responsible to assure the security and protection of the cargo until relieved of such responsibility by the U.S. Government or its designated agent.

**2.2.2. Liberties.** The Contractor, the master and the vessel shall have liberty to comply with any orders or directions as to loading, departure, arrival, routes, ports of call, stoppages, discharge, destination, delivery or

otherwise howsoever given by the government of any nation or department thereof or any person acting or purporting to act with the authority of such government or of any department thereof (or by any committee or person having, under the terms of the war risk insurance on the vessel, the right to give such orders or directions). Delivery or other disposition of the goods in accordance with such orders or directions shall excuse delay in performance to the extent that such order or direction persists in prevention of performance. (See compensable Delay Clause below in Para 6.) The vessel may carry seized contraband, explosives, munitions, warlike stores, hazardous cargo, and may sail armed or unarmed and with or without convoy.

2.2.3. The vessel shall have the liberty to deviate for the purpose of saving life and property, to tow or to be towed, to sail with or without pilots, or to go into dry dock or into ways with or without cargo on board. However, in no case shall the Contractor be entitled to extra compensation for such a deviation and the Contractor shall not be relieved of responsibility for delivery of cargo to the destination named in the Shipping Order.

## **2.3. Strikes.**

2.3.1. **Loading Port.** In the event the vessel or the loading of the vessel is delayed by reason of strikes or stoppage of work, the Contractor may, at the loading port dispatch the vessel with such portion of the cargo as may then be on board.

2.3.2. **Discharge Port.** In the event the vessel or discharge of the vessel is delayed by reason of strikes or stoppage of work, the Contractor at the discharge port may discharge the cargo still on board or with the approval of the U.S. Government dispose of the cargo or any part of it at the U.S. Government's risk and expense.

## **2.4. General Average.**

2.4.1. General average shall be adjusted, stated, and settled, according to York-Antwerp Rules 2004 and subsequent Amendments, if any, thereto at such port or place in the United States as may be selected by the Contractor, and as to matters not provided for by those Rules, according to the laws and usages at the Port of New York. In such adjustment, disbursements in foreign currencies shall be exchanged into United States money at the rate prevailing on the dates made and allowances for damage to cargo claimed in foreign currency shall be converted at the rate prevailing on the last day of discharge at the port or place of final discharge of such damaged cargo from the ship.

## **2.5. Liens.**

2.5.1. **Seizure of Cargo.** The Contractor agrees that it will not assert any type of lien, including a maritime lien, on any cargo shipped by the U.S. Government under this Contract. The Contractor further agrees that it will not take any action to seize, arrest, hold, or otherwise detain such cargo through any judicial process in the U.S. or any foreign country. The Contractor agrees to insert this clause in all subcontracts at any level and to expend any resources necessary to expeditiously enforce the provisions of this clause against such subcontractors.

2.5.2. **Freight.** There shall be no liens, including maritime liens, asserted on any freights payable by the U.S. Government under this contract. The Contractor agrees to insert this clause in all subcontracts at any level and to expend any resources necessary to expeditiously enforce the provisions of this clause against such subcontractors.

## **2.6. Force Majeure.**

The acts of God, enemies, fire, restraint of princes, rulers of people, and all dangers and accidents of the seas, rivers, machinery, boilers and steam navigation, and errors of navigation throughout this Contract are mutually excepted. In other words, such situations excuse delay in performance (similar to paragraph (f) of FAR 52.212-4) by either party to this contract to the extent that the situation persists in preventing performance. This clause does not address liability for loss/damage to cargo (see, instead, "Liability for Lost or Damaged Cargo" section), liability for costs/damages resulting from delay in performance or matters other than excusable delay. Excusable delays based upon common carriers are only available if the Contractor can demonstrate that delay was without the fault of the common carriers, who are presumed to be subcontractors of the Contractor regardless of subcontract tier.

## **2.7 Amended Jason Clause**

In the event of accident, danger, damage, or disaster, before or after commencement of the voyage resulting from any cause whatsoever, whether due to negligence or not, for which, or for the consequence of which, the contractor is not responsible, by statute, contract, or otherwise, the goods, Shippers, consignees, or owners of the goods shall contribute with the contractor in general average to the payment of any sacrifices, losses or expenses of a general average nature that may be made or incurred, and shall pay salvage and special charges incurred in respect of the goods. If a salvaging vessel is owned or operated by the contractor, salvage shall be paid for as fully as if such salvaging vessel or vessels belonged to strangers.

## **3. War Risk.**

### **3.1. Compensation.**

3.1.1. If it is necessary for the Contractor to pay additional premiums to extend the coverage of crew, hull and machinery, protection and indemnity insurance and insurance covering the loss and damage of cargo while aboard the vessel at sea (not applicable to inland cargo) to include war risks, or to pay crew war risk bonuses as a result of the vessel entering the war risk area, the Contractor shall include any and all costs associated with war risk in the appropriate ocean rate when the normal routing of one or more of the vessels carrying the shipment involves transiting a Listed Area designated by Lloyd's Market Association's Joint War Committee.

3.1.2. If a new war risk location is designated to the Joint War Committee's designation list after the final award of approved contract rates the Government will resolve the difference by either a rate refresh to the appropriate ocean lane, Request for Equitable Adjustment (REA), or the addition of an accessorial surcharge. The Contracting Officer's approach to resolve the new designation will depend on the circumstances surrounding the event.

### **3.2. Alternatives.**

If Commercial Marine, War Risk, and Liability Insurance is not available or if Marine, War Risk, and Liability Insurance through the Secretary of Transportation under Sections 1202-1205 of the Merchant Marine Act of 1936, (codified at Title 46 U.S.C., Chapter 539), is available at a lesser rate, the Contracting Officer reserves the right to require Contractors to obtain the necessary Marine, War Risk, and Liability Insurance from the Secretary of Transportation. Further, in the event that the Secretary of Defense, or his/her authorized designee, is authorized to provide and does provide indemnification to the Secretary of Transportation under Section 1205 of the Merchant Marine Act, 1936, (46 U.S.C. § 53905), for Marine, War Risk, and Liability coverage without premium, the Contracting Officer reserves the right to require the Contractor to obtain such insurance from the Department of Transportation and no premiums as set forth in Exhibit 1, paragraph 3.1 above will be paid to the Contractor by the U.S. Government.

## **4. Cargo Claims.**

4.1. The Contractor agrees to cooperate with Government efforts to resolve claims for loss or damage to Government cargo.

## **5. Rejection and Price Reduction for Nonconforming Transportation Services.**

5.1. The Contractor recognizes that the Contracting Officer ordinarily must reject services that are nonconforming in a major or critical aspect or are otherwise incomplete. To the extent the transportation of cargo results in loss or damage of cargo, the purpose of the transportation is frustrated and the nonconformance in the transportation service is major/critical.

5.2. The Contracting Officer may evaluate the conformity of transportation to contract requirements in addition to evaluating whether lost/damaged cargo complies with contract requirements. If cargo is found to be lost or damaged, either before or after acceptance by the Government of the cargo, and the loss/damage is due to fault or liability of the Contractor under the contract, the Contracting Officer may - in addition to any action related to the lost/damaged cargo - take any of the following actions related to non-conforming transportation:

- 5.2.1. Notify the Contractor of the nonconforming transportation;
- 5.2.2. Request the Contractor to address fault or liability for loss or damage to cargo and corresponding nonconforming transportation;
- 5.2.3. Reject the nonconforming transportation in whole or in part, as may be warranted;
- 5.2.4. Seek a price reduction or other consideration in whole or in part, to the extent the transportation is non-conforming.

5.3. The Contracting Officer shall not revoke acceptance of transportation services, reject transportation services, or implement a price reduction until the Contractor has been provided notice and an opportunity to demonstrate that the transportation services conformed to the contract of carriage as booked.

## **6. Compensable Delays.**

6.1. Other clauses in this contract (such as FAR 52.212-4 paragraph f; Exhibit 1, section 2.6 force majeure; Exhibit 1, paragraph 2.2 Scope of Voyage (Liberties); etc.) cover delay in performance or frustration of performance in certain situations. Exhibit 1, Section 2.2 Scope of Voyage (Liberties) provides for monetary equitable adjustment, but only in the case of maritime (not in-land) transportation where attempted delivery to the destination port has been abandoned.

**6.2. Situations where the U.S. Government Causes a Delay.** This clause addresses compensation/financial liability in other situations. Specifically, to the extent action or inaction by the U.S. Government in its contractual capacity, causes a delay in Contractor performance, the Contractor shall be entitled to an equitable adjustment for costs incurred directly related to the safety and security of U.S. Government cargo or related to efforts to deliver the cargo as contracted. Such cost shall be reasonable, supported by sufficiently detailed documentation to support the claimed delay and subject to audit. The Contractor shall be entitled to such equitable adjustment under this contract to the extent that:

- 6.2.1. The U.S. Government action or inaction is otherwise not compensable under other provisions of this contract; and
- 6.2.2. The U.S. Government action or inaction interferes with or prevents performance of a contractual obligation by a reasonable Contractor; and
- 6.2.3. The Contractor's actions or inactions have not contributed to the Government caused delay; and
- 6.2.4. The Contractor has exercised due diligence to mitigate the delay or the financial consequences of such delay.
- 6.2.5. In no case shall an equitable adjustment duplicate compensation provided in a contract freight rate, accessorial charge or similar charge or otherwise reimburse the Contractor for costs chargeable (by the Contractor) to or otherwise allocable to a non-USC-10 shipper.

## **6.3. Situations where neither the Contractor nor the U.S. Government Cause Delay.**

6.3.1. To the extent delays in Contractor performance are caused by third parties, natural causes, or any cause other than those within the control of either the Contractor or the U.S. Government, this clause apportions risk. In such situations, the Contractor may be entitled to an equitable adjustment for costs incurred directly related to the safety and security of U.S. Government cargo or related to efforts to deliver the cargo as contracted. Such cost shall be reasonable, supported by appropriate documentation and subject to audit. The Contractor shall be entitled to an equitable adjustment to the extent that:

6.3.1.1. The subject delay is caused by an extraordinary event not within the control of either the U.S. Government or the Contractor. An extraordinary event is uncommon or unusual and beyond the control of a reasonable Contractor exercising customary foresight and sound business practices; and

6.3.1.2. The extraordinary event is otherwise not compensable under other provisions of this contract; and

6.3.1.3. The extraordinary event interferes with or prevents performance of a contractual obligation by a reasonable Contractor; and

6.3.1.4. The Contractor has exercised due diligence to mitigate the delay or the financial consequences of such delay.

6.4. Exigency Areas. With respect to declared Exigency Areas (contained in Exhibit 2, PWS, Exigency Annex), the scope of equitable adjustment is hereby broadened to the extent that action or inaction by any government, not just the U.S. Government, delays Contractor performance in a declared Exigency Area or at the border of a declared Exigency Areas. In all other respects, the terms of paragraph 6.2 above shall apply to Exigency Areas.

6.4.1 In no case shall an equitable adjustment duplicate compensation provided in a contract freight rate, or otherwise reimburse the Contractor for costs chargeable (by the Contractor) is allocable to a non-USC-10 shipper.

## **7. Equitable Adjustments.**

7.1. Where the Government causes delay, or where neither the Contractor nor the U.S. Government cause the delay, and the Contractor accrues costs due to the delay, pursuant the Compensable Delays clause Exhibit 1, section 6, these costs shall not be invoiced under Exhibit 2, PWS, Attachment 6, as pass-through charges. These alleged additional costs, charges, or third-party reimbursement costs shall be submitted in accordance with FAR 52.212-4(c) and (d).

7.2. Examples of costs that shall be submitted in accordance with FAR 52.212-4(c) and (d) include, but are not limited to, Government-caused delay costs, customs delay costs, border delay costs, destination delay costs, gate delay costs, and costs relating to a requested Contract modification and/or costs relating to an alleged Contract change.

7.3. Contractor claims and requests for equitable adjustments shall be submitted to the Contracting Officer for a decision within two years of the accrual of a claim or request for equitable adjustment. If the contracting officer fails to render a decision to a claim submitted pursuant to the sentence above, the contractor must appeal that deemed denial within three years of the accrual of the claim.

## **8. Claims or Requests for Equitable Adjustment (REA) Timeline.**

8.1. In accordance with FAR 33.206(a), Contractor claims shall be submitted, in writing, to the contracting officer for a decision within two years after accrual of a claim.

## **9. General Services Administration (GSA) Audits.**

9.1. This contract is subject to GSA audits pursuant to 31 U.S.C. § 3726 (the Transportation Act, as amended) and Title 41 Code of Federal Regulation (CFR), Part 102-118, and the contractor is defined as a “carrier” as that term is used in the Transportation Act. Any dispute related to a GSA Audit is subject to a determination by the contracting officer. The contractor may choose to appeal GSA’s audit results pursuant to the 41 CFR Part 102-118 by submitting a written request for reconsideration to the GSA Transportation Audits Division. The contractor may also request that the contracting officer review the dispute. If the contracting officer and the contractor cannot resolve a dispute related to GSA audits, the contracting officer may refer the dispute for adjudication to the GSA in accordance with 31 U.S.C. 3726(c). At the end of that process the contractor may appeal any remaining disagreement pursuant to the Contract Disputes Act.

## **10. Fuel Surcharge, FAR 252.247-7003 Exception.**

10.1. This contract contains the clause 252.247-7003, Pass-Through of Motor Carrier Fuel Surcharge Adjustment to the Cost Bearer. Carriers are excepted from the requirements of 252.247-7003 if its subcontracts with motor carriers effectively pass the equivalent Fuel Adjustment Factor provided in this contract, regarding fuel-related surcharge adjustments, to the person, corporation, or entity that directly bears the cost of fuel for shipments transported under this contract. Carriers shall provide, upon request, copies of subcontracts demonstrating a fuel surcharge clause is included in the subcontract.

## **SECTION 1 BACKGROUND**

### **1.A. SDDC Role**

1.A.1. As the Army Service Component Command of the United States Transportation Command (USTRANSCOM), the Military Surface Deployment and Distribution Command (SDDC) provides worldwide common-use ocean terminal services and traffic management services to deploy, sustain, and redeploy the United States Armed Forces.

1.A.2. SDDC is responsible for surface transportation and is the interface between Department of Defense (DoD) shippers and the commercial surface transportation industry. SDDC also provides transportation of cargo to ports in the United States (U.S.) and overseas and manages numerous ports throughout the world.

### **1.B. Purpose**

The Universal Services Contract (USC) enables SDDC to fulfill its mission by providing international commercial ocean and intermodal distribution services in support of the Defense Transportation System (DTS). DTS cargo consists of military equipment and related supplies including but not limited to: supermarket-type commodities shipped by the Defense Commissary Agency (DECA), department store type merchandise shipped by Army and Air Force Exchange Service (AAFES) and Navy Exchange Command (NEXCOM), supplies shipped by the Defense Logistics Agency (DLA) and General Services Administration (GSA), and mail shipped by the Military Postal Service Agency (MPSA). DTS cargo is shipped in substantial, recurring, and consistent volumes on many trade routes. USC is the primary contracting tool for moving DTS cargo when movement by ocean is required.

## **SECTION 2 SCOPE**

### **2.A. Overview**

2.A.1. This contract provides international cargo transportation and distribution services using ocean common or contract carriers, as defined in the Shipping Act of 1984, offering regularly scheduled commercial liner service for requirements that may arise in any part of the world, including service covered by the Jones Act (*see generally*, Title 46, United States Code (U.S.C.), Chapter 551, Coastwise Trade and related statutes). Contractors shall be capable of providing ocean, intermodal, and related transportation and distribution services to support their offered services as required herein. This contract is primarily for requirements owned and shipped by the DoD (including but limited to the Military Services, Combatant Commands, and Defense Agencies), to include items otherwise transported by the DoD such as Foreign Military Sales (FMS), Humanitarian Assistance Programs (HAP), shipments from commercial entities for use by DoD (e.g., Defense Logistics Agency's (DLA) Prime Vendor (PV) Program), Household Goods (HHG) and Privately Owned Vehicles (POVs) owned by DoD Servicemembers and employees, and shipments by the armed forces of allied and partner nations. In addition, this contract may be used for shipments by United States Federal Agencies other than DoD. This contract shall apply to services performed in peacetime as well as those provided in exigency areas, for which there is an Exigency Annex to cover any special requirements for such areas. This contract is not subject to terms or conditions of Contractors' tariffs. The accepted booking, in conjunction with the terms contained in this contract, constitutes the contract of carriage.

2.A.2. This contract applies to both Unit Movement Cargo and Non-Unit Movement Cargo. Unit Movement Cargo is described by Unit Line Numbers (ULNs) and Plan Identifications (PIDs) in the Joint Operation Planning and Execution System (JOPES) – whether contingency, exercise or administrative in nature – whether characterized as deployment, redeployment, or retrograde cargo.

### **2.B. Rate Modifications**

2.B.1. Included in the scope of this contract are transportation services and services ancillary to transportation that were not priced at the time of award or during annual (or other periodic) rate refreshes, including but not limited to:

2.B.1.1. Additional routes or sub-routes, whether ocean or inland.

2.B.1.2. Accessorial rates if none established for a particular location or routing.

2.B.1.3. Excepted Cargoes Breakbulk/Roll-On Roll-Off (RORO) – see definitions in Exhibit 2, PWS, Attachment 11.

2.B.1.4. Excepted Cargoes Container – see definitions Exhibit 2, PWS, Attachment 11.

2.B.1.5. Increased Liability for Lost or Damaged Cargo, see Exhibit 1, Additional Clauses, paragraph 2.1.5.

2.B.2. These rates shall be solicited, either on a one-time-only (OTO) basis for a specific cargo movement or on an ongoing basis if projected frequency or volume is sufficient.

2.B.3. OTOs shall be competitively ordered in accordance with Exhibit 3, Ordering Procedures. Ongoing rates are awarded through an IBS application with a process similar to that used during the annual rate refresh.

## **SECTION 3 PERFORMANCE AND EDI**

### **3.A. Performance Requirements**

3.A.1. The expectation of the United States Government (Government) is that all cargo booked under this contract shall successfully move in accordance with the terms of the contract. The Government strategy for assessing the Contractor's performance under this contract focuses on two business lines: Unit Cargo and non-Unit Cargo. Contractor performance will be measured by a Composite Score (CS), consisting of two scores: a Lane Score (LS) weighted at 90% and a Worldwide Score (WS) weighted at 10%. A LS measures a Contractor's performance on a specific lane, typically Geographic Combatant Command (GCC) Area of Operations (AOR) to GCC AOR (e.g., USNORTHCOM to USINDOPACOM). A WS measures the Contractor's performance on all shipments. If Contractor's volume on a particular lane is 20 or fewer measured Transportation Control Numbers (TCN) during the 2-month measurement period, the CS will be equal to the WS.

3.A.2. The LS and WS are computed based on a 60-day rolling average. With exception to lanes with 20 or fewer measured TCNs, the LS is for all shipments across a lane (e.g., USNORTHCOM to USINDOPACOM) for the 60-days being measured. For lanes with fewer than 20 TCNs during the 60 days being measured, the LS will be the same as the WS. The WS is calculated based on all cargo for a carrier for the 60 days being measured.

3.A.3. To evaluate the Contractor's success in meeting minimum contract standards that support stated Performance Objectives, the Government will monitor and measure Contractor performance under this contract using the Performance Measures identified in Table 3.C

3.A.4. There may be more than one Performance Measure for a single Performance Objective.

### **3.B. Performance Objectives**

#### **3.B.1. Required Delivery Date (RDD)**

3.B.1.1. The Contractor shall deliver all cargo by the RDD specified in the accepted booking. If the Contractor experiences delays during movement, the Contractor may submit a delay request, with proper documentation, in DRAP, in accordance with Exhibit 2, PWS, Attachment 1. The Contracting Officer's Representative (COR) will review and either validate, request further documentation, or deny. For delays not caused by the Contractor, the Contractor must still exercise due diligence to deliver cargo as soon as consignee is able to accept delivery. If the non-Contractor caused delay causes the Contractor to miss the RDD, the Contractor may request an RDD credit via the Pipeline Asset Tool (PAT) Carrier Performance Portal (CPP) after delivery but before the 8<sup>th</sup> calendar day of the month following delivery.

3.B.1.2. When the Government directs staging (HG/HR), the RDD is extended by the number of days of staging.

3.B.1.3. In order to provide realistic timelines and RDDs to the shippers, SDDC Headquarters (HQ) G3 International Movement Support Division will maintain RDD Guidance that is based on historical movement data and updated as needed. The guidance will be incorporated into the Integrated Booking System (IBS) and distributed to Direct Bookers. This guidance will not override any RDDs put forth in the booking and accepted by the Contractor. Unit move cargo will be offered in accordance with JOPES timelines and RDDs. Timelines will include time for typical cargo clearance and delivery to destination.

3.B.1.4. If RDDs are booked for delivery on non-workdays, such as holidays or weekends in the destination country, and the RDD was missed, the Contractor shall be given an adjustment to the next business day when requested in CPP.

### 3.B.2. In-Transit Visibility (ITV)

3.B.2.1. The Contractor shall provide accurate and timely shipment status reports using the Electronic Data Interchange (EDI), the PAT Surface ITV application, or the Ocean Carrier Interface (OCI) as required by paragraph 4.E. There are eight measured transactions for container and breakbulk shipments.

3.B.2.1.1. Required transactions for containers: W, I, AE, VD, VA, UV, OA, X1

3.B.2.1.2. Required transactions for breakbulk: W, I, AE, VD, VA, UV, OA, X1

3.B.2.1.3. RD or EC are also required but will not be measured with the other EDI transactions.

3.B.2.2. The ITV performance objective is calculated based on a weighted score of EDI submission considered at 50% weight and submission timeliness considered at 50% weight. Each transaction will be independently measured. For example, if the Contractor submits seven out of eight required breakbulk transactions and all seven are timely, the Contractor would receive 87.5% credit for ITV on that shipment  $((7/8)*50\%)+((7/8)*50\%) = 87.5\%$ .

3.B.2.3. The ITV measure is independent of the on-time delivery performance measure; although failure to submit an X1 transaction will be considered equivalent to a missed RDD, unless (for those locations where the AV transaction is permitted), a valid AV transaction is accepted by the COR to constitute RDD compliance. In all cases, including those for which a valid AV is accepted for RDD compliance purposes, the X1 transaction remains a mandatory EDI transaction to be submitted after actual physical delivery to the Government has occurred.

### 3.B.3. CPP Procedures for Monthly Scorecards

3.B.3.1. On the 1<sup>st</sup> calendar day of every month, the Contractor will review its performance data for the previous month using the History tab under Historical Reporting in CPP. EDI transaction will be accepted in CPP until the 5<sup>th</sup> calendar day of the month. Contractors may submit for credit in CPP for timeliness, submission, on time delivery and exclusions until the 8<sup>th</sup> calendar day.

3.B.3.2. On the 16<sup>th</sup> calendar day of the month to the 19<sup>th</sup> calendar day, the Contractor may submit a CPP rejection challenge to SDDC HQ's Contract Management Office (CMO) via the CPP portal.

3.B.3.3. On the 20<sup>th</sup> calendar day of the month, the Contractors may view their monthly scorecard in CPP. Contractors will have 4 additional calendar days to dispute any discrepancies in performance assessment data with the SDDC HQ CMO.

## 3.C. Performance Objective Assessment

Performance assessments will be prepared monthly. The cognizant CORs will coordinate with the Contractor to resolve all disputed performance assessment data prior to the posting of the Monthly Performance Assessment. The Government shall accomplish audits of Contractor submitted performance data to ensure accuracy. Data points for Performance Objectives 1 and 2 represent one container or piece of cargo as booked.

Table 3.C

Performance Objective	Description	Performance Measure	Performance Average	Weight	Performance Assessment
1	Required Delivery Date	Cargo shall be delivered no later than the Required Delivery Date as accepted in the booking.	$x\%$	0.75	$x * .75$
2	In-transit Visibility	The Contractor shall provide to the Government an accurate 315 transaction set within 48 hours of the event.	$y\%$	0.25	$y * .25$
<b>Contractor Performance Score</b>				1.00	<b>Total %</b>

### 3.D. Performance Rating

3.D.1. The Government will use the Contractor Performance Score calculated as shown in Table 3.C as a factor in the best value booking process.

3.D.2. If a lane score falls below 0.75, Contractor may be put into Limited Use status in accordance with Paragraph 3.F for that lane. To facilitate that process, the Government will, as suggested in Table 3.D, assign a Contractor Rating to the Contractor's Performance Score.

Table 3.D

<b>Contractor Performance Score</b>	<b>Rating</b>
<i>95% - 100%</i>	Exceptional
<i>90% - 94%</i>	Very Good
<i>80% - 89%</i>	Satisfactory
<i>76% - 79%</i>	Marginal
<i>75% and under</i>	Unsatisfactory

### 3.E. Quality Control, Reporting, and Records

3.E.1. The Contractor shall promptly notify the cognizant COR of any problems or failures that may affect performance within 48 hours of discovery.

3.E.2. The COR may issue a Contract Discrepancy Report (CDR) when the Contractor fails to meet the terms and conditions of the contract. Upon request, the Contractor shall provide the cognizant COR with a written plan of corrective action, including a proposed timeline, within 5 business days after such request. This plan shall describe proposed Contractor actions to correct the problem or deficiency and bring performance back into compliance with identified performance standards.

3.E.3. The CORs shall monitor Contractor performance and compliance with the terms and the conditions of the contract using standard techniques such as inspections, Government-generated management reports, Contractor reports and customer feedback, or as otherwise indicated herein. The Contractor shall attend periodic meetings called by the COR or the Contracting Officer to discuss operations and problem areas.

3.E.4. Retention of Records. The Contractor shall maintain and, upon request, provide to the Contracting Officer such documentation deemed relevant to performance of transportation services ordered under the terms of this contract. Records will be maintained and available to the Contracting Officer throughout the term of the contract and for three years after final payment in accordance with FAR 52.212-5(d), *Comptroller General Examination of Record*.

### 3.F. Recurring Service Failure

3.F.1. The Government may obtain services from alternate sources either inside or outside this contract to include activation of Government vessels. The actions by the Government to obtain services from another source is a remedy independent of other remedies provided in this contract and shall not necessarily constitute "default" or require remedies in this contract for default.

3.F.2. The Contractor may be put into limited use status by the Contracting Officer for service failures including, but not limited to, the following:

- 3.F.2.1. Performance scores falling below an acceptable rating for two consecutive monthly ratings.
- 3.F.2.2. Rejecting one or more bookings that are required under the mandatory space commitments or the exigency annex.
- 3.F.2.3. Failure to report one or more cargo losses, breaches, hijackings as required by the Exigency Annex.
- 3.F.2.4. Lost/damaged/pilfered shipments exceeding 0.5% of all shipments during any three-month period.
- 3.F.3. The Contractor will be notified via a letter issued from the Contracting Officer that the Contractor is in jeopardy of being put on limited use. The letter will outline, at a minimum, the reason the Contractor is being considered for limited use status, the proposed amount of time of the limited use status, and any other pertinent information.
- 3.F.4. The Contractor shall respond with a remedy to the issue. If the Contracting Officer determines the remedy is insufficient, the Contractor will be notified in writing that it is officially in limited use status.
- 3.F.5. Contractors in limited use status may only be offered bookings if no other Contractor is available or if no other Contractor has equal or higher flag service available.

## **SECTION 4 GENERAL AND ADMINISTRATIVE**

### **4.A. Use of English Language**

All documentation and verbal notices shall be provided in the English language. If required by local law or regulation, additional language(s) may be used. When supporting documents are required and such documents are not in English, the Contractor must provide an accompanying English translation.

### **4.B. Responsibility for Charges and Taxes**

The U.S. Government will not pay for or reimburse the Contractor for foreign customs duties, taxes, and similar charges for which no services are received. The U.S. Government will only pay for port tariffs where the U.S. Government has requested and received services. The Contractor is responsible for providing duty-free cargo clearance with host nation customs officials. If the Contractor pays a tax, duty, customs fee, excise fee/tax, inspection fee, bond or the like for which the U.S. Government is exempt, the amount shall be deducted from the invoice as the Contractor is not entitled to reimbursement.

### **4.C. Customer Service Assistance**

The Contractor shall submit to the Contracting Officer, at [transcom.scott.tcaq.mbx.usc-procurement@mail.mil](mailto:transcom.scott.tcaq.mbx.usc-procurement@mail.mil), a list of points of contact who can respond to Government activities to provide expert assistance in answering questions, exchanging information, and resolving problems including at least one primary and alternate point of contact available for urgent matters on 24-hour basis 7 days a week. The Contractor shall provide this list within one calendar week of contract award, and at the time of award of any option years. Should there be any intervening changes to the list, the Contractor will advise of any changes within one calendar week of any such change.

### **4.D. Electronic Systems Access**

4.D.1. The majority of business conducted under this contract requires the Contractor to access multiple applications within SDDC/USTRANSCOM's Electronic Transportation Acquisition (ETA) Transportation Enhanced Access Management Services (TEAMS) System, such as IBS, and Business Support & Container Management (BSCM) Module. DoDI 8520.02 and DoDI 8520.03 shall govern contractor's access to these systems; unless or until these DoD Instructions are amended to allow otherwise, the contractor "shall use certificates issued by the DoD External Certification Authority (ECA) program or a DoD-approved Public Key Infrastructure (PKI) (Yubikey), when interacting with the DoD in unclassified domains." Contractors shall use ECA when possible and may use a DoD-approved external PKI (Yubikey) when ECA is not an option. Furthermore, contractors shall use multi-factor authentication as required by DODI 8520.03 which requires each user to have both a Government-provided username and password as well as a non-PKI or PKI certificate/authenticator. Contractors must ensure compliance with system access standards as a requirement for doing business with the Government and shall

implement an identity proofing/vetting process for ETA TEAMS users in accordance with paragraphs 4.D.2 through 4.D.5 below. Any costs associated with meeting these access standards shall be borne by the Contractor.

4.D.2. The Contractor shall assign a U.S.-citizen company official (acting as their Trusted Agent) to identify and authenticate all employees prior to receiving Yubikey credentials for ETA TEAMS access. For the Yubikey options, the company official will assert the identity proofing has taken place and provide on company letterhead, a complete list of employees authenticated and authorized to receive PKI credentials. This assertion will be made to the Contracting Officer in accordance with format cited in Exhibit 2, PWS, Attachment 10 and updated letters provided if any information requires an update, employees leave the company, access is no longer required, or credentials are lost. Additionally, if requested by the Contracting Officer, the Contractor must provide a copy of all supporting the identity vetting/authentication documentation pertaining to an employee.

4.D.3. The company official must be able to recognize legitimate versions of identity documentation provided by the applicant in order to ensure only authorized personnel are granted ETA TEAMS access.

4.D.4. The applicant must present two forms of Government-issued identification, at least one of which must be a proof of citizenship, in person, to the company official acting as the Trusted Agent. The following documents are examples of acceptable documents: Official Passport, Certified Birth Certificate issued by the city, county, state, or country in accordance with local laws, Naturalization Certificate, Certificate of Citizenship, FS-240 Consular Report, or DS-1350 Certification of Report of Birth. The authorized company official must exchange sufficient information to ensure the identity of the applicant is unambiguous and accurate.

4.D.5. All employees accessing ETA TEAMS will successfully pass a commercial employment background check performed by the USC Contractor or a 3rd party or successfully pass a local government performed check for employment purposes. If requested by the Contracting Officer, the Contractor must provide a copy of the identification proofing documents used to perform the background checks of the employee.

#### **4.E. Electronic Commerce / Electronic Data Interchange (EDI)**

4.E.1. The Contractor shall use EDI or IBS Ocean Carrier Interface (OCI) module (or successor system) as the primary means for interfacing with SDDC for all bookings.

4.E.2. The Contractor shall use the Defense Transportation Electronic Data Interchange (DTEDI) approved Implementation Convention (IC) for the ANSI X 12 300, 301, 303, 304 and 315 transaction sets in compliance with their approved concepts of operations. Versions 3060, 4010 or later are required. The Contractor shall implement changes to business processes contained in revisions to Transaction Set IC and their controlling concepts of operations as may be approved by the Defense Transportation Electronic Board (DTEB). These changes shall be implemented in accordance with schedules approved by the DTEB.

4.E.3. The Contractor shall receive or transmit, as appropriate, the following transactions sets:

4.E.3.1. Contractor receiving order data, 300 (Delivery order, the booking, including increases and decreases)

4.E.3.2. Contractor ordering confirmation data, 301 (Confirmation of order, Contractor to Ordering Officer (OO))

4.E.3.3. Cancellation data from OO, 303 (OO Cancellation)

4.E.3.4. Shipping Instructions, 304

4.E.3.5. Contractor shipment status reporting data, 315

4.E.4. Shipment Status Reporting

The Contractor shall provide accurate shipment status reports using the 315 transaction sets. Transactions shall be submitted in ANSI X-12 EDI standard or OCI to SDDC. Exhibit 2, PWS, Attachment 1, Table 1 identifies specific events that require reporting. The Contractor shall submit all reports within 48 hours of accomplishment. Details regarding each type of EDI transaction can be found in Exhibit 2, PWS, Attachment 1.

#### **4.F. Operational Reports**

The Contractor shall submit operational reports as specified in Exhibit 2, PWS, Attachment 2.

#### **4.G. Indemnity**

In accordance with the Antideficiency Act, the Government will not indemnify the contractor for services ordered under this contract, including but not limited to signing indemnity or hold harmless letters for cargo in general (supercargo services in accordance with (IAW) Section 8.D, etc.).

#### **4.H. System Support**

During the lifecycle of this contract, the Contractor, at the invitation of the Government, may be afforded with opportunities to test and/or provide input for Government systems and capabilities in development. Participation by Contractors in Government system support activities is voluntary. The extent of a Contractor's involvement is at the invited parties' discretion and participation will be at no additional cost to the Government. When such opportunities arise, the Contractor will be advised in writing of any known changes to the contract terms and conditions by the contracting office. By participating, the Contractor agrees to advise the contracting office of any unaddressed contract deviations upon discovery.

### **SECTION 5 SCHEDULING AND BOOKING**

#### **5.A. Space Commitment**

5.A.1. Provided the booking offer is made at least 5 business days prior to local cutoff, the Contractor must make available 10% of vessel capacity for the booking of Government cargo on each U.S.-flag vessel sailing from Contiguous United States (CONUS) on the designated routes listed below:

Outbound Routes	Zones
1	West Coast to Far East
05/11	East & Gulf Coasts to Europe & UK
6A/12A	East & Gulf Coast to Western Mediterranean
07/13	East & Gulf Coasts to Middle East, South Asia, Indian Ocean

5.A.2. This space commitment also applies to all routes (Inbound, Outbound, and Interport) covered by the Jones Act, and from the West Coast to Guam.

5.A.3. Other than as listed in the Exigency Annex, cargo in this category is the only cargo that must be accepted by the Contractor. This Space Commitment requirement does not require the Contractor to accept Hazardous Material bookings that the Contractor does not normally accept. Counteroffers to RDD are permitted, provided that the counteroffered date is no longer than fourteen (14) calendar days beyond the offered RDD. Carriers refusing such cargo may be placed into Limited Use status by the Contracting Officer in accordance with Paragraph 3.F.2.

#### **5.B. Schedule Maintenance**

5.B.1. The Contractor must provide, maintain, and update regular vessel schedules in IBS at least 45 calendar days prior to sail date. For "Short Sails" of 3 calendar days or less, the Contractor shall provide schedules in IBS 15 calendar days in advance of vessel sailing. If the vessel schedule changes, the Contractor must update IBS within 1 business day. For any changes after the vessel sails, the Contractor shall notify the OO.

5.B.2. Vessel schedule changes that occur prior to vessel cutoff date may result in cancelation of booked cargo at no cost to the Government.

#### **5.C. Cutoff dates and Late Gates**

##### **5.C.1. Port Cutoffs**

The Contractor shall provide port cutoffs in the IBS Vessel Schedule application and update IBS if changes occur.

**5.C.2. Origin Cutoffs**

The default origin cutoff is the close of business 1 working day before the port cutoff with an additional day for each 300 miles from the inland origin point to the port, rounded to the nearest whole day. If the origin cutoff falls on a weekend, the cutoff shall be the final workday of that week.

**5.C.3. Late Gates**

The Contractor shall lift cargo to the booked vessel when cargo is received after the Contractor's vessel cutoff at no additional charge, if mutually agreeable arrangements have been made with the Contractor for a late gate.

**5.D. Shipment Booking**

5.D.1. All cargo shall be booked to the Contractor at the discretion of OOs based on a best value analysis in accordance with Exhibit 3, Ordering Procedures. Rates will be applied based on the vessel sail date at the time of initial offer.

**5.D.2. Booking Acceptance, Rejection and Counteroffers**

5.D.2.1. Issuance of a booking number by the Contractor through EDI, OCI, Direct Booking, or email communication to the Government constitutes acceptance of booking. The Contractor shall provide the services as identified in the accepted booking.

5.D.2.2. The OO and Contractor may mutually agree to changes that utilize contract rates prior to delivery, including rerouting of cargo as specified in paragraph 9.J. Should the Contractor use auto-accept or other processes that provide a booking number in advance of full evaluation of the offer, Contractors shall have one business day to review and, if desired by Contractor, to counteroffer.

5.D.2.3. The Contractor shall accept bookings, up to a vessel's space commitment in accordance with paragraph 5.A, if the booking is received no less than 5 business days prior to a local cutoff. Empty Government-owned, empty Government-leased containers, or other empty special equipment shall be booked on a space-available basis. Empty containers shall be offered to the Contractor, who shall propose space for them on the first sailing for which space is available.

5.D.2.4. The Contractor shall accept, reject, counter, or request additional time for planning purposes on the same business day to a booking received prior to 1430 local time. For a booking received after 1430 local time, the Contractor shall accept, reject, counter, or request additional time for planning purposes by 1200 local time at the cognizant booking office of the next working day.

5.D.2.5. For hazardous cargo, Contractor shall respond to cargo offerings within 2 business days after shipper has provided relevant hazardous information to Contractor for determination of acceptance/rejection of cargo offering.

5.D.2.6. Contractor counteroffer shall include the Voyage Document Number (VOYDOC) obtained from IBS.

**5.D.3. Automated Booking (This paragraph does not apply to Breakbulk Carriers)**

Contractors shall implement an automated booking capability via EDI or OCI within 30 business days after award of contract. EDI transaction sets shall comply with standards identified in this contract. The Contractor shall respond to all cargo offerings, including changes to previous offerings within two hours of the time the cargo offering is released by IBS. Automated booking capability shall be maintained 24 hours per day, 7 days per week, throughout the period of the contract. Contractors shall have 1 business day to counteroffer any booking processed automatically. For hazardous cargo, Contractor shall respond to cargo offerings within 2 business days after shipper has provided relevant hazardous information to Contractor for determination of acceptance/rejection of cargo offering.

**5.D.4. Direct Booking Procedures**

5.D.4.1. Contractors with established direct booking capabilities shall accept bookings from shippers who are authorized to use Direct Booking procedures. Contractors shall ensure that Direct Booking systems comply with the terms and provisions of this contract. RDD compliance will be measured off the date in the Government's Direct

Booking systems. If the Direct Booking systems have not been updated, Contractors may provide documentation of Direct Booker concurrence of the revised RDD and request credits in CPP.

5.D.4.2. Contractors with Direct Booking capabilities will ensure that the booking acceptance process evaluates "Required Delivery Dates" consistent with its capabilities, especially as Direct Booking offers may not filter out unrealistic bookings, per paragraph 3.B.1.

## **SECTION 6 EQUIPMENT**

### **6.A. Container Standards**

Contractors shall provide containers with clearly marked container numbers that are clean, dry, empty, odor free, suitable for protecting cargo from damage and comply with International Standards Organization (ISO), International Maritime Organization (IMO), and Convention of Safe Containers (CSC) standards.

### **6.B. Reefer Equipment**

6.B.1. The Contractor shall provide refrigerated containers to the stuffing activity in accordance with the booking to include pre-cooling, when requested by the OO. If there is a difference in the temperature requested in the booking and the temperature requested by the consignor, the Contractor shall maintain the temperature requested by the consignor and immediately request guidance from the booking Requester.

6.B.2. The Contractor shall supply reefer containers that maintain a temperature within three degrees Fahrenheit of the in-transit temperature specified for controlled atmosphere and straight chill, and five degrees Fahrenheit for frozen.

6.B.3. If the Contractor is notified that the container is not maintaining the proper temperature, as set forth above, the Contractor shall immediately notify the consignee or shipper and cognizant COR. If the temperature variance is discovered prior to loading on the vessel or at the Port of Debarkation (POD) prior to moving to final destination, the cognizant Brigade Ocean Cargo Clearance Authority (OCCA) may authorize short stop, a joint inspection/survey, and/or to transload cargo to another reefer if it is determined the cargo is fit for continued movement. If it is determined the cargo is compromised post joint inspection or survey, the Contractor shall be responsible for proper disposal and providing the consignee, shipper and cognizant COR with proof of the disposal.

6.B.4. The Contractor shall provide consistent measurement of internal temperature using a digital recorder capable of recording from the available date for a minimum period of 160 calendar days. The internal temperature data shall be accessible at the time of delivery.

### **6.C. Substitution of Equipment**

The Contractor may provide a suitable alternative to the equipment ordered in the booking, at no additional cost to the Government, with prior approval from the OO and the shipper.

### **6.D. Chassis Requirements (container only)**

Containers delivered to the Government, or to its designated representative, or spotted by the Contractor must be provided at no additional cost (except as provided in paragraph 8.F) on a Contractor-provided chassis. The chassis must remain with the container while in the custody of the Government or designated representative; unless this requirement is waived by the cognizant OO. Blanket waivers for specific areas or destinations may be issued by the cognizant OO upon request.

### **6.E. Container Pools**

6.E.1. The Contractor may, at the Government's request and at no cost to the Government, establish and maintain container pools. Expenses for operating container pools shall be borne by the Contractor to include establishing, managing and disestablishing pools, and providing a chassis for each container in the pool. A Contractor's inability to establish and/or maintain container pools may result in fewer bookings at that location.

6.E.2. The Contractor shall provide documentation to the shipper to identify the equipment by Contractor Standard Carrier Alpha Code (SCAC), equipment owner code, and container number when empty containers are

delivered to a shipper for inclusion in a pool. Once the shipper notifies the Contractor that a container is available for pickup, the container is considered loaded and no longer part of the established pool. The Contractor shall replace the empty container when it picks-up a loaded container. The Customer will notify the Contractor if a container is required prior to a loaded container being picked-up and the notification will include if the delay replacement would cause a work stoppage.

6.E.3. When a shipment is delivered to a consignee co-located with a container pool location, the Contractor must submit a RD transaction for the TCN representing the delivered container in accordance with Exhibit 2, PWS, Attachment 1.

6.E.4. The Contractor shall provide the Contracting Officer and SDDC CMO with the container pool agreement memo within 30 calendar days of establishing the pool. This agreement shall be renewed annually within 30 calendar days of the contract or option period award. The agreement shall be done on official letterhead of either the Contractor or shipper and shall be signed by both. An example container pool agreement has been provided Exhibit 2, PWS, Attachment 14.

6.E.5. Contractor shall notify the Contracting Officer within 30 calendar days on the Contractor or Shippers official letterhead when a container pool is discontinued.

#### **6.F. Government Furnished Containers (GFC)**

6.F.1. GFCs include 20 ft and 40 ft ISO containers which are 8 ft - 9.5 ft high and 8 ft wide to include: dry containers, reefer containers, and flatracks, as well as containers configured to 20 ft equivalents. GFCs may be Government-owned or leased containers.

6.F.2. Booking Offers will designate whether containers will be GFCs or Contractor-provided. The Contractor shall provide the same level of service to the carriage of cargo in GFC that is provided to the carriage of cargo in the Contractor's container at no additional cost.

6.F.3. The Contractor shall provide a chassis for GFC shipments whenever the Contractor is responsible for the associated inland transportation, unless this requirement is waived by the local shipping/receiving facility or custom of the trade does not normally call for the use of chassis. Detention shall apply to carrier owned chassis when associated to GFC.

6.F.4. Contract linehaul rates shall apply for transporting loaded GFC. Inland transportation of empty GFC requested by the Government shall constitute a separate inland move subject to contract linehaul rates unless otherwise mutually agreed to by the Contractor and the Government.

6.F.5. The Contractor shall not be entitled to detention for GFC. The Contractor shall return GFC in the same condition as received and shall be liable for loss or damage to the GFC resulting from the contractor's negligence.

6.F.6. When the Contractor provides any Accessorial services in connection with services provided to Government owned/leased containers, the appropriate Contractor rates contained in the Rate Guide shall apply.

6.F.7. Contractor has the right to refuse a GFC for shipment (unless booked as breakbulk) if it is not properly numbered (neutralized), or that does not comply with ISO, IMO and CSC Standards.

#### **6.G. Flatrack Containers**

The Contractor shall furnish flatrack containers as specified in the booking. Contractor shall be paid an additional flatrack surcharge in accordance with the Rate Guide.

#### **6.H. Bulk Liquid Containers**

6.H.1. The Government may furnish 20' tank containers for shipment of bulk liquids by the Contractor.

6.H.2. When a Government furnished tank container is not provided, the Contractor shall provide an acceptable, clean, and empty tank container to the shipper and transport to destination. The consignee shall empty the container of liquid but not necessarily of residue and return it to the Contractor. The Contractor shall be compensated for providing the tank container and for cleaning the empty container by the Tank Container rate in accordance with the

Rate Guide. The Contractor shall be compensated for ocean transportation, and for linehaul or drayage if ordered, at the applicable dry container rate.

## **SECTION 7     TRANSPORTATION (ORIGIN SERVICES, OCEAN, DESTINATION SERVICES)**

### **7.A.   Origin Services**

#### **7.A.1.   Maximum Use of Conveyance**

All linehaul movements by truck must maximize use of the truck with USC cargo. Only when all USC cargo has been accommodated, may a truck be loaded with other cargo adjacent to (but not on top of or inside) USC cargo.

#### **7.A.2.   Providing Empty Containers to Shippers**

##### **7.A.2.1. Spot Date**

7.A.2.1.1. At least 2 business days prior to the spot date annotated in the booking, the Contractor shall notify the cognizant OO, COR, and shipper of any containers which cannot be spotted to meet booking requirements. Failure to provide such notification and/or failure to spot containers or pick up cargo in a timely manner to meet booked vessel may result in a booking cancellation at no cost to the Government.

7.A.2.1.2. Container detention at origin does not apply, except in cases when it has been approved by the Contracting Officer.

##### **7.A.2.2.   Drop and Pick Service**

7.A.2.2.1. When requested by the OO, the Contractor shall provide drop and pick service and shall be compensated \$540 per container.

7.A.2.2.2. Drop and pick service rates will not apply:

1. At Outside Contiguous United States (OCONUS) locations
2. In CONUS, where Contractors have established container pools

7.A.2.2.3. The Contractor shall spot the requested equipment at the location on or before the date and time specified in the booking.

7.A.2.2.4. When requested by the OO, the Contractor shall provide (for bookings of more than one container) round robin drop and pick service at no cost to the Government.

##### **7.A.2.3. Live load**

7.A.2.3.1. The Contractor shall provide live load service at origin as follows:

1. At locations where drop and pick service is not requested by the Government
2. All other locations when requested by the Government
3. When agreed to by the shipper when the Contractor schedules pickup

7.A.2.3.2. The Contractor and the shipper shall set a live load appointment (date and time and specific location).

7.A.2.3.3. In the event the Contractor arrives 30 minutes or later after the agreed upon time, the shipper may load the cargo immediately or reschedule the loading for a later time. In either case, free time starts upon actual start of loading operations.

7.A.2.3.4. The shipper may cancel the appointment and reschedule for a different day. If the shipper provides notification at least two business days in advance of the appointment, the Contractor will reschedule at no additional cost to the Government.

7.A.2.3.5. Driver wait times will be paid in accordance with paragraph 9.I.7.

7.A.2.3.6. At the request of the OO, the Contractor may pick up empty Government owned or leased containers from locations separate from the designated loading location and deliver them to the shipper for loading. Compensation for this is covered in paragraph 6.F. The container shall be spotted at the shipper's location using rules for live load, drop and pick or pool as would apply for a Contractor provided container.

#### 7.A.2.4. Carrier Appointment System (CAS)

For locations in CONUS using CAS, Contractor shall use CAS to make appointments for deliveries, pickup and container spotting.

#### 7.A.3. Hazardous Cargo

7.A.3.1. The Government shall provide accurate and timely hazardous cargo documentation in accordance with applicable laws and regulations. The Contractor shall notify the shipper and cognizant COR of hazardous documentation errors within 2 business days of receipt of Hazardous Documentation. If cargo is lifted and hazardous cargo is not in accordance with laws and regulations, the Carrier will not be granted delays for cargo documentation issues.

7.A.3.2. If the Contractor has policies or procedures on hazardous cargo that are more stringent than the applicable laws and regulations, the Contractor shall communicate those policies or procedures, in writing, to the consignor and cognizant OO or COR within 2 business days of booking acceptance.

7.A.3.3. For origin door bookings involving Hazardous Cargo, the Contractor may, at its discretion, not schedule a pickup of Hazardous cargo from origin if it has not received Hazardous Declarations (HAZDECs) or if HAZDECs do not conform to Contractor's policies or procedures.

7.A.3.4. The Contractor may refuse to transport hazardous cargo either by land or by ocean, which does not conform in all respects to applicable laws and regulations or contractor's policy.

7.A.3.5. Once cargo is in possession of the Contractor, the Contractor is permitted to halt further transport of cargo which does not conform in all respects to applicable laws and regulations or at Government direction, but not due to Contractor's internal policies or procedures.

7.A.3.6. The Government will pay a Hazardous Surcharge on all Hazardous Cargo bookings, except for vehicles with just a declaration of Class 9. The surcharge will be \$90 per inland linehaul.

#### 7.A.4. Scheduling Pick-up

For door origin cargo, the Contractor shall pick up cargo/stuffed containers to meet the booked vessel when the shipper notifies the Contractor it is ready for pick-up. The Contractor shall coordinate pick-up dates/times directly with shipper.

7.A.5. The Contractor shall notify the cognizant COR and shipper or consignee within 24 hours if they have to cancel a scheduled pickup or delivery.

7.A.6. The Contractor shall adhere to installation specific requirements for access requirements and information for pick-up and delivery of cargo.

### **7.B. Breakbulk and RORO Requirements**

#### 7.B.1. Cargo Berth

The Contractor shall load and discharge cargo at a dock, wharf, place, or open roadstead designated by the Contractor, except as provided hereinafter.

#### 7.B.2. Shifting Berths

##### 7.B.2.1. Shifting of Berths, Meeting Minimum Tonnage

7.B.2.1.1. At the request of the OO, the Contractor shall call at, or shift the vessel to any particular dock, wharf, place, or open roadstead at which the vessel can lie always safely afloat at any time of tide or at which the judgment of the vessel master may lie safely aground, and to and from which the vessel may safely proceed.

7.B.2.1.2. The vessel shift request applies for cargo loaded or discharged within a vessel's port of call or other port located in the same port group as listed at Exhibit 2, PWS, Attachment 3, paragraph 1.2.9.2, if booked under Free-In or Free out terms.

7.B.2.1.3. Aggregate of Free-In and/or Free-Out cargo shall meet minimum tonnage of 1,000 measurement tons (MTON) for shifting.

7.B.2.1.4. Contractor shall assess no additional costs to the Government.

7.B.2.1.5. For berthing change requests by OO after the vessel has berthed the Government will reimburse the Contractor for costs incurred in accordance with Exhibit 2, PWS, Attachment 6.

#### 7.B.2.2. Shifting of Berths, Not Meeting Minimum Tonnage

7.B.2.2.1. At the request of the OO, the Contractor shall shift the vessel to a particular dock, wharf, place, or open roadstead.

7.B.2.2.2. The vessel shift request applies for cargo loaded or discharged within a vessel's port of call if booked under Free-In or Free-Out terms yet does not meet minimum tonnage.

7.B.2.2.3. The Government will reimburse the Contractor for costs incurred in accordance with Exhibit 2, PWS, Attachment 6.

#### 7.B.3. Free Terms (Free-In or Free-Out)

##### 7.B.3.1. Stowing of Free-Term Cargo

When cargo is booked as Free-In or Free-Out, the Government shall bring the cargo into the holds, stow it and trim it, tally it, lash it and secure it (Free-In), and take it from the holds and discharge it (Free-Out) with customary dispatch, free of any risk, liability, and expense whatsoever to the Contractor. However, nothing herein shall be construed as an expressed or implied indemnification of the Contractor for any claims arising out of injuries to stevedoring personnel or other personnel involved in cargo operations resulting from negligence of the vessel operator or due to unseaworthiness of the vessel.

##### 7.B.3.2. Dunnage

The Government will provide and lay all dunnage material as required for the proper stowage and protection of Free In cargo on the vessel. The Government will be responsible for and pay the cost of removing their dunnage after discharge of cargo.

##### 7.B.3.3. Loading, Stowing, Trimming, Securing Supervision

Cargo loaded, stowed, trimmed, and secured by the Government shall be under the supervision and to the satisfaction of the Contractor or its representative, typically the vessel master.

##### 7.B.3.4. Acceptable Cargo Space

7.B.3.4.1. The Contractor shall provide acceptable space that is sufficient for the cargo, readily accessible, unobstructed, and free of debris. The Contractor shall bear all expense of providing acceptable space. The Government may reject space provided by the Contractor if the Government determines that the space provided is not acceptable. The Government may offer to properly prepare, clean, ready, and provide normal access to the space. If the Contractor accepts the Government's offer to make the space acceptable, the Contractor shall bear the expense of such work performed by the Government. If Government cargo is not readily accessible and other cargo must first be handled in order to access Government cargo, the Contractor shall make Government cargo accessible at no cost to the Government.

7.B.3.4.2. When the Government performs work per paragraph 7.B.3.4.1, the Contractor (or its designated representative) shall acknowledge the work was done at the contractor's expense by signing the SDDC Form 290. The SDDC Form 290 is a record for the Contractor to reimburse the Government for any expenses that result from the Government performing work to access acceptable cargo space, including any Overtime Differential and Guaranteed Time accrued.

7.B.3.4.3. If otherwise acceptable cargo space is not sufficient because the Government failed to accurately communicate, describe, or specify the cargo to be loaded, then the Contractor shall not bear the burden of making additional space acceptable. The Government shall bear the expense to properly prepare, clean, ready, and provide normal access to the space.

#### 7.B.3.5. Contractor Caused Longshoreman Labor Delay

The Contractor is responsible for costs associated with the following: longshoremen standby due to delay in vessel arrival; longshoremen standby due to vessel inactivity (e.g., door not open, shipboard crane breaks down, ramp not down, or other vessel caused delay); and longshoremen standby to shift Other Ports Cargo (OPC). The Contractor (or his designated representative) shall acknowledge the labor delay caused by signing the SDDC Form 290. The SDDC Form 290 is a record for the Contractor to reimburse the Government for any expenses that result from labor delay due to fault of the Contractor or its vessel, including any Overtime Differential and Guaranteed Time accrued.

#### 7.B.3.6. Business Hours

7.B.3.6.1. Normal Business Hours – CONUS Government-managed terminals normal business operating hours are Monday through Friday, 0800 to 1700 hours local time. OCONUS U.S. Government-managed terminals normal business hours vary. The Contractor shall coordinate with the cognizant SDDC Battalion (BN) for berthing/pier availability at military terminals (includes terminals owned/operated by non-SDDC U.S. Government entities) upon cargo booking.

7.B.3.6.2. Premium Business Hours – All hours outside of U.S. Government-managed terminals' normal business hours to include late night starts (1900 or after), weekends, and Holidays.

7.B.3.6.2.1. When a Contractor requests work at U.S. Government-managed terminals outside of normal business hours the Contractor is responsible for any longshoremen overtime differentials, longshoremen guarantee time, and longshoremen minimum time associated with calling the terminal. The Contractor is also responsible for civilian overtime paid for weekend work and late night starts.

7.B.3.6.2.2. All charges to the Contractor will be submitted SD FORM 290, SD FORM 294, or other approved form.

7.B.3.6.2.3. Contractor shall be exempt for the costs listed in 7.B.3.6.2 for no more than 6 port calls per performance period. Additional port calls may be exempt based on prior coordination with the applicable BN or SDDC HQ.

#### 7.B.3.7. Use of Cargo Handling Gear

The Contractor shall, throughout the duration of loading and discharging operations, give the Government free use of the vessel's cargo handling gear and free use of sufficient motive power to operate all such cargo handling gear.

#### 7.B.3.8. Cranemen, Winchmen, Tallymen, and Other Crew

When requested the Contractor may provide cranemen, winchmen, tallymen, and others from the crew to operate the vessel's cargo handling gear or perform other stevedore functions on the vessel unless prohibited by local regulations. The Contractor shall not be held responsible for refusal of the crew to perform the additional tasks described in this Section. The crew shall be under the Government's risk and responsibility and as stevedores to be deemed as their servants but shall always work under the supervision of the vessel master.

#### 7.B.3.9. Reimbursement of Crew Costs

When such services are performed by the crew in, the Government shall reimburse the Contractor in accordance with Exhibit 2, PWS, Attachment 6 for (a) additional labor costs actually incurred in conformity with labor

agreements and (b) any increased cost or premiums for insurance coverage, in addition to costs not covered by insurance, resulting from compliance with this paragraph.

#### 7.B.3.10. Stevedore Damage

The Government shall be responsible for damage (beyond ordinary wear and tear) to any part of the vessel caused by stevedores, unless cargo is booked under liner terms. Such damage shall be notified as soon as reasonably possible by the vessel master to the Government or its agents and to its stevedores, failing which the Government shall not be held responsible. The Government is obliged to repair any stevedore damage prior to completion of the voyage but shall repair stevedore damage affecting the vessel's seaworthiness or class before the vessel sails from the port where such damage was caused or found. All additional expenses incurred shall be for the account of the Government and any time lost shall be for the account of and shall be paid to the Contractor by the Government at the demurrage rate.

#### 7.B.4. Liner -Terms

7.B.4.1. The Contractor shall provide service on a liner-term basis when ordered and where accessorial rates are awarded.

7.B.4.2. Stowage Preplans/Plans: When cargo is loaded by a Breakbulk carrier, the Contractor shall provide to the cognizant SDDC offices to include the Government operated terminal and OO responsible for the loading or discharging port, and to SDDC HQ, a final "as loaded" stow plan via email. The stow plan shall be prepared using the Integrated Computerized Deployment System (ICODES) and shall indicate at a minimum the seaport of embarkation, seaport of debarkation, stow location, pertinent dimensions and weights, TCN, and Model Number of all DTS cargo loaded at each seaport of embarkation. Contractor shall provide a graphical indication on the stow plan for all non-DTS cargo labeled as "commercial cargo for (SPOD)". Email SDDC HQ at [usarmy.scott.sddc.mbx.terminals-team@army.mil](mailto:usarmy.scott.sddc.mbx.terminals-team@army.mil). Upon request, the Government will provide the load list to Breakbulk carriers a minimum of 5 business days prior to vessel arrival at origin.

7.B.4.3. In the event the Government decides to produce the stow plan, the Contractor is relieved of this requirement for that specific loading operation.

### 7.C. Containerization for the Convenience of the Contractor

7.C.1. For breakbulk cargo booked by the Government on a liner-term basis, the Contractor may choose to containerize the cargo for its own operational convenience without any additional cost or expense to the Government. Cargo containerized for the convenience of the Carrier shall be considered breakbulk cargo for the purpose of computing the cargo guarantees for this contract with the exception of Port Storage. The Contractor may invoice Port Storage for A1/A2 or HG/HR caused delays utilizing the container Tariff if the cost is less than the breakbulk cost.

7.C.1.1. When the Contractor plans to containerize cargo for convenience they shall not delay the onward movement of cargo in order to maximize the containers usage. Any delay caused by maximizing usage will be considered Carrier Caused.

7.C.1.2. The Contractor must notify the shipper of the change in Vessel Cut-Off dates in order for cargo to be containerized for convenience. Cargo rolled to the following vessel shall be a Carrier Caused Roll if coordination was not done.

7.C.2. Cargo booked as breakbulk on a port basis must be decontainerized and made available to the customer by the RDD established in the booking. The Contractor must complete decontainerization (and any other Contractor obligations at the POD, such as Customs Clearance) prior to notifying SDDC and consignee that cargo is ready and available for pickup.

7.C.3. For cargo booked to door, the Contractor shall decontainerize the cargo at POD prior to onward movement unless delivery of containerized cargo is mutually agreed to by the Government and the Contractor prior to delivery.

7.C.4. Container detention is not applicable if Contractor containerizes cargo for their own convenience.

### 7.D. Ocean Transportation

**7.D.1. Cargo Lift and Advancement**

7.D.1.1. The Contractor shall lift cargo onto the vessel identified in the booking or to an earlier arriving vessel. Cargo advanced to an earlier arriving vessel shall not displace no-shows and rollovers from previous voyages or cargo already booked. Cargo may be advanced only if the Contractor has received all required documentation. Contractor will notify shipper and origin OO when cargo is advanced. Advancement of cargo shall not create a liability to the Government, if no liability would exist if cargo had not been advanced.

7.D.1.2. For shipments that were advanced without proper coordination for early delivery in accordance with paragraph 7.F.1, charges and free time shall be calculated based on the RDD agreed to in the booking.

7.D.1.3. The Contractor shall not advance cargo to a vessel that has a lower VISA or flag priority than the booked vessel without prior written approval from the OO.

7.D.1.4. The Contractor shall submit an entry and supporting documentation into the PAT Booking Reconciliation Tool (BRT) identifying all cargo that, for any reason, was not lifted onto the vessel identified in the booking – whether advanced to an earlier vessel, delayed to a later vessel (roll, shutout, Force Majeure, etc.), different number of pieces/containers, or any other discrepancy between the booking and the cargo lifted.

7.D.1.5. For movements with a firm Available Load Date (ALD), at the time of booking, the Contractor shall lift the cargo as booked. If the vessel schedule slips and will result in the Unit movement cargo missing the ALD, the booking could be canceled.

**7.E. Cargo Clearance Service**

The responsibilities for cargo clearance under this contract are shared between the Contractor and Government.

**7.E.1. Government Responsibility for Cargo Clearance**

7.E.1.1. For many locations, the Government has principal responsibility for cargo clearance and performs the majority of tasks incident to clearance. These include the preparation of documents or entry into automated customs systems but, by local practice the Government may require the Contractor to perform tasks such as document pickup and delivery, presentation of documents to appropriate customs officials and payment of processing fees. Costs incurred by the Contractor to provide these incidental services shall be included in applicable ocean or single factor rates. Table 7.E.1 identifies a list of locations where the Government typically has principal responsibility for cargo clearance. Unless ordered in the booking, Contractor-Arranged Cargo Clearance is not payable at these locations:

Table 7.E.1

United States, including territories and possessions except Guam
Canada
Japan, including Okinawa
South Korea
Kuwait
Egypt
Belgium
Bulgaria
Germany
Greece
Italy
Netherlands
Norway
Portugal, including Azores
Romania
Slovenia
Spain (See Paragraph 7.E.1.5)
Turkey
Israel

United Kingdom, including territories and possessions
---

7.E.1.2. Hardcopy document clearance process:

1. Government prepares a cargo clearance request package (complete except for any carrier provided documents).
2. Government may submit to customs or give to the Carrier for the Carrier to combine with carrier documents (such as bill of lading) and deliver to customs officials, pay minor processing fees, obtain approvals and notify additional personnel requiring notification upon clearance approval.

7.E.1.3. Additional countries may be added to Table 7.E.1 should it be determined that the Government has increased its presence in a country, and that the Government shall provide clearance services as described by paragraph 7.E.1. Countries shall be removed from Table 7.E.1 via bilateral modification should it be determined that the Government has decreased its presence in those countries, and that the Government can no longer provide clearance services as described by Table 7.E.1.

7.E.1.4. When the Government requests cargo be moved under the T1 process, the Contractor shall be paid the Cargo Clearance accessorial.

7.E.1.5. Due to the absence of a TMO at Algeciras, Alicante, A Coruña, Barcelona, Bilbao, Cartagena, Castellon, Santander, Malaga, Valencia, Tarragona, and Gijon ports, the Contractor shall include costs for this service in the applicable single factor or inland (linehaul/drayage/mileage) rate. Additionally to the Contractor's basic service, the Contractor shall present the arrival notice and/or cargo manifest to the Government appointed broker. The Government appointed broker will then present certified and authenticated Customs Free Import or Export Forms (A7, A8 or A9) together with the arrival notice and/or cargo manifest, to the respective customs office for final customs clearance. The Contractor shall include costs for this service in the applicable single factor or inland (linehaul/drayage/mileage) rate for Door movements. For Port movements, the Contractor may submit the Spanish Customs Broker fee as a pass-through in accordance with Attachment 6.

7.E.2. Contractor Arranged Cargo Clearance

7.E.2.1. When Contractor arranged Cargo Clearance is ordered by the Government, the Contractor has principal responsibility for cargo clearance.

7.E.2.2. Contractor arranged Cargo Clearance includes all services required by local practice. These services include, but are not limited to, the following:

1. Coordination with shipper/consignee and local customs authorities to obtain and/or prepare (except for signature) all necessary documentation for cargo clearance;
2. Prepare and Provide forms/documents to receiver/Government for signature;
3. Deliver documents to the customs office, and ensure that documentation is provided to all local entities as required to permit release and on-carriage of cargo to final destination.

7.E.2.3. When this accessorial service is ordered and provided, the Contractor shall be paid the cargo clearance accessorial in accordance with the Rate Guide. Cargo clearance shall be paid per container or piece in Iraq, Kuwait, and Saudi Arabia. For all other locations where contractor arranged cargo clearance is required, it shall be paid per PCFN. When a PCFN is split over two or more VOYDOCs, due to no fault of the Contractor, cargo clearance will be applicable for each VOYDOC.

7.E.2.4. The shipper will provide the Contractor with appropriate shipper generated customs documents in a timely manner in accordance with the Defense Transportation Regulation (DTR) and relevant Business Rules. If shipper fails to do so within two business days of sail from Port of Embarkation (POE), the Contractor will notify shipper and SDDC HQ Documentation Team or cognizant SDDC (or other Government) Transportation BN by e-mail.

7.E.3. Import/Export Services:

7.E.3.1. When cargo transits between countries as part of the linehaul service ordered by the OO, the Contractor shall be responsible for the preparation and/or completion of all required documentation and the submission of the

documentation to the appropriate embassy and/or local Government agencies for the approval, certification, stamping and/or signatures necessary to obtain border clearances and transit. Costs for these services shall be included in linehaul rates. **In the USAFRICOM AOR linehaul should also include the Electronic Cargo Tracking Note (ECTN) or local equivalent fee.**

7.E.3.2. The requested services include, but are not limited to: the completion, preparation, and submission of exemption forms, cargo declarations, goods declaration forms, and importation/exportation forms necessary to effect border transit between the origin or destination and the port.

#### 7.E.4. Interagency or Diplomatic Clearance Responsibility

7.E.4.1. In accordance with Joint Publication 4-09 Distribution Operations, Section 2.f, GCCs are responsible for coordinating interagency and diplomatic activities, however, to facilitate interagency and diplomatic communication, GCCs may require information from the Contractor. The Contractor is expected to respond in a timely manner for information that is known by the Contractor and pertinent to the interagency or diplomatic clearance process.

7.E.4.2. The list of required data elements to support interagency or diplomatic clearances can vary, but routinely, the Contractor can expect to provide data such as truck number, driver name, identification number (e.g., passport or identification card), local point of contact, or route details. This list is not all inclusive and will vary based on the country granting the clearance.

7.E.5. The Contractor shall promptly notify the cognizant COR and SDDC BN within 24 hours if cargo is held up by Customs, or if the local port authorities require direct Government intervention for cargo customs clearance.

### 7.F. Destination Services

#### 7.F.1. Delivery Notification and Receipt

7.F.1.1. For cargo booked to port, the Contractor shall provide written notification to consignee/consignee's agent and cognizant SDDC office two times, once at least 3 calendar days prior to scheduled vessel arrival at port of debarkation (or within 24 hours after vessel departure from POE for sails shorter than 3 calendar days) and once after cargo is ready for pickup and gate pass is available for outgate. This second notification shall be made only after contractor has completed all its obligations at POD, including but not limited to: (a) stripping flatracks/containers of cargo, and/or (b) performing customs/other obligations so that gate pass is available). If gate pass is not available solely due to Government failure, contractor shall advise accordingly. The second notification is not required for cargo booked to port on free-out terms.

7.F.1.2. For destination door cargo, the Contractor shall adhere to installation specific requirement and schedule all deliveries using CAS, where applicable, or in writing with the consignee or consignee's agent prior to any actual or attempted delivery. Written notification shall take place prior to departure of cargo from POD or intermediate intermodal point (e.g., barge or rail terminal), and at least 2 business days prior to planned delivery, unless otherwise agreeable to consignee. Under no circumstances shall the Contractor deliver containers or pieces on the same day as notification unless specifically requested by the consignee.

7.F.1.3. The Contractor shall deliver all containers or pieces to each consignee during the consignee's normal business hours unless mutually agreed upon by consignee and the Contractor at no additional cost to the Government.

7.F.1.4. The Contractor shall deliver on a specific day if requested by the consignee provided the Contractor can accommodate the request using the Contractor's normal service at no additional charge.

7.F.1.5. If the date the delivery is requested is later than the RDD, the Contractor may request staging. If the delivery date is prior to the RDD, the Contractor may request delay in accordance with DRAP business rules.

7.F.1.6. The Contractor shall notify the cognizant COR and shipper or consignee within 24 hours if they have to cancel a scheduled pickup or delivery.

7.F.1.7. The Contractor shall provide a delivery receipt for the consignee or consignee's agent to sign to acknowledge receipt of the containers or pieces and to annotate any exceptions. Refusal to sign a delivery receipt shall be promptly reported by Contractor to the COR.

7.F.1.8. A legible copy of the proof of delivery shall be made available by the Contractor upon request.

7.F.1.9. A signed delivery receipt with no damage noted does not preclude the Government from pursuing a claim for damages discovered after delivery. If damage is later discovered, the Contractor will be notified within three calendar days of discovery and requested to survey cargo. Contractor may inspect the shipment within seven calendar days from the date of notification.

7.F.1.10. Delivery receipt (ex. Proof of Delivery) shall contain the following information: carrier, PCFN, IBS TCN, container number (if applicable), consignee DoD Activity Address Code (DoDAAC) or Military Assistance Program Address Code (MAPAC) final destination location, truck number, driver name, date cargo arrived at final destination, date/time cargo in-gated at final destination, date/time cargo off-loaded at final destination, printed consignee name, consignee's signature, remarks section. Additional information may be included as necessary.

#### 7.F.2. Live Unload

7.F.2.1. The Contractor shall provide live unload service at destination as follows:

7.F.2.1.1. At all locations when requested by the Government

7.F.2.1.2. When agreed to by the receiver when the Contractor schedules delivery

7.F.2.2. The Contractor and the receiver shall set a live unload appointment (date and time and specific location).

7.F.2.3. In the event the Contractor arrives 15 minutes or later than the agreed upon time, the receiver may unload the cargo immediately or reschedule for a later time. In either case, free time starts upon actual start of unloading operations.

7.F.2.4. The receiver may cancel the appointment and reschedule for a different day. If the receiver provides notification at least two business days in advance of the appointment, the Contractor will reschedule at no additional cost to the Government.

7.F.2.5. Driver wait time will be paid in accordance with paragraph 9.I.7.

7.F.2.6. Shipments delivered with evidence of tampering or loss shall be investigated by base security and drivers may be detained for questioning by base security. If investigation determines no tampering occurred, applicable wait time rates will be paid. If the investigation determines that tampering/pilferage has occurred, wait time will not be payable. For exigency areas, the Government will invalidate the AV transaction.

#### 7.F.3. Container Pick Up/Return

Empty containers must be removed within 7 calendar days after receiving notice from the Government that the container is available. The Government may submit documentation to the Contractor for payment of additional costs incurred as a result of Contractor's delay. For Exigency Areas, see the Exigency Annex.

#### 7.F.4. Drop and Pick Service

7.F.4.1.1. When requested by the OO, the Contractor shall provide drop and pick service and shall be compensated \$540 per container.

7.F.4.1.2. Drop and pick service rates will not apply:

1. At OCONUS locations
2. In CONUS, where Contractors have established container pools

7.F.4.1.3. The Contractor shall drop the requested equipment at the destination location on coordinated delivery date.

**7.G. Linehaul for Breakbulk and Out-of-Gauge (OOG) Cargo Booked on Flatrack**

7.G.1. The Contractor shall provide breakbulk linehaul service when ordered and when rates have been awarded from origin to POE and/or from POD to destination. When origin door service is ordered Contractor shall provide liner service at POE; when door service to destination is ordered Contractor shall provide liner service at POD.

7.G.2. Flatbed (FB) and Double Drop (DD) Service

7.G.2.1. OOs may order linehaul for breakbulk shipments using flatbed or double drop rates when:

7.G.2.1.1. The weight of any single piece does not exceed 44,000 pounds for flatbed or 40,000 pounds for double drop.

7.G.2.1.2. The height of the cargo, when loaded on the equipment, does not exceed 13 feet 6 inches.

7.G.2.1.3. The width does not exceed 11 feet.

7.G.2.2. Service Requirements

7.G.2.2.1. Contractor's loading of cargo on conveyance at POD and removal from conveyance at POE is included in liner term rates for breakbulk. Costs for securing cargo onto conveyance are included in Contractor's inland rates for flatbed and double drop service.

7.G.2.2.2. For cargo moving on flatracks:

7.G.2.2.2.1. The container dry cargo linehaul rate shall apply for in-gauge cargo per container rule; however, Contractor may transload to flatbed or double drop for their own convenience.

7.G.2.2.2.2. For OOG cargo on flatrack, the Contractor shall be paid for the flatbed or double drop service as required by the height of the cargo and paid the transloading rate to transload the cargo.

7.G.2.2.2.3. EDI reporting requirements apply for events as specified in Exhibit 2, PWS, Attachment 1.

7.G.2.3. Pricing and Rate Rules.

7.G.2.3.1. Linehaul shall be priced by type of equipment and separately for in-gauge and over wide cargoes as follows:

<u>UHeight</u>	<u>UWidth</u>	<u>UEquipment Type</u>
Up to 10'6" (126")	Up to 8'6" (102")	Flatbed in-gauge*
Up to 10'6" (126")	Over 8'6" up to 11' (103"- 132")	Flatbed OOG*
Over 10'6" up to 11'8" (127" – 140")	Up to 8'6" (102")	Double drop in-gauge**
Over 10'6" up to 12' (127" – 144")	Over 8'6" up to 11' (103"- 132")	Double drop OOG**
* Not to exceed 44,000 lbs. ** Not to exceed 40,000 lbs.		

7.G.2.3.2. There are two categories of equipment:

7.G.2.3.2.1. Flatbed includes drop deck.

7.G.2.3.2.2. Double drop includes removable gooseneck (RGN).

7.G.2.3.3. Equipment length is as required to move the cargo safely and in compliance with local laws and regulations but should not exceed 53 feet. Calculation of usable space per conveyance should not exceed 480" per conveyance.

7.G.2.3.4. Cargo with a width less than or equal to 8.5 feet is considered in-gauge.

7.G.2.3.5. Cargo that exceeds 8.5 feet but does not exceed 11 feet is considered overwidth.

- 7.G.2.3.6. Cargo with a height less than or equal to 10.5 feet is considered in-gauge.
- 7.G.2.3.7. Cargo that exceeds 10.5 feet but does not exceed 12 feet is considered OOG for double-drop.
- 7.G.2.3.8. Dimensional and weight limits may be exceeded when mutually agreed to by an OO and the Contractor.
- 7.G.2.4. The Contractor shall be paid for each piece of equipment used when optimized in accordance with 7.G.2.5.1.
- 7.G.2.5. If more than one piece can be loaded per conveyance:
- 7.G.2.5.1. The Contractor shall organize available cargo to trucks and use best practices to minimize the number of conveyances used.
- 7.G.2.5.2. The tallest piece shall determine whether the conveyance shall be priced as flatbed or double drop; the widest piece shall determine whether the conveyance shall be priced as in-gauge or OOG.
- 7.G.2.6. If cargo ordered on different bookings is loaded on the same conveyance, the Contractor may only bill once for the equipment.
- 7.G.2.7. Chains and binders shall be provided by the Contractor as required to properly secure cargo to the conveyance. Chains and binders remain the property of the Contractor.
- 7.G.2.8. Extra driver service can be ordered by the OO at time of booking or at any time before the cargo departs the port. The Contractor shall be compensated for extra driver service at \$0.50 per one way mileage subject to a minimum of \$190.00.
- 7.G.2.9. Shipper-owned containers shall move at Contractor's container linehaul rates or flatbed in-gauge rates, whichever are lower. Three tricons or four quadcons shall move as one 20-ft. container for rate calculation.
- 7.G.2.10. The Contractor shall be compensated for costs incurred, not to exceed \$145.00, for pickup or delivery ordered and provided on a non-business day.
- 7.G.2.11. The Contractor may choose to use other types of equipment that can accommodate the cargo; however, the Contractor shall be paid for flatbed or double drop service as determined by the height of the cargo as specified in paragraph 7.G.2.3.1.
- 7.G.2.12. When requested by an OO to meet operational requirements or local regulations, the Contractor shall provide double drop conveyances in lieu of flatbeds. In such instances, Contractors are entitled to invoice at the appropriate double drop rates.

## **SECTION 8 ACCESSORIALS**

Accessorials services, when ordered by the OO and provided by Contractor, shall be paid in accordance with the Contractor's established rate in the Rate Guide, or at the Government-set rate if applicable.

### **8.A. Expedited Service (USEUCOM AOR)**

- 8.A.1. The Contractor shall provide expedited destination linehaul when ordered by the OO. For distances up to 400 miles, the Contractor shall deliver the container to consignees in USEUCOM within 2 business days of vessel discharge or cargo clearance (including Veterinarian clearance/inspections as applicable) of such containers, whichever is later. An additional day will be granted for each additional 400 miles. The Government will accept a later delivery date when mutually agreed upon by the OO and the Contractor in advance.
- 8.A.2. When the Contractor schedules delivery by appointment for a mutually agreed time and date the consignee shall be required to live unload containers transported under expedited delivery service ordered by the Government.
- 8.A.3. Expedited destination linehaul of shipments requested en route, but prior to commencement of on-carriage at port of debarkation shall be by mutual consent of the Government and the Contractor.
- 8.A.3.1. Contractors shall be compensated according to the following schedule for expedited delivery services:

<b><u>UEXPEDITED DESTINATION LINEHAUL SERVICE SCHEDULE</u></b>	
Minimum Charge (up to 199 miles)	\$368.00
200 miles to 400 miles	\$473.00
401 miles to 599 miles	\$788.00
Over 599 miles	\$788.00 plus \$0.30 per mile for each mile over 599

**8.B. Stop-off Service In Transit**

8.B.1. Stop-off service can consist of up to four live-load stops on the origin linehaul and up to four live-offload stops on the destination linehaul. Neither the pickup from the first origin nor delivery to the last destination constitutes a stop-off.

8.B.2. Driver Free Time shall be allowed for each stop-off in accordance with paragraph 9.I.

8.B.3. When two to three stop-offs are ordered, an additional transit day shall be allowed. When four stop-offs are ordered, two additional business days shall be allowed.

8.B.4. The Contractor shall provide up to a maximum of four Government-ordered stop-offs per container when ordered at the time of the booking. The service shall consist of spotting the container on a chassis at a location designated by the Government for loading and unloading.

8.B.5. A "per container" stop-off charge of \$158 CONUS and \$236 OCONUS shall be paid for each stop-off.

8.B.6. In the event the requested stop-offs result in route variation of more than 50 miles, an additional stop-off charge will be paid for each 50 miles or fraction thereof. The baseline for determining total route variation will be the distance between the origin and Contractor's terminal at POE (for origin stop-off service) or between the Contractor's terminal at POD and the final delivery destination (for destination stop-off service). The difference between total distances traveled as a result of the stop-offs and the baseline distance will be used to determine additional stop-off charges.

8.B.7. The Defense Table of Official Distances (DTOD) shall be the system of record for calculating distances between each stop-off location.

8.B.8. For delivery of stop-off cargo, Contractor will adhere to delivery notification and receipt requirements in accordance with paragraph 7.F.1.

**8.C. Cargo Concealment (Tarping)**

8.C.1. When ordered by the OO, the Contractor shall provide necessary material to cover the cargo completely so that the cargo is concealed from view while being transported on land, either for origin linehaul, destination linehaul, or both.

8.C.2. In a limited number of cases, the OO may also require concealment at sea. In those cases, Contractor may either stow the cargo below deck, or stow on deck and tarp the cargo. If Contractor chooses the latter, there will be no additional compensation.

8.C.3. Concealment materials shall be weather resistant, non-transparent and shall remain secured and in place during the movement of cargo. The Contractor shall repair or replace any material used for concealment if damaged in transit.

8.C.4. In addition, concealment material shall remain on the cargo until final destination unless otherwise directed by the Government. The Contractor shall be responsible for the removal and the disposal of such material, unless otherwise directed by the Government.

**8.D. Supercargo**

When ordered by the OO, the Contractor shall provide supercargo transportation service and will be paid the supercargo rate in accordance with the Rate Guide. The service shall consist of transporting, providing meals for, and accommodating on the vessel, one or more personnel designated by the Government to accompany the cargo.

#### **8.E. Flatrack Tie-Down Equipment Surcharge**

When ordered by the OO, the Contractor shall deliver the empty flatrack with supplies and materials to secure the load to the flatrack appropriate for the cargo as described in the booking. The Contractor is not required to provide dunnage. Surcharge includes price for load binders and chains. Load binders and chains shall not be returned to the Contractor with the empty flatrack. Other supplies such as wire rope may be retained by the receiver, discarded or returned to the Contractor. The Contractor shall be paid the Flatrack tie-down equipment surcharge rate in accordance with the Rate Guide.

#### **8.F. Chassis (From Port)**

Containers that are booked on a from-port basis (i.e., without origin linehaul or origin drayage) shall be provided on a Contractor-provided chassis only if a Chassis Accessorial is ordered at a fee of \$90 per 20-foot chassis and \$160 per 40-foot chassis.

#### **8.G. Washing and Rinsing**

##### **8.G.1. Exterior Cargo Rinsing Service**

8.G.1.1. The purpose of cargo rinsing service is to remove road dirt and other contaminants from cargo that was cleaned and found to be acceptable for entry into the U.S. prior to tendering to the Contractor. When ordered by the OO, Contractor shall clean cargo to a condition acceptable for entry.

8.G.1.2. Rates apply at the ports named by the Contractor and include costs to move cargo to the rinse facility or to move rinse equipment to the cargo.

8.G.1.3. The Contractor may choose where to perform the rinsing service; however, the payment shall be based on the lowest rate offered at the POE or any transshipment port where the cargo is physically removed from the vessel for transshipment, unless location is specifically directed by the OO.

8.G.1.4. The Contractor shall re-rinse cargo at POD if rejected by customs/agriculture authorities, at no cost to the Government, if it is determined that rejection occurred at fault of Contractor.

8.G.1.5. For cargo containerized by the Government, rinsing service applies to exterior of container. For cargo containerized at Contractor's convenience, rinsing applies to exterior of cargo.

##### **8.G.2. Exterior Cargo Washing Service**

8.G.2.1. All cargo entering the U.S. must be free from contaminated soil and pests and must comply with 7 Code of Federal Regulations (CFR) 330.300, DTR 4500.9R, Part V, Chapter 502, 505, and Chapter 506. Detailed cleaning and inspection procedures can be found in the Armed Forces Pest Management Board Technical Guide No. 31.

8.G.2.2. Rates apply at the ports named by the Contractor and include costs to move cargo to the wash facility or to move the wash equipment to the cargo.

8.G.2.3. The Contractor may choose where to perform the washing service; however, the payment shall be based on the lowest rate offered at the POE or any transshipment port, unless the location is specifically directed by the OO.

8.G.2.4. The Contractor shall re-wash cargo at POD if rejected by customs/agriculture authorities at no cost to the Government if it is determined that rejection occurred at fault of Contractor.

8.G.2.5. For cargo containerized by the Government, washing service applies to exterior of container. For cargo containerized at Contractor's convenience, washing applies to exterior of cargo.

##### **8.G.3. Interior Cargo Washing Service**

8.G.3.1. The vehicle cab and all interior storage and tool compartments must either be swept, compressed air cleaned, sprayed with water, and/or wet/dry vacuumed, including the floor, under seats, trunk, spare tire and spare tire well. When utilizing water pressure machines or steam to clean, cover the dashboards and areas where electronics may be damaged with plastic or other protective lining prior to starting. The focal point of the interior cleaning should be the floorboard area, including lower compartments utilized for storage where most soil

accumulates. Interior must be cleaned to U.S. Department of Agriculture (USDA) Standards. If cargo fails inspection, Contractor is not entitled to payment.

8.G.3.2. Upon tender to the Contractor, the vehicle will be free from all contraband to include weapons, ammunition and classified material. Contractors may refuse to accept cargo from the Government/shipper if cargo is not free of these materials.

8.G.3.3. Rates apply at the ports named by the Contractor and include costs to move cargo to the wash facility or to move the wash equipment to the cargo.

8.G.3.4. The Contractor may choose where to perform the washing service; however, the payment shall be based on the lowest rate offered at the POE or any transshipment port, unless the location is specifically directed by the OO.

8.G.3.5. The Contractor shall re-wash at POD if rejected by the customs/agriculture authorities, at no additional cost to the Government if it is determined that rejection occurred at fault of the Contractor.

#### **8.H. Cargo Handling and Transloading Services**

##### **8.H.1. Cargo Handling Export Services**

When ordered by the OO, the Contractor shall provide all labor, material, and equipment necessary to receive cargo; unload from inbound conveyance; tally cargo; load and secure cargo into containers; provide intra-terminal transfers; supply necessary blocking, bracing, and dunnage; supply and apply seals to container doors; and submit reports in accordance with Exhibit 2, PWS, Attachment 2. Accessorial includes all services from in-gate and receipt of cargo through stuffing of container at the POE, as well as the Verified Gross Mass (VGM) certification required by the International Convention for the Safety of Life At Sea (SOLAS), and to provide the VGM to all stakeholders, including the Shipper and cognizant SDDC office.

##### **8.H.2. Cargo Handling Import Services**

When ordered by the OO, the Contractor shall provide all labor, material, and equipment necessary to receive and unstuff container; load and secure cargo to outbound conveyance; tally cargo; provide intra-terminal transfers; supply necessary blocking, bracing, and dunnage; and submit reports in accordance with Exhibit 2, PWS, Attachment 2. Accessorial includes all services from receipt of container through unstuffing of container and out-gate at POD.

##### **8.H.3. Transloading Services**

When ordered by the OO, the Contractor shall provide all labor, material, and equipment necessary to transfer cargo from one conveyance to another, to include intra-terminal transfers or Government approved inland transfer location.

#### **8.I. Side-Load Chassis**

When ordered by the OO, Contractor will provide a side-load chassis. The Contractor will be paid the Side-Load Chassis rate in accordance with the Rate Guide.

#### **8.J. Superload Accessorial**

Superload Accessorial rate will apply when requested by the OO and shall apply to cargo that either exceeds 140 inches high but does not exceed 156 inches high or exceeds 132 inches wide but does not exceed 144 inches wide, or both. The charge shall apply per conveyance at the Contractor's rates contained in the Rate Guide and shall be used in conjunction with the linehaul rate.

#### **8.K. Veterinarian Inspectable Products (USEUCOM only)**

8.K.1. This Accessorial is a rate per container with each container requiring no more than 7 Common Health Entry Documents (CHEDs). Accessorial includes document preparation, data entry and related services for veterinary inspectable products entering the European Union. If more than 7 CHEDs are required for a single container, Contractor shall invoice for the additional CHEDs in accordance with Exhibit 2, PWS, Attachment 6. Subcontractor third party invoices shall be in the English language and/or accompanied by a translation into English language.

8.K.2. Contractor shall provide all required processing and clearance services to facilitate clearance of DoD Class 1 shipments containing veterinarian inspectable products entering the European Union (EU) under Article 11 (transit to a third country) of EU Council Directive 97/78/EC or Article 12 (transit to a customs warehouse) of the Directives. The exact process prescribed by the local authorities may vary slightly at each POD, as may the specific information systems used to generate the required documentation. Contractors shall understand the local process and requirements.

8.K.2.1. The following is applicable to all veterinarian inspectable containers entering the EU:

8.K.2.1.1. The Contractor will provide the proper management and oversight of this process to ensure the Government shipments are not delayed.

8.K.2.1.2. The Government will make available to the Contractor the USDA Food Health Transit Certificates, and other food health type documents as applicable, as supplied by the shipper. These documents will be made available at the applicable 598<sup>th</sup> BN premises and e-mailed to the Carrier. These documents will be made available in advance of the shipment arrival at the (POD with sufficient time for the contractor to process and clear the shipments without delaying the onward movement of the cargo.

8.K.2.1.3. The Contractor will prepare the CHED and/or enter data into TRACES (or similar/successor information processing system) and/or intermediate/interface systems as required by local authorities using the data from the Government supplied food health documents.

8.K.2.1.4. The Contractor will ensure the document and/or data entry is complete and accurate based on the Government provided information and is properly submitted to the local authorities in a timely manner so the Government cargo is not delayed.

8.K.2.1.5. The Contractor will immediately notify the Government should the Government supplied documentation be found incorrect, insufficient, or otherwise defective. The Contractor will immediately notify the Government should there be any other issues that arise in the clearance process that may cause a delay or if additional information is needed to facilitate the timely clearance of Government cargo by local authorities. The Contractor will also notify the Government of any containers that have been selected for a “full-identity” (physical, open door inspection) check or when discrepancies are noted during the document check.

8.K.2.2. The following is applicable to all veterinarian inspectable containers entering the EU under Article 11 (transit to a third country) of EU Council Directive 97/78/EC:

8.K.2.2.1. Contractor must facilitate/coordinate a seal check with local customs, veterinarian authorities and/or terminal operators as local practice dictates. Depending on local requirements, this seal check may be performed in place, or the container may need to be placed in an inspection area. This element of work includes all costs associated with the seal inspection, including (but not limited to); movement on the terminal, movement to/from inspection areas, seal check, plugging/unplugging refrigerated containers and all administration/coordination of the process. Contractor shall invoice for seal checks in accordance with Attachment 6. Subcontractor third party invoices shall be in the English language, if this is not possible, an English translation must be provided by Contractor to accompany such invoice.

8.K.2.2.2. The Contractor will promptly notify the Government when discrepancies are noted during the seal check in accordance with paragraph 9.M.

8.K.2.3. The following is applicable to all veterinarian inspectable containers entering the EU under Article 12 (transit to a customs warehouse) of EU Council Directive 97/78/EC:

8.K.2.3.1. The Contractor must facilitate/coordinate a “full-identity” check (physical, open door inspection), of the container with local veterinarian authorities. This element of work includes all costs associated with the full-identity check, including (but not limited to); movement on the terminal, movement to/from inspection areas, plugging/unplugging refrigerated containers and all administration/coordination of the process. The Contractor shall invoice for “full-identity” check in accordance with Attachment 6. Subcontractor third party invoices shall be in the English language.

8.K.2.3.2. The Contractor will promptly notify the Government when discrepancies are noted during the seal check.

8.K.2.4. It is understood that local customs/health authorities, being an autonomous government organizations, may on occasion direct additional "full-identity" checks (physical, open door inspections), random spot checks and other inspections as they deem necessary. Any supporting documentation provided by autonomous government organizations may be in the local or recognized languages of the host nation.

#### **8.L. Dual Temperature Refrigerated Containers**

Dual compartment refrigerated containers that allow two different temperature settings (i.e., chill and freeze) in the same container allowing the simultaneous transport of multiple commodities. The Contractor will be paid the Dual Temperature Reefer Service rate in accordance with the Rate Guide when such equipment is ordered and provided.

#### **8.M. Modified Atmosphere Containers**

Modified atmosphere service shall consist of furnishing a system that is designed to reduce spoilage to perishable container contents by introducing preservative gases or otherwise reducing the level of activity of oxygen in the container for the period from the time the container is closed, sealed, and charged with gas after stuffing until the seal is broken at the time of delivery of the container to the first consignee, or at such time as is mutually agreed upon at the time of booking. Refrigerated containers that protect refrigerated products from heat, cold and certain gases, including oxygen, to impede the deterioration of goods and chemical reactions with gases and typically involves the purging of most gases first before a new mixture of gases (at optimum levels and amounts for the commodity being shipped) is injected into the container after it has been sealed. The Contractor will be paid the Modified Atmosphere rate in accordance with the Rate Guide when such equipment is ordered and provided.

#### **8.N. Controlled Atmosphere**

The Contractor's controlled atmosphere service consists of furnishing a self-contained computerized system capable of monitoring and adjusting the atmosphere in a refrigerated container after the Contractor has introduced preservative gases in the container. The system is designed to reduce spoilage and extend shelf life of perishable commodities similar to modified service but differs by its ability to adjust the air inside the container during transit. Controlled atmosphere refrigerated containers maintain a constant level of substitute atmosphere to slow the natural ripening process. Controlled atmosphere technology typically uses computer systems to monitor and control the atmosphere in the container and make adjustments while in transit and is commodity specific. The Contractor will be paid the Controlled Atmosphere rate in accordance with the Rate Guide when such equipment is ordered and provided.

#### **8.O. Washing-Cleaning-Purging-Certification**

Wash-Clean-Purge-Cert accessorial includes the purging, de-fueling, cleaning and certification to International Maritime Dangerous Goods (IMDG)/CFR 49 standards for surface transportation of hazmat tankers, vehicle generators and all types of fuels on board the heavy expanded mobility tactical trucks and other vehicles.

#### **8.P. Keep from Freezing (KFF) Service**

Unless otherwise directed by consignee, the Contractor shall deliver refrigerated and KFF cargo to military activities no later than two (2) hours prior to the close of business on the day of delivery. Notwithstanding the above requirements, all cargo shall be scheduled and delivered in an expeditious manner. When ordered by the OO, KFF Service shall consist of furnishing equipment to the specified stuffing activity that will ensure protection of cargo from freezing. It is the responsibility of the Contractor to maintain its KFF equipment in proper business order from the initial stuffing until unstuffing at final destination. For the ocean portion of the movement, KFF Service will be charged at the applicable general cargo rate plus the KFF Service rate set forth in the Rate Guide. The KFF Service window of operation is from 1 October through 30 April.

#### **8.Q. Redelivery of Keep from Freezing (KFF) Service**

Redelivery of KFF Service is when the consignee is not able to accept all the cargo on the first delivery and the Contractor is directed to return the other portion to the Contractor's facility until the consignee is available to accept

the remainder of cargo. When Redelivery of KFF is ordered by the OO, after the initial delivery of a container/trailer, the Contractor shall return the partial container load of cargo to its terminal and keep at the proper temperature until ordered to redeliver the remainder of the cargo. Charges for Redelivery of KFF services are set forth in the Rate Guide.

#### **8.R. Guam Inspection Fee for Fruits/Vegetables**

Guam Fresh Fruits & Vegetables (FFV) Inspection Fee: Assessed by Guam Customs for inspection of all fresh fruit and vegetable shipments imported into Guam. This is a Government set rate at \$80 per container.

#### **8.S. United Arab Emirates (UAE) Scanning**

When ordered by the OO, the Contractor shall move cargo arriving at a POD in the UAE from Contractor's terminal to the scan location serving the POD, scan each container in accordance with Host Nation and/or Port Authority scanning/security procedures prior to delivery to door, and advise SDDC promptly of any irregularities. On the day that scanning is completed (unless too late in the day to meet consignee delivery hours, in which case delivery is required the following morning), the Contractor shall deliver directly from scan location to consignee, normally within 2 hours of out gating from POD. The Contractor's trucker must present the UAE Customs Inspection Document when arriving at consignee. This accessorial is priced in the IBS application on a per-container or per piece basis and applies only to cargo booked to door in the United Arab Emirates.

#### **8.T. Overweight Surcharge**

When required, the overweight surcharge shall apply for breakbulk cargo in excess of 40,000 lbs. (DD/RGN)/44,000 lbs. (FB/SD). The overweight surcharge is only applicable for the inland movement of cargo and consists of two bands, 44,001-70,000 lbs. (also applicable for DD/RGN cargo over 40,000 lbs.) and 70,001-140,000 lbs. Rates are per piece and applicable only between the origins/destinations specified in the IBS application.

#### **8.U. Extra Length**

For each piece of cargo in excess of 45 feet, the extra length charge shall apply. The surcharge shall only apply once per piece of cargo and shall be priced on a per measurement ton basis. When applicable, the rate specified in the IBS application will be multiplied by the total MTONs of the piece to obtain the total cost for this accessorial. The extra length charge is only applicable on the General and Heavy Vehicles commodity and only applies to the ocean portion of the move.

#### **8.V. Daily ITV**

8.V.1. When ordered by the OO, the Contractor shall provide daily reports on the inland movement of cargo as set forth below.

8.V.2. Reporting method/format. The Contractor shall report via the Contractor ITV Entry Tool (CIET), for import and export routes available in CIET, or via separate Excel spreadsheets for new routes not yet available in CIET.

8.V.2.1. Reportable events shall include the dates for the following events for daily ITV requested for movement from POD to destination (Daily ITV Destination): vessel arrival, cargo discharge, cleared by customs, outgate from port of debarkation, arrival at consignee, and transit of Contractor waypoints.

8.V.2.2. Reportable events shall include the dates for the following events for daily ITV requested for movement from origin to the POE (Daily ITV Origin): requested pickup, origin departure, in-gate, vessel lift, vessel sail and transit of Contractor waypoints.

8.V.2.3. The following information must also be included: IBS TCN, container number with prefix (if applicable), PCFN, booking number, type/description of cargo, Enhanced ITV tag number (when ordered), origin and final destination, POE and POD, shipper DODAAC, consignee DODAAC/MAPAC, current truck number and border crossing date, and each applicable event.

8.V.2.4. The Contractor shall provide exception information (location, remarks, and dates) providing shipment status for the previous 24 hours or shipment information that had not been included previously. Exception

information is required only when there is no event report for the prior day. Remarks can be used to advise of cargo exception information but would not replace notifications otherwise required per the contract. When inputting exception information in CIET, the Contractor shall use the remarks block which can be updated as a single shipment record or as part of a grouping of shipment records. Completed shipments may be deleted 30 calendar days after delivery when being reported using the excel spreadsheet reporting method.

8.V.3. Spreadsheet reports shall be provided by email attachments to a distribution list provided by the cognizant COR.

#### **8.W. Fumigation Service**

The Contractor shall provide fumigation services for cargo destined for Australia when this accessorial is ordered. The service shall be provided in accordance with the regulations of the Australian Department of Agriculture, <https://www.agriculture.gov.au/biosecurity-trade/import/before/brown-marmorated-stink-bugs>. Fumigation shall take place in a secure facility by providers that are on the approved list for treatment of the Brown Marmorated Stink Bug (BMSB). The Contractor is required to provide fumigation certificates and new seal numbers to the shipper. Cost to move cargo to and from the fumigation location shall be included in the rate.

### **SECTION 9 EXCEPTIONS TO NORMAL SERVICE**

#### **9.A. Service Changes**

The Contractor has the contractual right to make permanent changes in its offered service, including cessation of such service. In the latter case, the affected rates (both ocean and inland rates to/from any ports no longer serviced) will be deleted from the Rate Guide. The Contractor shall notify the Contracting Officer at least 45 calendar days prior to implementation of permanent changes in the Contractor's commercial offered service. All bookings accepted prior to notification of permanent service change shall be performed in accordance with the booking and all terms contained herein.

#### **9.B. Dry-Dock Initiated Service Change**

The Contractor shall notify the cognizant SDDC OO by e-mail of scheduled dry dockings of U.S. flag vessels at least 45 calendar days prior to the scheduled dry-dock date and update IBS accordingly. The Contracting Officer must be notified in writing of any emergency dry-dock requirement affecting published schedules of U.S. flag vessels, and update IBS accordingly.

#### **9.C. Alternate Service**

The Contractor is responsible for the delivery of services required by the booking. This responsibility extends to the performance of any other provider the Contractor may subcontract to in order to perform the services ordered. The Contractor shall notify the OO of any alternate service arrangements prior to implementation. The Contractor shall use the flag and VISA priorities indicated in the original booking (or higher priorities) when making alternative service arrangements and may not use a lower flag or VISA priority without prior written approval of the cognizant OO.

#### **9.D. Canceled Shipments/No Shows**

9.D.1. The Contractor shall accept cancellation of shipments for booked cargo without penalty to the Government in the below instances:

9.D.1.1. For origin port bookings, the Government will provide cancellation notice at least 24 hours prior to vessel cutoff.

9.D.1.2. For origin door bookings, the Government will provide cancellation notice at least 48 hours prior to scheduled pickup.

9.D.1.3. Special situations shall be addressed by the Contracting Officer

9.D.2. The Contractor shall notify the OO of cargo not tendered to the Contractor in time to meet the booked sailing that has not been canceled or rebooked.

9.D.3. For cargo that misses the booked sailing through no fault of the Contractor, the Contractor shall load cargo on the next scheduled sailing after receipt of cargo. The Contractor shall notify the OO (using BRT for IBS bookings and e-mail for direct bookings) within 2 business days upon the booked cargo missing the sailing.

9.D.4. When the Government notifies the Contractor of cargo not available for a booked sailing, the Contractor shall then designate a new vessel based on the revised availability of cargo. If the rolled cargo does not show for the follow-on designated vessel, the booking shall be canceled and the cargo rebooked.

9.D.5. The Contractor shall in no event hold the Government liable for vessel demurrage or dead freight if the shipper fails to release cargo in time to meet a specified vessel sailing.

#### **9.E. Container Detention**

9.E.1. Container Detention days are based on final destination country. The Contractor shall provide 10 calendar days free time commencing at 0001 hours on the first calendar day after delivery, except for exigency areas as specified in the Exigency Annex, and except for the following locations which shall have 15 calendar days free time unless declared exigency areas: Saudi Arabia and Djibouti.

9.E.2. Free time/detention will run during staging or authorized Government caused delays in accordance with Exhibit 2, PWS, Attachment 1.

9.E.3. Detention accrued during staging/delay periods may not be invoiced until after cargo is delivered (EDI X1 event date) or other disposition of the cargo is made by the Carrier at the Government's request after the termination of the staging/delay period. In those instances where free time is exhausted prior to delivery due to authorized delay/staging periods, detention is calculated as follows:

9.E.3.1. Calculate detention start date by applying free time to the delivery date.

9.E.3.2. Calculate total days of delay/staging as documented with HG/HR and A1/A2 EDI transaction sets.

9.E.3.3. Subtract number of days calculated in #2 from the detention start date, calculated in #1, to determine the updated detention start date.

#### **Example**

-Cargo Delivered/X1: 15May

-Free Time: 10 Days (16-25May)

-Detention Start: 26May

-Valid delay (A1/A2): 1-30April

-Apply delay period to calculate updated start date: 26 May minus 29 days

-Updated Detention Start Date: 27Apr (4 days in Apr + 25 days in May = 29 days)

-Contractor invoices 4 days in April (27-30)

-Contractor invoices 31 days in May or until detention stops per paragraph 9.E.4. When free time is exceeded, the Contractor will be paid at detention rates per paragraph 9.E.7.1

9.E.4. Daily detention charges will continue to accrue from the expiration of free time until 2359 hours on the day that the earliest one of the following occurs:

9.E.4.1. The date the Contractor regains physical possession of the container.

9.E.4.2. The date the Contractor is notified in writing or via the Government designated system that the container is available for pick up at the Contractor's point of delivery or other mutually agreed location, and the container is actually available when the Contractor arrives for pick up.

9.E.4.3. The date the Contracting Officer notifies the Contractor in writing that the Government is purchasing the container under PWS, paragraphs 9.F or 9.N.

9.E.4.4. The date the daily detention charges have reached the maximum detention days listed in paragraph 9.E.7.6.

9.E.5. For staging or authorized delays en route in accordance with Attachment 1, that start the running of free time, or detention if free time has expired, time will cease running the day the Government provides documents or otherwise cures the situation causing the delay or notifies the Contractor to release the shipment from staging.

9.E.6. All notifications on containers being empty and ready for pickup will be documented in the PAT Container Return Management (CRM) module. Contractor personnel will ensure necessary access to CRM. As described in Attachment 1, the RA EDI transaction will be auto-generated based on the date of notification, if the Contractor does not dispute availability within seven (7) calendar days of notification.

9.E.7. Calculation of Detention-Related Charges

9.E.7.1. Detention charges will begin to accrue upon the expiration of free time. The Government will pay the Carrier the daily detention charges as set forth below.

Equipment Type	Daily Detention
20 ft Dry	\$28
20 ft Flatrack	\$28
20 ft Reefer	\$88
20 ft Reefer with genset	\$132
40 ft Dry	\$44
40 ft Flatrack	\$44
40 ft Open Top	\$44
40 ft Reefer	\$115
40 ft Reefer with genset	\$159
20 ft Chassis	\$12
40 ft Chassis	\$20

9.E.7.2. The Government will pay the Contractor the above daily standard container detention charges if there is an authorized delay in the movement of and/or return of containers beyond applicable free time. Detention charges will continue to accrue until one of the conditions outlined in paragraph 9.E.4 occur.

9.E.7.3. Separate chassis detention is payable when used with a Government furnished container but not when used with a carrier furnished container.

9.E.7.4. If the Government retains the genset after returning the reefer container to the Contractor, the Contractor will be entitled to a genset rental charge of \$42 per day from the date the reefer container was returned until the date the Government returns the associated genset to the Contractor, or the genset detention has reached the maximum detention days listed in paragraph 9.E.7.6.

9.E.7.5. If the Government retains both the reefer container and the genset, the reefer with genset container detention outlined in paragraph 9.E.7.1 applies up to the maximum detention days in paragraph 9.E.7.6. Documentation to support genset rental charges will be submitted in accordance with Exhibit 2, PWS, Attachment 6.

9.E.7.6. Maximum Daily Detention: If daily detention reaches the specified number of days in the table below, daily detention charges shall cease to accrue. The Contractor shall notify the Contracting Officer of containers that reach these thresholds and invoice for any accrued but unpaid daily detention charges up to the threshold amounts.

Type	Maximum Detention Days
20 ft Dry	177
20 ft Flatrack	60
20 ft Reefer	360
40 ft Dry	155

40ft Flatrack	61
40 ft Open Top	133
40 ft Reefer	365
Genset**	166

## **9.F. Purchase of Containers**

### **9.F.1. Optional Purchase**

9.F.1.1. The Government may opt to purchase a container at the Container Purchase Prices set forth in paragraph 9.F.4 after that container has accrued a minimum of 60 calendar days of daily detention charges and provided that the container has not been returned to the Contractor. The Contracting Officer will issue a unilateral task order to purchase identified container(s) and will include the amount of detention accrued and the Container Purchase Price set forth in paragraph 9.F.4. The Contracting Officer or Contracting Officer's Representative will approve allowable outstanding detention charges and the Container Purchase Price within 30 calendar days of the Government's receipt of the Contractor's invoice.

9.F.1.2. If a Container is purchased under the Optional Purchase terms and is returned to the Contractor prior or after the Contractor's Billing and/or Payment, the Optional Purchase will stand until such time as both parties will confer to reach a mutually agreeable arrangement under which the container is either:

1. Returned to the Government
2. Sold to the Contractor
3. A swap of like containers is made

If the container is returned to the Government, the Government will pay the Contractor for storage charges and to relocate the container or arrange at the Government's costs to pick-up the container. Storage charges will only apply from the date the Contracting Officer's Representative is notified of an inadvertent container return. Rates for storage costs or relocation of containers under this paragraph will be negotiated by the Contracting Officer.

### **9.F.2. Automatic Purchase**

9.F.2.1. In Exigency Areas once the Maximum Daily Detention in paragraph 9.E.7.6 is reached, the Contractor shall notify the Contracting Officer and invoice for any accrued but unpaid daily detention charges up to the threshold amounts plus the applicable container purchase prices listed in paragraph 9.F.4. Title to the container will remain with the Government.

9.F.2.2. In non-exigency areas, once the Maximum Daily Detention in paragraph 9.E.7.6 is reached, the Government will pay for any accrued but unpaid daily detention charges up to the threshold amounts. Title to the container will transfer to the Government unless mutually agreed that the Contractor will remove the container and retain ownership. If the title is transferred to the Government, the Carrier will be paid the purchase price listed in paragraph 9.F.4.

9.F.2.3. The Government will neutralize purchased containers by removing the container markings.

9.F.2.4. If a Container in an Exigency Area reaches the Automatic Purchase Threshold and is returned to the Contractor prior or after the Contractor's Billing and/or Payment, the Automatic Purchase will stand until such time as both parties will confer to reach a mutually agreeable arrangement under which the container is either:

1. Returned to the Government;
2. Sold to the Contractor;
3. A swap of like containers is made.

If the container is returned to the Government, the Government will pay the Contractor for storage charges and to relocate the Container or arrange at the Government's costs to pick-up the Container. Storage charges will only

apply from the date the Contracting Officer's Representative is notified of an inadvertent container return. Rates for storage costs or relocation of containers under this paragraph will be negotiated by the Contracting Officer.

**9.F.3. Lost or Destroyed Containers**

The Government will purchase containers that the Contracting Officer has determined, on a container by container basis, to be lost, destroyed or impractical to return after the container has been delivered to the Government. The Contracting Officer will notify the Contractor via an Intent to Purchase Date (IP) being entered for the container in PAT. The Contractor will submit an invoice to the Contracting Officer for any unpaid daily detention charges accruing from the end of free time to the date of written notification to the Contractor, plus the applicable purchase price in paragraph 9.F.4.

**9.F.4. Container Purchase Price:**

Type	Replacement Value Cost
20 ft Dry	\$ 2,265
20 ft Flat	\$ 4,678
20 ft Reefer	\$ 12,120
40 ft Dry	<del>\$ 3,940</del> <b>\$ 3,940</b>
40 ft Flat	\$ 7,400
40 ft Open Top	\$ 4,763
40 ft Reefer	\$ 15,523
Genset**	\$ 13,183

\*\*In order to purchase a genset, the Government must also purchase the reefer that the genset services, unless the reefer that genset services was already returned separately to the Carrier.

**9.G. Reefer Maintenance**

9.G.1. The parties recognize that while refrigerated containers are in the possession of the Contractor, the Contractor incurs costs in maintaining their operation. Accordingly, when onward movement has been suspended due to an authorized compensable delay or staging period approved via the DRAP and free time has expired, the Government will reimburse the Contractor for additional expenses incurred while maintaining the operation of the refrigerated containers.

9.G.2. The Contractor shall provide 10 total calendar days of free time for reefer maintenance during compensable delay/staging periods.

9.G.3. Reimbursed costs will be pursuant to the per diem rates in Columns A and B below. The Contractor must certify that incurred costs did occur and submit an invoice in accordance with Exhibit 2, PWS, Attachment 6.

9.G.3.1. Column A is the per diem rate or part thereof charge when refrigerated containers are delayed at those facilities where power is available for direct connection to the Carrier's container.

9.G.3.2. Column B is the per diem rate or part thereof charge when refrigerated containers are delayed at those facilities where the Contractor is required to maintain operation of refrigerated containers without the use of electrical power.

Reefer Maintenance Rates		
Container	Column A	Column B
(PER 24 HOUR PERIOD OR PART THEREOF AFTER FREE TIME WHILE CONTAINER IS IN POSSESSION OF CARRIER)		
20 ft and Over	\$21	\$50

40 ft and Over	\$32	\$78
Note: When a Contractor bills in accordance with Column B above, it must certify that electrical power was unavailable at the facility.		

9.G.3.3. Example of Reefer Maintenance calculation:

Period 1 – Compensable delay period approved via DRAP: 22 days (1-23 May 2016)

Period 2 – Staging period approved via DRAP: 14 days (1-15 June 2016)

Reefer Maintenance calculation:

Period 1: 12 days (22 days (compensable delay) minus 10 days free time)

Period 2: 14 days (14 days (staging) minus 0 days free time)

**9.H. Container Leasing in Singapore**

Containers booked to Singapore for onward movement outside the contract to Diego Garcia shall be leased to the Government from delivery date to the Government (X1 transaction) until return of the empty container to the Contractor (RD or RA transaction, as applicable). The lease rates are as follows:

Type	Daily Lease Rate
20 ft Dry	\$ 10
20 ft Flatrack	\$ 10
40 ft Dry	\$ 17
40 ft Flatrack	\$ 17
20 ft Reefer	\$ 36
40 ft Reefer	\$ 54

**9.I. Free Time and Driver Wait Time**

9.I.1. Free Time will commence once the Contractor has notified the consignor or consignee that the cargo is available for loading or unloading. Cargo is considered available for loading or unloading when placed in a location so it can be immediately accessed for loading or unloading within the consignor or consignee's normal operating hours or acceptance hours.

9.I.2. If the consignor or consignee requires pickup or delivery appointments, wait time spent due to early or late arrivals will not count towards free time.

9.I.3. If a Contractor is prepared to position its conveyance but is prevented from doing so due solely to a Government delay, free time will commence once the Contractor has notified the consignor or consignee that its conveyance is at the shipping or receiving facility but is delayed for loading or unloading.

9.I.4. If loading or unloading is not completed by the close of business for that location, the Contractor will be paid a \$180 overnight charge and free time will resume at the beginning of the next business day.

9.I.5. Driver wait time shall start when free time ends. Driver wait time shall end when consignor or consignee notifies the Contractor in writing that loading or unloading has been completed. Such notification shall constitute release of Contractor's equipment.

9.I.6. The Contractor shall submit invoices for Driver Wait Time in accordance with Exhibit 2, PWS, Attachment 6. The Contractor shall be compensated as described below.

9.I.7. Free Time and Driver Wait Time Compensation Rates:

<u>Location</u>	<u>Free Time</u>	<u>Driver Wait Time Rate</u>
-----------------	------------------	------------------------------

USA, Canada	2 hours	\$22.50 per quarter-hour *
Europe	2 hours	\$24.00 per quarter-hour*
Japan (incl. Okinawa)	2 hours	\$54.00 per 30 minutes
Korea	2 hours	\$42.00 per hour
Kuwait	Ends at 2359 day of arrival	\$30.00 per hour
Bahrain	Ends at 1600 day of arrival	\$24.00 per hour
*Note: For USA, Canada and Europe, round to next higher quarter hour		

9.I.8. For other locations, Contractor may request reimbursement of actual expenses for waiting time incurred after expiration of at least four hours of Free Time.

### **9.J. Rerouting of Cargo**

#### **9.J.1. En Route Port Changes**

##### **9.J.1.1. Port change requested by the Government.**

9.J.1.1.1. If the location of the cargo at the time of the diversion request is within a reasonably normal path for service to the new POD from the POE, and the diversion request is in advance of arrival at the POD, the Contractor shall execute the diversion and shall be paid the applicable ocean rates.

9.J.1.1.2. If the diversion is not within a reasonably normal path for service, the cargo shall be short stopped (paragraph 9.J.1.3) and rebooked to the new destination.

9.J.1.1.3. Should the Contractor incur costs because of the diversion, such as additional lifts, rehandling, or moves within the terminal, these costs may be reimbursable and may be submitted as described in Exhibit 2, PWS, Attachment 6. Contractor's administrative expenses are not reimbursable.

9.J.1.1.4. When reworking overstowed cargo due to a diversion requested by the Government, the Contractor shall advise the OO of the amount of overstowed cargo and provide a cost estimate to discharge Government cargo. Vessel rework to remove overstowed cargo or vessel delay cost reimbursements require authorization by the Contracting Officer.

9.J.1.2. Except as authorized under the "Liberties" clause, the Contractor shall not divert cargo to a different POD without prior written approval of the Contracting Officer or OO.

##### **9.J.1.3. Short Stop**

9.J.1.3.1. The OO may elect, in writing, to take delivery at the Contractor's port instead of at the inland destination. Free time provisions shall apply at the elected port of the short stop. The shipment shall be re-priced based on the modified booking.

9.J.1.3.2. The Contractor shall short stop cargo at port of debarkation or any relay port when the OO elects to take delivery at that location instead of inland destination. The Government may order delivery at any intermediate port of call but would be subject to costs and limitations as specified in paragraphs 9.J.1.1.3 and 9.J.1.1.4.

##### **9.J.1.4. Change of Destination**

The Contractor shall move the cargo to a new inland destination, via linehaul service from the POD, at the written request of the OO. Request must be made before the cargo has commenced final inland movement from the port of debarkation, or (in countries where Customs will not approve changes after Customs Clearance) before Customs Clearance. The shipment shall be re-priced based on the modified booking made by the OO.

### **9.K. Staging**

9.K.1. The Contractor shall stage cargo upon written Government request and submit a request in DRAP for approval by the OO (OO). The HG EDI event transaction will be auto-generated by the DRAP as outlined in Exhibit 2, PWS Attachment 1 upon shipment entry into the staging location, to include port staging or constructive staging.

9.K.2. The Contractor shall end cargo staging upon Government request and submit a request in DRAP for approval by the OO (OO). The Contractor shall commence on-carriage within 2 business days and the HR EDI event transaction will be auto-generated by the DRAP as outlined in Exhibit 2, PWS, Attachment 1 upon actual dispatch of cargo from the staging location.

9.K.3. For large volumes of cargo, contractor will be responsible for managing dispatch in the most expeditious manner. Contractor will provide dispatch timelines to cognizant BN and COR until cargo has dispatched from staging area.

9.K.4. The HG/HR transaction pair, generated via the DRAP, will recommit the Contractor to a new delivery date defined as: RDD + (# calendar days elapsed between HG and HR). For a shipment RDD to be extended, both an HG and HR transaction must be generated.

9.K.5. For cargo containerized in carrier-owned containers as ordered in the booking, free time shall run while containers are staged. Container detention shall begin once free time is exceeded.

#### **9.L. Notice of Transfer of Cargo**

9.L.1. The Contractor shall not transload cargo from one container to another without the authorization of the OO and cognizant COR, except when such transload is required to safeguard the cargo during the continuation of the movement. The notice shall contain the booked TCN and PCFN if applicable, the container number and seal number of the original container, the container number and seal number of the transload container, the place where the transload occurred, and the reason for the transload. The notification shall be sent to cognizant SDDC BN and COR within 48 hours of transfer.

9.L.2. When the container to which the cargo was transloaded differs in internal cubic capacity from the original container, freight shall be based upon the cubic capacity of the original container. This section applies to Government stuffed full container loads. It does not apply to Contractor stuffed less than container loads.

9.L.3. EDI 315 transactions submitted subsequent to transloading should include actual container number.

#### **9.M. Broken/Replacement of Seals**

9.M.1. The Contractor shall notify the consignee, shipper, OO, Contracting Officer, and COR, by e-mail, within 24 hours of discovery that a seal on any unit of cargo has been broken and/or replaced while the cargo is in the possession of the Contractor. A complete report of the circumstances and reasons shall be provided to the cognizant COR within five business days of the initial notification.

9.M.2. If, it is determined the cargo has been compromised the Contractor shall be notified. The Contractor shall be given the opportunity to request a joint inspection/survey. The lack of a seal on the container, by itself, shall not be sufficient to establish that cargo is compromised.

#### **9.N. Damage to Contractor Equipment**

9.N.1. The Contractor may be entitled to reimbursement for damages to Contractor owned equipment when such damage or loss is by act, neglect, or failure to maintain equipment by the Government, its agents, employees or Contractors (other than the prime Contractor) while such Contractor equipment is in the custody and care of the Government, its agents, employees or Contractors (other than the prime Contractor). The Government shall repair or reimburse the Contractor the lesser of the following:

9.N.1.1. The reasonable costs of repairs; or

9.N.1.2. The purchase price as stated in paragraph 9.F.4.

9.N.2. The Government shall notify the Contractor of damage to Contractor's equipment while in the Government's care and custody immediately upon identification of the occurrence of said damage. The Contractor

shall assign to the Government any rights, causes of action, or other claims, which the Contractor may have against third parties with respect to such damage.

9.N.3. If equipment is in the Contractor's possession, the Government shall not be liable for the repair of any damage under this Section unless written notice specifying such damage shall have been given to and acknowledged by the Government or its authorized representative:

9.N.3.1. At the time custody of the equipment is returned by the Government to the Contractor; or

9.N.3.2. Within 5 business days after the damage was discovered or should have been discovered after custody of the equipment is returned by the Government to the Contractor (for damage that is not readily apparent).

9.N.4. Contractor will submit costs directly to the Contracting Officer.

#### **9.O. Port Storage**

9.O.1. When onward movement has been delayed other than due to Contractor's actions, the Contractor shall be reimbursed. For breakbulk cargo containerized at the Carrier convenience, the Contractor will be reimbursed utilizing the container tariff if the cost is less than the breakbulk cost. For all other shipments, the Contractor will be reimbursed actual expenses incurred in the storage of containers or cargo at a port. Any such delays must be supported by the applicable EDI transactions in Exhibit 2, PWS, Attachment 1 (A1/A2 or HG/HR).

9.O.2. To receive reimbursement for Port Storage services while the cargo is in the possession of the Contractor, the Contractor shall submit an invoice in PAT IPP in accordance with Exhibit 2, PWS, Attachment 6.

#### **9.P. Futile Trip**

9.P.1. When futile trip costs are incurred due to the fault of the Government, the Contractor may submit an invoice for authorized futile trip costs in accordance with Exhibit 2, PWS, Attachment 6. Futile trip charges will not exceed the Fuel Adjustment Factor (FAF) rate per the booking and the linehaul, mileage, or drayage contract rate for the same routing.

9.P.2. The Contractor shall submit a BRT and a written notification if the cognizant OO is the receiving OCCA, within five business days, a futile trip has occurred. The Contractor may submit a Futile Trip invoice into the PAT IPP only after the OO has approved the Futile Trip in BRT.

#### **9.Q. Vessel Demurrage**

9.Q.1. The Contractor shall be compensated for berthing delays caused by the U.S. Government in accordance with the demurrage rates (per vessel day) in the Rate Guide. Demurrage is payable on a pro rata basis at the demurrage rate established in the IBS application until the berth or stevedores are available. Delays include but are not limited to, the following:

9.Q.1.1. The U.S. Government directs the contractor to an encumbered berth after vessel arrival through no fault of the Contractor.

9.Q.1.2. U.S. Government-provided stevedores are not available to commence operations at the date/time as mutually agreed between the U.S. Government and the Contractor.

9.Q.1.3. A vessel delay greater than 48 hours occurs due to U.S. Government-provided stevedores failure to meet the pre-coordinated load/discharge planning factors for a specific load/discharge. Demurrage is payable, on a pro rata basis, commencing after the first 48 hours of the delay. The US Government shall not be liable for loading/discharging delays occurring due to factors outside of its control (i.e., weather, strikes, etc.) or due to factors within the Contractor's control.

#### **9.R. Reimbursement for Damage**

9.R.1. For Government operated ports, the Government shall reimburse the Contractor the cost of repairing any damage to a vessel caused by any unsafe condition of any berth or anchorage to which a vessel is ordered by the OO under paragraph 7.B.2, provided that notice of such damage is given to the Contracting Officer before the vessel

leaves the berth or anchorage where the damage occurred if such damage is known or suspected at that time, or, if not so known or suspected, within a reasonable time after discovery of such damage.

9.R.2. Costs of damage will be submitted directly to the Contracting Officer.

9.R.3. Contractor shall reimburse the Government for any damage to a Government pier or berth caused by the arrival or departure of Contractor's vessel.

#### **9.S. Shipments of Privately Owned Vehicles (POVs)**

9.S.1. Scope

The provisions of Section 9.S apply to shipments booked by Non-governmental Authorized Users of the Contract. These shipments include, but are not limited to, POVs shipped by Global POV Contractors.

9.S.2. Payment

Terms for payment for services provided under section 9.S will be per mutual agreement of the Contractor and the Non-governmental Authorized User.

9.S.3. Special Provisions for Privately Owned Vehicles (POVs)

If the Contractor fails to deliver a POV on or before the RDD, the Contractor shall reimburse the Non-governmental Authorized User for rental car expenses or other transportation expenses paid to the owner of the POV as a consequence of such delay. This reimbursement shall not exceed expenses actually incurred by the owner of the POV or \$30.00 per day for each day past RDD, whichever is less. Total amount not to exceed \$210.

#### **9.T. Cargo Recall**

9.T.1. When the OO requests the return of a shipment to origin after the Contractor takes possession but before the cargo loads the vessel, the Contractor may submit an invoice for authorized cargo recall costs in accordance with Exhibit 2, PWS, Attachment 6.

9.T.2. The invoice shall not exceed the origin linehaul rate and will follow Exhibit 2, PWS, Attachment 6, paragraphs C. If Direct Booked, the invoice shall also be in accordance with Exhibit 2, PWS, Attachment 6, paragraph A.2 and include written request from the Direct Booking Agency OO.

#### **9.U. Standard Security**

Upon demonstrating a need to know to the Contractor, in accordance with 49 CFR 1520, ocean carriers transporting classified/sensitive and SRC I and II shipments, as defined in the DTR, through high risk waters will provide a copy of the ship's vessel security plan (VSP) with Piracy Annex to SDDC-G34. Plans will be provided by email attachments to distribution as provided by SDDC-G2. VSPs will be copied to SDDC-G34 after the plan is approved by the U.S. Coast Guard (USCG) Marine Safety Center.

#### **9.V. High Risk Waters Armed Security**

The purpose of this service is to provide an elevated level of vessel security. This security is above and beyond both normal vessel security and security required per USCG Maritime Security (MARSEC) Directive 104-6 (Rev.8). This elevated level of armed vessel security is only applicable to vessels with lowest point of entry of less than 15 meters and/or speeds less than 20 knots ("low & slow" vessels). The Contractor shall implement armed vessel security protocols when the USCG approved, ship-specific piracy threat assessment demonstrates the need for armed security while transiting high risk waters. If a Contractor's vessel does not require armed security in accordance with USCG guidance, high risk waters armed security will not be paid to the Contractor unless ordered by the Contracting Officer or OO. The Contractor shall submit a firm fixed price amount per voyage in the IBS application for vessels carrying DTS cargo. A voyage is defined as one-way vessel transit between designated POE(s) and POD(s). A voyage shall commence upon lift of DTS cargo at the first POE and cease upon discharge of DTS cargo at the final POD. The rate for this service shall be based on a one-way requirement unless the same vessel is loading additional DTS cargo at new POE(s) (e.g., redeployment/retrograde cargo) for transit through a high-risk zone prior to disembarking the armed security team(s). In such cases, the rate for this service shall be based on a roundtrip

requirement and the round-trip rates in the IBS application shall be applied. In order to receive payment for Armed Security costs for vessels carrying military cargo through high risk waters other than those specified in the most current MARSEC directive for high risk waters, the Contractor shall request approval from the Contracting Officer prior to service being performed. This elevated level of armed vessel security may apply to all vessel types (e.g., container, ROROs, car carriers, traditional freighters) carrying cargo under this contract.

9.V.1. All contracted security personnel must meet the standards set forth in USCG Port Security Advisory (PSA) 5-09 series.

9.V.2. Armed security personnel may only employ deadly force in self-defense, or in the defense of others, in accordance with guidance contained in USCG PSA 3-09 “Guidance for Self-Defense and Defense of Others.” Intentional misconduct or negligence could subject employees to criminal or civil liability in accordance with the laws of the jurisdiction where such conduct occurs. The Government will not be liable for any actions resulting from the Contractor’s use of armed force or other implementation of paragraph 9.U. The Contractor agrees to defend, indemnify and hold harmless the Government and its employees for any third-party claims, which may arise from the Contractor’s use of armed force or other implementation of paragraph 9.U.

9.V.3. The Government reserves the right to cancel this requirement with a 30-day written notice.

9.V.4. Government Surveillance – USTRANSCOM and/or SDDC reserves the right to inspect and conduct on-site surveillance of Armed Security team performance. USTRANSCOM and/or SDDC personnel acting in a Contracting Officer representative role shall board and accompany the vessel to complete security team observation onboard vessels transiting through the Pirate Danger (High Risk Waters) areas and/or the Suez Canal. The Contractor shall supply meals and accommodations for the USTRANSCOM and/or SDDC inspection team members IAW the Supercargo rates set forth in this contract.

9.V.5. Upon request, provide USTRANSCOM and SDDC current points of contact to include phone numbers and e-mail addresses for Company Security Officer (CSO), Facility Security Officer (FSO) and Vessel Security Officer (VSO). Points of contact changes shall be provided to USTRANSCOM and SDDC within three business days after the Contractor has made the change.

#### **9.W. Damages to the Government Due to Major Delivery Failure**

9.W.1. This requirement shall apply when annotated by the OO at the time of offer. If the Contractor fails to deliver cargo by the booked RDD as a result of an unexcused delay which has a significant mission impact, the Contractor shall, in place of actual damages, pay to the Government 1% of the booked transportation cost total on a per TCN per each calendar day of delay basis. Damages payable to the Government paid under the contract shall not exceed 15% of the booked transportation cost total.

9.W.2. If the Government terminates the booking in whole or in part under 52.212-4(m), *Termination for cause*, the Contractor is liable for damages accruing until the Government reasonably obtains delivery or performance of similar supplies or services. These damages are in addition to excess costs of repurchase under said Termination paragraph.

9.W.3. The Contractor will not be charged with damages when the delay in delivery or performance is beyond the control and without the fault or negligence of the Contractor.

9.W.4. In all instances in which damages may be applied, a Cure Notice will be issued first, for the Carrier substantiate events that prevented on-time delivery and the actions taken to minimize mission impact.

### **SECTION 10 REGION SPECIFIC REQUIREMENTS**

#### **10.A. Puerto Rico**

##### **10.A.1. Tax Authority Clearance**

To obtain tax clearance, after obtaining any supporting documentation from the local SDDC Detachment (Hacienda Clearance Letter, and other documentation such as Commercial Invoice as appropriate), the Contractor shall present all required documentation to the Puerto Rico tax office (Hacienda) and/or enter data, including data which Shippers typically enter, into the Portal Integrado de Comerciantes (PICO) system used by the Hacienda. The Contractor shall

check PICO at least once per workday to verify that cargo has cleared. These actions apply to all cargo arriving in Puerto Rico and requiring tax clearance. The Contractor shall include all costs incurred for providing this service in their ocean rate.

#### 10.A.2. Transport of Hazardous Cargo/Small Arms/Ammunition

10.A.2.1. The Contractor shall have and maintain a Government/Contractor/Armed Guard Contingency Plan including a route map which can be implemented for any ordered movement of weapons/ammo/sensitive items. This plan shall be made available to the Government or Commonwealth of Puerto Rico authorities upon request. For each movement of weapons/ammo/sensitive items ordered, the Contractor shall brief the plan and route to the designated Government representative for approval prior to the transportation of a shipment. Upon approval of the plan and route, such plan shall be followed by the Contractor. In the event it is necessary to change the plan or route after commencement of transportation, the Contractor must immediately report such change to the designated Government representative for approval. Changes must be kept to a minimum and made only under circumstances outside the Contractor's control or at the direction of the designated Government representative.

10.A.2.2. The Contractor shall inform the drivers to be utilized for weapons/ammo/sensitive items shipments of the exact route to be followed with a map depicting such route. The Contractor shall also provide two-way radio communications devices and/or cell phones for each motor vehicle transporting weapons/ammo/sensitive items and allow for the continuous escort of such vehicles by either designated Government representatives and/or Commonwealth of Puerto Rico authorities upon request. Motor vehicles transporting weapons/ammo/sensitive items shall travel by the most expeditious authorized route to/from the point of pickup in Puerto Rico to the point of destination in Puerto Rico. No stops en route are authorized. In the event of a breakdown, accident or emergency stop the driver of the shipment shall immediately notify the cognizant COR and authorized Government personnel - but not later than 30 minutes after such an event – and at no time shall the vehicle be left unattended. The Contractor shall closely monitor each shipment through constant communications with the driver of the shipment, the Commonwealth of Puerto Rico authorities, and designated Government escorts/personnel.

10.A.2.3. It shall be the Contractor's responsibility and expense to provide armed guard protective surveillance during the entire period when a weapons/ammo/sensitive items shipment is in the custody of the Contractor. The armed guard shall have at a minimum one revolver or semiautomatic pistol with five rounds of ammunition. The weapon shall be registered in accordance with all Federal, State and Commonwealth laws and regulations and the guard shall be licensed to carry such a weapon with the requisite training and experience in its use. The Government reserves the right to reject the use of any armed guard by a Contractor who fails to meet such requirements.

10.A.2.4. Pick-up and delivery of weapons shipments shall be accomplished only between the hours of 0700-1200 local time unless otherwise agreed upon between the Contractor and designated Government representative on a case-by-case basis only.

10.A.2.5. For containerized shipments, serially numbered cable seal lock or other type of seal that provides equal or better protection will be provided by the Government. Where such seals have not been applied the Contractor shall not transport such containers and immediately notify the designated Government representative regarding further disposition.

10.A.2.6. All movements shall be accompanied by a Signature and Tally Record (DD 1907). This record shall provide continuous accountability and custody of a weapons/ammo/sensitive items shipment from point of origin to point of destination. An entry must be made by every individual – to include the driver – who accepts custody. The Contractor shall monitor and ensure that the chain of custody is unbroken while the cargo is in the Contractor's custody. The Contractor shall immediately notify the Government of any non-compliance.

10.A.2.7. No Government weapons shall be stored overnight at the Contractor's facilities without prior Government approval.

#### 10.A.3. Expedited or After-Hours Delivery

##### 10.A.3.1. Expedited Delivery Service

10.A.3.1.1. The Contractor shall provide expedited delivery when ordered by the OO. The Contractor shall deliver the container to consignees within two business days commencing at 0001 hours on the first working day following vessel discharge or customs clearance of such containers, whichever is later, for distances of up to 200 miles.

10.A.3.1.2. EXCEPTION: Expedited deliveries of shipments en route, but prior to commencement of outgate carriage at port of debarkation shall be by mutual consent of the Government and the Contractor.

10.A.3.1.3. EXCEPTION: Contractors will not receive compensation for expedited delivery as indicated above if they failed to meet the RDD. If Contractor was paid for this service and did not meet the agreed upon RDD, then the Contractor will reimburse the Government for the charges paid for expedited delivery service.

#### **10.B. Alaska**

##### **10.B.1. Carriage of Overweight Containers**

The Contractor shall advise the OO when the combined cargo weight of the loaded container and chassis exceeds the allowed highway axle weight along any portion of the intended delivery route due to seasonal or local restrictions on carriage weight. The Contractor shall not refuse to carry a container Northbound to Alaska that weighs in excess of the local legal maximum weight allowed by U.S. Federal, state, or local governments if the container can be discharged from the vessel and the excess weight of cargo can be removed without violation of the applicable law, regulation, or ruling that established the maximum weight.

##### **10.B.2. Mileage in Alaska**

Alaska mileage rates apply to mainland and island locations.

#### **10.C. Hawaii**

##### **10.C.1. Inter-Island Hawaii Service**

10.C.1.1. Any Contractor offering rates for inter-island service between and among the ports of Hawaii shall ensure that the service is performed by an entity that holds a Certificate of Public Convenience and Necessity (CPCN) approved by the Hawaii Public Utilities Commission.

10.C.1.2. Single-factor rates are available for the shipment of palletized refrigerated cargo between Honolulu and Kekaha. Terms for all requirements are port-to-door, liner-in/liner-out and carriers' submitted rates shall be inclusive of liner terms at the POE and POD as well as the ocean freight and delivery to destination. The Carrier must maintain the temperature/temperature variance specified by the shipper in the booking for the duration of each shipment.

##### **10.C.2. Hawaii Export OK to Lade**

Contractor will collect U.S. Government shipping documents (DD 1384, DD 2890 and DD 2781) in order to facilitate and obtain U.S. Customs and Border Patrol (CBP) "OK to LADE" approval. The Contractor will provide, at a minimum, the following information to CBP: Consignor/Consignee; Vehicle Make, Model and Year; VIN or Serial Number; PCFN; Carrier Booking Number; Memorandum Point of Contact and Signature.

#### **10.D. USCENCOM**

##### **10.D.1. Cargo Handling Service on Trans-Arabian Network (TAN) Route to Kuwait**

When ordered by the OO, the Contractor shall provide all labor, material, and equipment necessary to receive cargo; unload from inbound conveyance; tally cargo; load and secure cargo into containers; provide intra-terminal transfers; supply necessary blocking, bracing, and dunnage; supply and apply seals to container doors; and submit reports in accordance with Exhibit 2, PWS, Attachment 2. Accessorial includes all services from receipt of cargo through stuffing of container at the designated locations, as well as the VGM certification required by SOLAS, and to provide the VGM to all stakeholders, including the Shipper and cognizant SDDC office.

#### **10.E. USAFRICOM**

10.E.1. Contractor shall submit arrival notice in accordance with PWS paragraph 7.F.1.1 and to the DTR Part 5 Customs Chapter 515 USAFRICOM specified POC.

10.E.2. Electronic Cargo Tracking Note (ECTN) or local equivalent fee

10.E.2.1. For Door movements, ECTN shall be included within USAFRICOM AOR linehaul rates.

10.E.2.2. For Port movements, ECTN fee will be processed in accordance with Exhibit 2, PWS, Attachment 6, section C.

10.E.2.3. When an ECTN must be re-done due to no fault of the Contractor, it may submit an invoice in accordance with Exhibit 2, PWS, Attachment 6, section C. Supporting documentation must include proof of the original ECTN as well as the new ECTN.

## **SECTION 11 SECURITY (CYBER SECURITY, INDUSTRIAL SECURITY, VENDOR THREAT MITIGATION)**

### **11.A. Cyber Security**

#### **11.A.1. General Cyber Security Requirements**

##### **11.A.1.1. Handling and Protection of Non-Public Information**

11.A.1.1.1. For unclassified systems, in performance of this contract, the Contractor may have access to DoD Transactional Information (DTI), which for the purposes of this section shall mean any information developed or received in the course of planning, ordering, shipping, tracking, and invoicing in support of the requirements of this contract. To adequately protect this DTI, Contractor information systems (IS) involved in the performance of this contract shall comply with the security requirements in the current version of the National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171, "Protecting Controlled Unclassified Information in Nonfederal Information Systems and Organizations." Unless Covered Defense Information (CDI) (as defined in DFARS 252.204-7012) is identified, present, processed, stored, or for, a Contractor compliance with NIST SP 800-171 measures is required at the prime contractor level and does not apply to subcontractors and other entities that the prime contractor engages with in order to meet the requirements of this contract. CDI must be protected in accordance with DFARS 252.204-7012.

11.A.1.1.2. Additionally, the Contractor agrees to use such information only for the purposes of fulfilling the contracted requirements and to protect such information from unauthorized release or disclosure. Protection of the DTI does not abrogate any responsibilities of the Contractor to comply with or implement additional cyber security requirements as part of generally accepted system security principles or as required by other categories of information that may be co-resident with the DTI on the Contractor's IS.

##### **11.A.1.2. Operationally Critical Support**

The services designated under this contract are "operationally critical support" as defined in DFARS 252.204-7012 Safeguarding Covered Defense Information and Cyber Incident Reporting.

#### **11.A.2. Cyber Security Self-Assessment and Plan of Action**

11.A.2.1. The Contractor shall provide a Self-Assessment of its compliance with NIST SP 800-171 and present a Plan of Action that identifies any deviations, non-compliance, or proposed alternative means of compliance as well as plans for correcting non-compliant requirements to the Contracting Officer within 60 calendar days of contract award and then annually thereafter. The Self-Assessment and Plan of Action shall address all of the requirements in NIST SP 800-171.

11.A.2.2. Table 11.A.2 provides modified requirements of CUI/CDI specific controls from NIST SP 800-171 that will be used to evaluate compliance in a non-CUI/CDI environment. Additionally, at any time during the period of performance, when a Contractor determines it is non-compliant with a NIST SP 800-171 requirement or an approved alternate means of compliance resulting in a High or Moderate Potential Impact as defined in Federal Information Processing Standards Publication (FIPS PUB) 199, "Standards for Security Categorization of Federal

Information and Information Systems,” the Contractor shall submit a Plan of Action within 15 calendar days of the determination of non-compliance.

11.A.2.3. Plans of Action and any requests to vary from NIST SP 800-171 shall be submitted to the Contracting Officer for consideration and approval by USTRANSCOM. The Contractor need not implement any security requirement determined by USTRANSCOM to be non-applicable or to have an equally effective alternative security measure implemented in its place. The Plan of Action shall follow the template provided (PWS Attachment 9). Alternate formats for the Plan of Action may be proposed and must be approved by USTRANSCOM.

11.A.2.4. USTRANSCOM may conduct an on-site visit to a Contractor’s facility or request a third party assessment (Government agency or Government funded commercial entity) to review progress towards meeting their Plan of Action, evaluate any proposed variances to NIST SP 800-171 requirements, and to assess residual risk to the DTI resulting from the non-compliance. Date and time of on-site visits will be mutually agreed-upon by USTRANSCOM and the Contractor in advance.

Table 11.A.2 Modified NIST SP 800-171 Requirements

<b>Req #</b>	<b>NIST SP 800-171 Requirement</b>	<b>USTRANSCOM Modified Requirement</b>
3.1.3	Control the flow of CUI in accordance with approved authorizations.	Limit the flow of DoD information to organizations or individuals necessary for the performance of the operationally critical requirements of this contract.
3.1.9	Provide privacy and security notices consistent with applicable CUI rules.	Provide privacy and security notices consistent with U.S. Government and/or local governmental regulations.
3.1.19	Encrypt CUI on mobile devices and mobile computing platforms.	Provide adequate technical protections on mobile devices and computing platforms that process and/or store contractual information.
3.1.22	Control CUI posted or processed on publicly accessible systems.	Control DoD information posted or processed on publicly accessible systems.
3.7.3	Ensure equipment removed for off-site maintenance is sanitized of any CUI.	Ensure equipment removed for off-site maintenance is sanitized of DoD information.
3.8.1	Protect (i.e., physically control and securely store) system media containing CUI, both paper and digital.	Protect (i.e., physically control and securely store) system media containing DoD information, both paper and digital.
3.8.2	Limit access to CUI on system media to authorized users.	Limit access to DoD information on system media to authorized users.
3.8.3	Sanitize or destroy system media containing CUI before disposal or release for reuse.	Sanitize or destroy system media containing DoD information before disposal or release for reuse.
3.8.4	Mark media with necessary CUI markings and distribution limitations.	Mark media with privacy and security notices consistent with U.S. Government and/or local government regulations.
3.8.5	Control access to media containing CUI and maintain accountability for media during transport outside of controlled areas.	Control access to and maintain accountability for media containing DoD information.
3.8.9	Protect the confidentiality of backup CUI at storage locations.	Provide information backup procedures (frequency, timeframe for storage, etc.) for DoD data located on Contractor systems. Protect the confidentiality of backup materials containing DoD information.
3.9.1	Screen individuals prior to authorizing access to organizational systems containing CUI.	Screen individuals prior to authorizing access to organizational systems containing DoD information.
3.9.2	Ensure that CUI and organizational systems containing CUI are protected during and after personnel actions such as terminations and transfers.	Ensure that DoD information and organizational systems containing DoD information are protected during and after personnel actions such as terminations and transfers.
3.10.6	Enforce safeguarding measures for CUI at alternate work sites (e.g., telework sites).	Enforce safeguarding measures for DoD Information at alternate work sites (e.g., telework sites).
3.11.1	Periodically assess the risk to organizational	Periodically assess the risk to organizational operations

	operations (including mission, functions, image, or reputation), organizational assets, and individuals, resulting from the operation of organizational systems and the associated processing, storage, or transmission of CUI.	(including mission, functions, image, or reputation), organizational assets, and individuals, resulting from the operation of organizational systems and the associated processing, storage, or transmission of DoD information.
3.13.8	Implement cryptographic mechanisms to prevent unauthorized disclosure of CUI during transmission unless otherwise protected by alternative physical safeguards.	Implement cryptographic mechanisms to prevent unauthorized disclosure of DoD information during transmission when possible unless otherwise protected by alternate physical safeguards.
3.13.11	Employ FIPS-validated cryptography when used to protect the confidentiality of CUI.	Employ FIPS-validated cryptography when used to protect the confidentiality of DoD information within the organization's systems and when possible, when transmitting to external entities.
3.13.16	Protect the confidentiality of CUI at rest.	Protect the confidentiality of DoD information at rest.

### 11.A.3. Cyber Incident Reporting

11.A.3.1. In addition to the DFARS 252.204-7012 reporting requirements for unclassified systems and DoD Manual (DoDM) 5220.22, National Industrial Security Program Operating Manual (NISPOM) for classified systems, reportable cyber-incidents (regardless of whether the information system contains CDI or there is an impact to performance such as delivery schedule delay), include, but are not limited to, the following:

11.A.3.1.1. Cyber-incidents as defined in Table 11.A.3

11.A.3.1.2. Notifications by a federal, state, or local law enforcement agency or cyber-center (i.e., National Cyber Investigative Joint Task Force (NCIJTF), National Cybersecurity & Communications Integration Center (NCCIC) of being a victim of a successful or unsuccessful cyber-event anomaly, incident, insider threat, breach, intrusion, or exfiltration.

Table 11.A.3

<b>Incident Category</b>	<b>Description</b>
Root Level Intrusion	Unauthorized privileged access to an IS. Privileged access, often referred to as administrative or root access, provides unrestricted access to the IS. This category includes unauthorized access to information or unauthorized access to account credentials that could be used to perform administrative functions (e.g., domain administrator). If the IS is compromised with malicious code that provides remote interactive control, it will be reported in this category.
User Level Intrusion	Unauthorized non-privileged access to an IS. Non-privileged access, often referred to as user level access, provides restricted access to the IS based on the privileges granted to the user. This includes unauthorized access to information or unauthorized access to account credentials that could be used to perform user functions such as accessing Web applications, Web portals, or other similar information resources. If the IS is compromised with malicious code that provides remote interactive control, it will be reported in this category.
Denial of Service	Denial of Service (Incident)—Activity that denies, degrades, or disrupts normal functionality of an IS or DoD information network.
Malicious Logic	Installation of software designed and/or deployed by adversaries with malicious intentions for the purpose of gaining access to resources or information without the consent or knowledge of the user. This only includes malicious code that does not provide remote interactive control of the compromised IS. Malicious code that has allowed interactive access should be categorized as Root or User Level Intrusion incidents. Interactive active access may include automated tools that establish an open channel of communications to and/or from an IS.
Ransomware	Malware designed to encrypt files on a device, rendering any files and the systems that rely on them unusable. Malicious actors then demand ransom in exchange for

	decryption. Ransomware actors often target and threaten to sell or leak exfiltrated data or authentication information if the ransom is not paid. Ransomware is a reportable incident that may be associated with multiple incident categories depending on the attack vector and execution.
--	--

11.A.3.2. If the cyber-incident affects a classified system, vulnerabilities associated with the incident will be classified per the current version of USTRANSCOM Instruction 31-02, Security Classification Guide.

#### 11.A.4. Cybersecurity Incident Reporting Timelines

In addition to providing the notification required by DFARS 252.204-7012, the Contractor is required to notify USTRANSCOM as soon as practical, but no later than 72 hours after discovering a reportable cyber-incident. The reporting timeline begins when the incident is discovered or reported to the company, its employees, Contractors, or cybersecurity firm responsible for providing cybersecurity and response for the company. The Contractor shall contact the USTRANSCOM Cyber Operations Center (CyOC) via phone at 618-817-4222. If the Contractor does not immediately reach the CyOC via phone, the Contractor shall send an email notification to [transcom.scott.tcj6.mbx.cyoc-dodin-operations@mail.mil](mailto:transcom.scott.tcj6.mbx.cyoc-dodin-operations@mail.mil).

#### 11.A.5. Mandatory Reporting Data

11.A.5.1. The Contractor shall work with the USTRANSCOM CyOC through resolution of the incident. Within 72 hours of becoming aware of a reportable cyber-incident, the Contractor shall provide an initial notification of the incident, even if some details are not yet available, which includes, but is not limited to, the following information:

11.A.5.1.1. Company Name

11.A.5.1.2. Who will be the POC with contact information

11.A.5.1.3. Contracting Officer POC (name, telephone, email)

11.A.5.1.4. Overall Assessment –Description of incident, data at risk, mitigations applied

11.A.5.1.5. Indicators of compromise

11.A.5.1.6. Vector of attack (if known)

11.A.5.1.7. Estimated time of attack (if known)

11.A.5.2. The Contractor shall provide a follow-on cyber-incident report to the USTRANSCOM CyOC within 5 calendar days of becoming aware of a reportable cyber-incident, which includes, but is not limited to, the following information:

11.A.5.2.1. Contractor unique Commercial and Government Entity (CAGE) code

11.A.5.2.2. Contract numbers affected

11.A.5.2.3. Facility CAGE code where the incident occurred if different than the prime Contractor location

11.A.5.2.4. POC if different than the POC recorded in the System for Award Management (name, address, position, telephone, email)

11.A.5.2.5. Contracting Officer POC (name, telephone, email)

11.A.5.2.6. Contract clearance level

11.A.5.2.7. DoD programs, platforms, systems, or information involved

11.A.5.2.8. Location(s) of compromise

11.A.5.2.9. Date incident discovered

11.A.5.2.10. Type of compromise (e.g., unauthorized access, inadvertent release, other)

11.A.5.2.11. Description of technical information compromised

11.A.5.2.12. Any additional information relevant to the information compromise

#### 11.A.6. Incident Reporting Coordination

11.A.6.1. In the event of a cyber-incident, USTRANSCOM may conduct an on-site review of network or information systems where DoD information is resident on or transiting to assist the Contractor in evaluating the extent of the incident and to share information in an effort to minimize the impact to both parties. Date and time of on-site visits will be mutually agreed upon by USTRANSCOM and the Contractor in advance.

11.A.6.2. The Contractor agrees to allow follow-on actions by the Government (e.g., USTRANSCOM, Federal Bureau of Investigation, Department of Homeland Security, DC3, etc.) to further characterize and evaluate the suspect activity. The Contractor acknowledges that damage assessments might be necessary to ascertain an incident methodology and identify systems compromised as a result of the incident. Once an incident is identified, the Contractor agrees to take all reasonable and appropriate steps to preserve any and all evidence, information, data, logs, electronic files and similar type information (reference NIST Special Publication 800-61: Computer Security Incident Handling Guide, (current version)) related to the incident for subsequent forensic analysis so that an accurate and complete damage assessment can be accomplished by the Government.

11.A.6.3. The Contractor is not required to maintain an organic forensic capability, but must ensure data is preserved (e.g., remove an affected system, while still powered on, from the network) and all actions documented until forensic analysis can be performed by the Government or, if the Government is unable to conduct the forensic analysis, a mutually agreed upon third party (e.g., Federally Funded Research and Development Center, commercial security Contractor, etc.). Any follow-on actions shall be coordinated with the Contractor via the Contracting Officer.

11.A.6.4. The Contractor agrees to indemnify and hold the Government harmless for following any recommendations to remedy or mitigate the cyber-incident following the actions under paragraphs 11.A.6.1 and 11.A.6.2.

11.A.6.5. Contractors are encouraged to work with government entities in voluntary programs that help prevent incidents and can support investigation and risk management during an incident.

#### 11.A.7. Confidentiality and Non-Attribution Statement

The Government may use and disclose reported information as authorized by law and will only provide attribution information on a need-to-know basis to authorized persons for cybersecurity and related purposes (e.g., in support of forensic analysis, incident response, compromise or damage assessments, law enforcement, counter intelligence, threat reporting, and trend analysis). The Government may share threat information with other USTRANSCOM industry partners without attributing or identifying the affected Contractor.

### 11.B. Industrial Security Information

11.B.1. Security Requirements Applicability. FAR Clause 52.204-2, Security Requirements, applies to the extent that this contract involves access to information, areas or material classified “Confidential” or “Secret.” Specific security protocols for contracted companies are outlined in 32 CFR Part 117, National Industrial Security Program Operating Manual (NISPOM).

11.B.2. The majority of daily work associated with this PWS is at the UNCLASSIFIED level, but Task Orders/Bookings may be issued requiring cleared contracted companies to access classified information, areas or systems up to the SECRET level, or transport classified military equipment or materials during performance of this contract. Companies without a Final or Interim Facility Security Clearance (FCL) are not eligible to receive Task Orders/Bookings requiring access to classified information, areas or systems up to the SECRET level, or transport classified military equipment or materials. The following security requirements under this subsection apply to cleared USC-10 carriers who receive Task Orders/Bookings requiring access to classified information, areas or systems up to the SECRET level, or transport classified military equipment or materials:

11.B.2.1. An active FCL granted by the Defense Counterintelligence Security Agency (DCSA), validated by the USTRANSCOM Office of Protection and Response (TCCS-PR) and enumerated via a DD Form 254, Contract Security Classification Specification. Whether Final or Interim, only contracted companies with a valid FCL at the SECRET level or higher are authorized to access classified information, areas or systems up to the SECRET level, or transport classified military equipment or materials. If the company does not hold an active FCL at the appropriate level at the time of contract award, the company must be sponsored for the FCL or FCL upgrade by the Government contracting activity (GCA).

11.B.2.2. Final/certified DD Form 254s will be processed at the time of award for USC-10 carriers that have an existing valid FCL.

11.B.2.3. Carriers transporting sensitive or classified shipments will comply with DTR, Part II, Section 205.

**11.B.3. Citizenship and Personnel Clearance Requirements**

11.B.3.1. Citizenship Requirements. Only Contractor employees that are U.S. citizens are able to obtain security clearances and access classified information, areas or systems up to the SECRET level, or transport classified military equipment or materials.

11.B.3.2. Personnel Clearance Level. Only Contractor employees with a personnel security clearance working for Contractor companies with an active FCL granted by DCSA at the SECRET or higher level are eligible for access to classified information, areas, systems, or military equipment and material.

11.B.4. Contractor Facility Security Officer (FSO). The Contractor will forward the name, address, email address and telephone number of the Company FSO and backup to both offices below at the time of award, and if any changes occur.

**USTRANSCOM Office of Protection and Response (Industrial Security) Points of Contact:**

USTRANSCOM  
Attn: TCCS-PR  
508 Scott Drive  
Scott AFB IL 62225  
Email: [transcom.scott.tccs.mbx.industrial-security@mail.mil](mailto:transcom.scott.tccs.mbx.industrial-security@mail.mil)

**SDDC G2 Security Office (Industrial Security) Point of Contact:**

SDDC  
Attn: G2 (Tony Cameron or Dave Stewart)  
1 Soldier Way  
Scott AFB IL 62225  
Email: [standa.t.cameron.civ@army.mil](mailto:standa.t.cameron.civ@army.mil) or [david.l.stewart148.civ@army.mil](mailto:david.l.stewart148.civ@army.mil)  
Group box: [usarmy.scott.sddc.mbx.g2@army.mil](mailto:usarmy.scott.sddc.mbx.g2@army.mil)

**11.B.5. Personnel and Facilities Clearance Validation.**

Upon award of a Task Order/Booking that contains classified cargo, the contractor will submit the names of the vessel master or Captain and the licensed deck officer who will fulfill the requirements of DTR, Part II, Section 205 to HQ SDDC G2 via their organization e-mail [usarmy.scott.sddc.mbx.g2@army.mil](mailto:usarmy.scott.sddc.mbx.g2@army.mil) for vetting through the Defense Information Security System (DISS) to ensure investigative and clearance requirements have been satisfied.

11.B.6. Visits to the USTRANSCOM/SDDC HQ facilities on SAFB. Prime Contractor and sub-contractor employees coming visiting to Scott AFB, IL and USTRANSCOM/SDDC for periodic carrier or other meetings must send a visit request in DISS to SMO code SDDC-CONT. The visit request shall annotate the purpose of the visit; POCs by names and telephone numbers; visit date(s) and the contract or task order number. Entrance into Building 1900 will be via the breezeway between 1900E and 1900W. The Contractor visitors must come to the Protection Services Center (PSC) for validation of their clearance and visit request. Temporary badges or escort required badges will be issued based on access eligibility.

11.B.7. Classified Information at Contractor Headquarters. No classified information obtained by Contractor visitors at SDDC may be taken from SDDC back to the Contractor company headquarters unless that specific

Commercial and Government Entity (CAGE) code location has been granted safeguarding eligibility by DCSA. No Contractor employee will hand-carry classified information from SDDC back to the Contractor's location without written approval from HQ SDDC G2. If authorized, the Contractor courier must be briefed on responsibilities to safeguard the information and have a signed SDDC courier letter in his or her possession.

11.B.8. Classified Meetings. Visitors are required to follow SDDC guidelines for attending classified meetings.

### **11.C. Vendor Threat Mitigation**

11.C.1. Subcontractor Suitability. The Contractor shall submit a semi-annual report to the Contracting Officer for each first-tier foreign service provider, operating as a separate legal entity, contracting directly with the Contractor. This includes the foreign service provider's commonly-owned legal affiliate (if applicable) which has employees who may have physical contact with Government shipments or access to Government systems or information in the ordinary course of contract performance. First-tier foreign service providers within scope include, but are not limited to, freight forwarders, customs brokers, information technology service providers, stevedoring service providers, other brokers, rail carriers, and trucking companies. The initial report is due 30 calendar days after contract award and every six months thereafter.

11.C.2. The report shall include the following information:

11.C.2.1. Legal Company Name (in native language if known)

11.C.2.2. Complete Address including Country

11.C.2.3. Name, phone number and e-mail address of at least one point of contact at the company

11.C.2.4. Any Previous or Alternate Company Names

11.C.2.5. Fax number

11.C.2.6. Website URL

11.C.2.7. International Civil Aviation Organization (ICAO) or equivalent designator (if applicable)

11.C.2.8. Owner(s)/Director(s) name(s) and e-mail address(es)

11.C.2.9. Manager(s) name(s) and e-mail address(es)

11.C.2.10. Frequency of use during reporting period

11.C.3. For foreign subcontractors that fall within the scope of the reporting requirement, the Contractor shall provide a copy of business licenses required for the subcontractor to legally operate in that country.

11.C.4. The Contractor is not required to limit reporting solely to the in-scope foreign subcontractors used during the reporting period, but rather, may provide a complete list of foreign subcontractors in the Contractor's network. If providing foreign subcontractors that are not used during the reporting period, but are within the network, submissions shall differentiate between those that have been used during the reporting period and those that are only in the network.

11.C.5. The Contractor is responsible for appropriately marking sensitive information as proprietary/trade secret. The Government will handle proprietary/trade secret information within the applicable statutes, rules, and regulations regarding the handling and release of such information.

11.C.6. Prior to contract performance and periodically throughout performance, the Contracting Officer shall make available to the Contractor the name of active or potential subcontractors determined to be unsuitable. The Contractor shall not allow named entities to perform any role in performance under this contract. If the Contractor chooses to terminate the unsuitable subcontractor, the Government shall not be liable for any costs incurred by the Contractor in establishing or terminating use of the unsuitable subcontractor. The Contractor may choose not to terminate the unsuitable subcontractor for use on its commercial contracts.

11.C.7. An unsuitable determination does not preclude the Contractor from nominating an unsuitable entity for reconsideration during the contract performance period. The Contractor is encouraged to provide the Contracting Officer additional information that may affect the subcontractor's suitability. Any entity listed in the U.S. Government Consolidated Screening List ([http://export.gov/ecr/eg\\_main\\_023148.asp](http://export.gov/ecr/eg_main_023148.asp)) or otherwise prohibited per FAR Subpart 25.7, Prohibited Sources, will not be reconsidered.

11.C.8. Except as authorized by the Office of Foreign Assets Control (OFAC) in the Department of the Treasury, Contractors and subcontractors must not acquire any supplies or services if any proclamation, Executive Order, or statute administered by OFAC, or if OFAC's implementing regulations at 31 Code of Federal Regulation (CFR) Chapter V, would prohibit such a transaction by a person subject to the jurisdiction of the United States. Most transactions involving Cuba, Iran, and Sudan are prohibited, as are most imports from Burma or North Korea into the United States or its outlying areas. Lists of entities and individuals subject to economic sanctions are included in OFAC's List of Specially Designated Nationals and Blocked Persons. More information about these restrictions, as well as updates, is available in OFAC's regulations at 31 CFR Chapter V and/or on OFAC's website at <https://home.treasury.gov/policy-issues/office-of-foreign-assets-control-sanctions-programs-and-information>. Specific questions about restrictions should be made to the Department of the Treasury Office of Foreign Assets Control, Washington, DC 20220 (Telephone (202) 622-2490)). The Contractor is responsible for appropriately marking sensitive information as proprietary/trade secret. The Government will handle proprietary/trade secret information within the applicable statutes, rules, and regulations regarding the handling and release of such information.

#### **11.D. Defense Transportation Regulation.**

In addition to the NISPOM (DoDI 5220.22), Contractors are required to be familiar with the DTR (DoD 4500.9.R, Part II, Appendix E).

**SECTION 12 SAFETY, ACCIDENT AND INCIDENT REPORTING, AND INVESTIGATION**

**12.A. Safety**

12.A.1. The Contractor is responsible for the safety of its employees and for compliance with The Occupational Safety and Health Act of 1970; or any other applicable Federal, State, and local laws, codes, ordinances, and regulations.

12.A.2. The Contractor shall provide and maintain work environments and procedures which will safeguard the public and Government personnel, property, materials, supplies, and equipment exposed to Contractor operations and activities. To this end, the Contractor shall establish and maintain a safety program in compliance with applicable Federal, State, local and/or host nation laws, codes, ordinances, and regulations.

**12.B. Accident and Incident Reporting and Investigation**

12.B.1. The Contractor shall investigate and notify the cognizant COR and SDDC HQ Safety Office of any incident and/or accident that results in damage to government cargo or property, release of HAZMAT, injury, and/or death to any personnel arising from or during performance under this contract, or terrorism/piracy activity. The Contractor shall also investigate and notify the cognizant COR and USTRANSCOM Deployment Distribution Operations Center (DDOC) of any incident to include but not limited to an armed attack on a vessel. Notification shall be provided in accordance with the timeline below.

12.B.1.1. The Contractor shall assist the Government during the investigation of any accident or serious incident where the government initiates an investigation. The Contractor shall allow Government personnel access to the location, any evidence, and any contractor-employed witnesses to include operators involved in the accident.

12.B.1.2. The reporting timeline begins when the incident is discovered or reported to the company, its employees, or subcontractors, the contractor shall contact the cognizant COR and the SDDC HQ Safety Office via email notification to [usarmy.scott.sddc.mbx.safety@army.mil](mailto:usarmy.scott.sddc.mbx.safety@army.mil). For incidents involving armed attack on a vessel then the contract shall also notify USTRANSCOM DDOC at [transcom.scott.tcj3.mbx.ddoc-chief@mail.mil](mailto:transcom.scott.tcj3.mbx.ddoc-chief@mail.mil).

12.B.1.3. Within 24 hours of becoming aware of a safety incident, the contractor shall provide an initial notification of the incident, even if some details are not yet available, which includes, but is not limited to, the following information:

- 12.B.1.3.1. Contractor's name
- 12.B.1.3.2. Contract Number
- 12.B.1.3.3. Who will be the POC with contact information
- 12.B.1.3.4. Contracting Officer POC (name, telephone, email)
- 12.B.1.3.5. Date, Time, and Location of Incident
- 12.B.1.3.6. Equipment/Property Damaged
- 12.B.1.3.7. Description of Damage
- 12.B.1.3.8. Pictures of location and damage
- 12.B.1.3.9. Estimated cost of damage, if available
- 12.B.1.3.10. Description of activity that led to damage
- 12.B.1.3.11. Provide synopsis of activities prior to and to the point of the incident

12.B.1.3.12. Conditions present at time of incident

12.B.1.4. The contractor shall provide a follow-on safety incident report to the COR and the SDDC HQ Safety Office within 30 days of becoming aware of a safety incident, which includes, but is not limited to, the following information:

12.B.1.4.1. Equipment maintenance records (if item contributed or defect is involved with incident)

12.B.1.4.2. Names of personnel operating equipment

12.B.1.4.3. Qualification records for operators

12.B.1.4.4. Contributing factors

12.B.1.4.5. Facts concerning causes of incident

12.B.1.4.6. Actions taken to prevent similar incidents in the future

12.B.1.4.7. Any new or updated information that has been discovered regarding the topics contained in the initial 24-hour report

12.B.1.5. Within 8 hours of becoming aware of the hospitalization or death of anyone employed by contractor or subcontractor or government employee from an on-site incident, the contractor shall provide notification, even if some details are not yet available, which includes, but is not limited to, the following information:

12.B.1.5.1. Contractor's Name

12.B.1.5.2. Contract Number

12.B.1.5.3. Who will be the POC with contact information

12.B.1.5.4. Contracting Officer POC (name, telephone, email)

12.B.1.5.5. Name of individual(s) hospitalized or deceased

12.B.1.5.6. Date, Time, and Location of Incident

12.B.1.5.7. If known, define or describe injury/explain cause of injury/death

12.B.1.5.8. Provide synopsis of activities prior to and to the point of incident (if known at present time)

12.B.1.6. The contractor shall provide a follow-on safety incident report to the COR and the SDDC HQ Safety Office within 30 days of becoming aware of an incident involving the hospitalization or death of anyone employed by contractor or subcontractor or government employee, which includes, but is not limited to, the following information:

12.B.1.6.1. Conditions at time of incident

12.B.1.6.2. Contributing factors

12.B.1.6.3. Facts concerning causes of incident

12.B.1.6.4. Actions taken to prevent similar incidents in the future

12.B.1.6.5. Any new or updated information that has been discovered regarding the topics contained in the initial 8 hour report.

**SECTION 13 PWS DELIVERABLES SUMMARY**

<b>Contract section</b>	<b>Deliverable</b>	<b>Due Date or Frequency</b>	<b>Distribution</b>	<b>Format</b>
Exhibit 1 – 1.6 / Exhibit 4	Domestic Shipyard Report (Applies to Jones Act Carriers Only)	Initial due at time of proposal submission; then annually by 31 May.	Contracting Officer and Specialist	MS Excel template in Atch 13 sent via email
Exhibit 2 PWS 3.E.2	CDR corrective action plan response	Within 10 Business days	Cognizant COR	Email
Exhibit 2 PWS 6.E.2.	Container Pool Agreement	Within 30 days after award of contract; 30 days after exercise of an option period	Contracting Officer and Specialist	PDF using Exhibit 2, PWS, Attachment 14 template via email
Exhibit 2 PWS 6.E.5	Discontinued Container Pool	Within 30 calendar days of Pool being discontinued	Contracting Officer	Email
Exhibit 2 PWS 9.A	Service Changes	At least 45 calendar days prior to change	Contracting Officer	Email
Exhibit 2 PWS 11.A.2	Cyber Security Self-Assessment and Plan of Action	60 calendar days after initial contract award; then annually thereafter	Contracting Officer and Specialist	Electronic: MS Excel via email, using contract's most recent Exhibit 2, PWS, Attachment 9-NIST.SP.800-171-POAM Template
Exhibit 2 PWS 11.A.3 through 11.A.6	Cyber Incident Reporting	Provide timely cyber-incident reporting as required.	As required	As required
Exhibit 2 PWS 11.B	DD Form 254	Initial due at time of proposal submission; revisions as needed.	Contracting Officer and Specialist	Electronic: PDF via email
Exhibit 2 PWS 11.C	Vendor Threat Mitigation	The initial report is due 90 calendar days after contract award and every 6 months thereafter.	Contracting Officer and Specialist	Email
Exhibit 2, PWS 12.B.1	Safety and Accident Reporting and Investigation	Provide notification, incident report as required.	As required	As required
Exhibit 2, PWS, Attachment 8	Prime Vendor Carrier Agreements	Prior to receiving an award of Prime Vendor Cargo or upon any changes to the agreement	Contracting Officer and Specialist, SDDC HQ's CMO	Electronic (Exhibit 2, PWS, Attachment 8)

**LIST OF PWS ATTACHMENTS**

- Attachment 1 – EDI Reporting
- Attachment 2 – Operational Reports

- Attachment 13 – Domestic Shipyard Report
- Attachment 14 – Example Container Pool Memo
- Attachment 15 – DD Form 254 (If applicable, for carriers with an active FCL; see PWS Section 11.B)

**A. EXIGENCY ANNEX**

**A.1 Scope / Declaration of Exigency Area**

A.1.1 This annex shall apply to geographic areas designated by the Commanding General (CG) of SDDC as Exigency Areas. These provisions take precedence over terms outlined in Exhibit 2, PWS. All other terms and conditions of this contract not in conflict with this section shall still apply to Exigency Areas.

A.1.2 The SDDC CG has designated Iraq as an Exigency Area. Areas designated as “Exigency” will remain so until such designation is rescinded by SDDC CG. The Contracting Officer shall notify the Contractor in writing of each Exigency Area determination or rescission. The notification shall include, at a minimum, the geographic area of the exigency and the effective date of exigency.

A.1.3 This annex shall apply to cargo booked under the contract to areas designated as Exigency Areas. The Exigency Area designations shall apply to cargo with a vessel sail date on or after SDDC’s declaration of an Exigency Area. Task Orders/bookings with cargo in transit at time of declaration can be included at the discretion of the Contracting Officer.

A.1.4 If there is a conflict between the main part of the Exigency Annex and the Geographic Combatant Commands (GCC)-specific portion of the Annex, the GCC-specific portion shall prevail.

**B. APPLICABLE TO ALL EXIGENCY AREAS**

**B.1 Mandatory Acceptance of Bookings, Government-Furnished Containers (GFC)**

B.1.1 In the case of urgent and compelling circumstances or in the interest of National Defense or Security, bookings to Exigency Areas must be accepted, as indicated by the Contracting Officer or Ordering Officer (OO). Such mandatory bookings do not necessarily apply to all bookings to exigency areas, but only to specific bookings, or groupings of bookings, when designated as “Mandatory Acceptance”.

B.1.2 The following rules apply to Mandatory Acceptance of cargo to Exigency Areas:

B.1.2.1 Does not apply to Hazardous cargo if Contractor policy otherwise prohibits such cargo.

B.1.2.2 No counteroffers, except to Required Delivery Date (RDD), and only up to 14 calendar days beyond the RDD in the offer.

B.1.2.3 Should the bookings consist of GFC, the Contractor shall provide the same level of service at no additional cost to the carriage of cargo in GFC that is provided to the carriage of cargo in the Contractor’s container.

B.1.2.4 Pricing is the same as for non-Mandatory cargo.

B.1.2.5 Mandatory Acceptance is limited to up to 200 Transportation Control Numbers (TCNs) (i.e., either containers or pieces of Breakbulk, for example 130 containers and 70 breakbulk pieces) per vessel. Beyond 200 TCNs, booking acceptance is not mandatory.

B.1.2.6 Booking Offer must be made no later than one week prior to vessel sail date.

B.1.3 The Government may renegotiate rates in an Exigency area when that area is declared.

**B.2 Container Detention**

B.2.1 Free time for the purposes of calculating container detention shall be 40 calendar days for Dry containers and 35 calendar days for Reefer containers, commencing at 0001 on the first calendar day after the container is discharged from the vessel at the Port of Debarkation (POD). This applies to containers destined for any Exigency Area.

B.2.2 Free time/detention will run during any staging or authorized Government caused delay in accordance with Exhibit 2, PWS, Attachment 1.

B.2.3 Detention accrued during staging / delay periods may not be invoiced until after cargo is delivered (EDI X1 event date) or other disposition of the cargo is made by the carrier at the Government's request after termination of the staging/delay period.

B.2.4 In those instances where free time is exhausted prior to delivery due to authorized delay/staging periods, detention is calculated as follows:

B.2.4.1 Calculate detention start date by applying free time to the date the container was discharged from the vessel at the Port of Debarkation (EDI UV event date).

B.2.4.2 Next calculate total days of delay/staging as documented with HG/HR and A1/A2 EDI transactions sets that occur prior to the UV.

B.2.4.3 Then subtract the number of days of delay/staging from the detention start date to determine the updated detention start date.

Example:

- Vessel Unload/UV: 15 May 18
- Free time: 40 days (16 May-24 June 18)
- Detention Start: 25 June 18
- Valid delay (A1/A2): 1-30 Apr 18 (Prior to UV)
- Apply delay period to calculate updated start date: 25 June 18 minus 29 days
- Updated Detention Start Date: 27 May (5 days in May + 24 days in June = 29 days delay)
- Contractor invoices 5 days in May (27 – 31 May)
- Contractor invoices 30 days in June or until detention stops per Exhibit 2, PWS, paragraph 9.E.5.

B.2.5 Refer to Exhibit 2, PWS, paragraphs 9.E.3 through 9.E.7.6 for further procedures.

### **B.3 Container Pick Up/Return**

B.3.1 The Government and the Contractor agree that it is in their mutual best interests to facilitate the prompt return and pickup of empty containers at the original point of delivery. To achieve this goal, the Contractor will use commercially reasonable efforts to position trucks at Forward Operating Bases (FOBs) to evacuate empty containers within 7 calendar days after receiving notice from the Government that the container is available at the original point of delivery. In addition, the Government will use reasonable efforts to load empty containers onto trucks that the Contractor positions to evacuate empties, including trucks that have delivered loaded containers at the FOB as well as trucks dispatched to pick up empties.

B.3.2 To manage and monitor progress towards achieving prompt return and pickup of empty containers, the Government and Contractor will exchange weekly reports in mutually agreed formats. Among other things, the reports may identify loaded containers delivered, loaded export containers picked up, empty containers notifications, empty containers picked up, and trucks leaving FOBs without loaded or empty containers.

B.3.3 At regular intervals as may be mutually agreed upon, the Government and Contractor will meet to review and discuss empty return and pickup performance. Corrective action plans will be jointly developed to address any

significant deficiencies in the Contractor's performance in positioning trucks to pick up empty containers or the Government's performance in loading empty containers on the Contractor's trucks.

B.3.4 At locations where the Government has automated system capability to report that containers are empty and request their pickup, the dates documented by the system will be the official date/time of notification unless the Contractor has been provided earlier written notice from the Government. Contractor personnel will obtain passwords as needed to access these systems. In order to assist with container accountability, as requested by the Contractor, the Government will provide a regular, weekly report showing all loaded containers delivered and empty containers picked up from specific installations.

B.3.5 The Contractor will report pickup of empty containers in accordance with Exhibit 2, PWS, Attachment 1 for EDI shipment status reporting. Additional written reports may be required upon Government request.

B.3.6 The Contractor will notify the U.S. Government of its pickup of empty reefer containers from the consignee's location if such pickup occurs without the genset being attached to the reefer. Notification will be made to the cognizant SDDC Battalion (BN) and Contracting Officer Representative (COR) within three calendar days from the time the reefer is picked up without its genset, unless a weekly report is mutually agreed upon.

#### **B.4 Driver Wait Time**

B.4.1 Free time shall start when the driver is in line outside the final destination waiting to deliver cargo and Contractor provides notice by submitting an "AV" EDI transaction that the cargo is locally available for immediate delivery but is delayed by the Government. The AV transaction may not be submitted by Contractor until the driver is physically in line outside the gate at final destination.

B.4.2 The receiver shall have free time for the day that driver arrived in line outside final destination. Starting at 0001 on the day following arrival in line, the Contractor shall be paid waiting time at \$180 per day.

B.4.2.1 Driver wait time shall end when:

1. The cargo is removed from the container or conveyance and the Contractor submits an X1 EDI transaction in accordance with Exhibit 2, PWS, Attachment 1; or
2. The cargo is removed from the container or conveyance and an HG EDI transaction for staging start has been auto-generated by the Pipeline Asset Tool (PAT) Delay Request and Authorization Portal (DRAP) in accordance with Exhibit 2, PWS, Attachment 1.

B.4.3 Driver waits time applies only to charges incurred when the driver is physically in line outside the final destination waiting to deliver cargo. For all other situations, the contractor may submit a request for an equitable adjustment.

B.4.4 Shipments delivered with evidence of tampering or loss shall be investigated by base security; drivers may be detained for questioning by base security. If investigation determines no tampering occurred, applicable wait time rates will be paid. If the investigation determines that tampering/pilferage has occurred, wait time will not be payable and the AV transaction shall be invalidated by the Contractor.

B.4.5 Invoices for driver wait time shall also be permitted on a case-by-case basis for stoppages in transit if a delay is approved in advance by the COR through the DRAP process.

#### **B.5 Daily In-transit Visibility (ITV) Reports**

B.5.1 Daily ITV Reports are required during the inland movement for cargo moving into or out of any exigency area. Daily ITV shall be included in the linehaul rate. Should these reports not be required for a particular Exigency, the Contractor will be advised by the Contracting Officer.

B.5.1.1 The Contractor shall report each shipment daily by providing event reports or location information as set forth below.

B.5.2 Reporting method/format. The Contractor shall report via the Contractor ITV Entry Tool (CIET), for import and export routes available in CIET, or via separate Excel spreadsheets for new routes not yet available in CIET.

B.5.2.1 Reportable events shall include the dates for the following events: vessel arrival, cargo discharge, cleared by customs, outgate from port of debarkation, arrival at consignee (import cargo), requested pickup (export cargo), origin departure, in-gate, vessel lift, vessel sail (export cargo) and transit of Contractor waypoints (import and export).

B.5.2.2 The following information must also be included: IBS TCN, container number with prefix (if applicable), Port Call File Number (PCFN), booking number, type/description of cargo, Enhanced ITV tag number (when ordered), origin and final destination, POE and POD, shipper Department Of Defense Activity Address Code (DODAAC), consignee DODAAC/Military Assistance Program Address Code (MAPAC), current truck number and border crossing date, and each applicable event.

B.5.2.3 The Contractor shall provide exception information (location, remarks, and dates) providing shipment status for the previous 24 hours or shipment information that had not been included previously. Exception information is required only when there is no event report for the prior day. Remarks can be used to advise of cargo exception information but would not replace notifications otherwise required per the contract. When inputting exception information in CIET, the Contractor shall use the remarks block which can be updated as a single shipment record or as part of a grouping of shipment records. Completed shipments may be deleted 30 calendar days after delivery when being reported using the excel spreadsheet reporting method.

B.5.3 If requested for routes not available in CIET, spreadsheet reports shall be provided by email attachments to a distribution list provided by the cognizant COR.

## **B.6 Inland Transit Security**

B.6.1 The Contractor shall be responsible for the safe delivery of all cargo booked under this contract and shall employ security methods that can normally be expected to greatly minimize or altogether eliminate pilferage and banditry. The Contractor shall be responsible for all damage to and loss of cargo while in the physical custody of the Contractor, its agents or assigns, including but not limited to losses caused by pilferage, or theft.

B.6.2 The Contractor shall report to the cognizant Brigade and SDDC HQ any loss of cargo, breach of sealed containers, or hijacking of cargo within 48 hours of Contractor becoming aware of the event.

B.6.3 The initial incident report shall, at a minimum, include: Contractor's name, contract number, date of incident, nature of incident, container number, TCN, PCFN. As information becomes available, follow on reports shall include: location of incident, reporting party name and contact details, truck number, summary of events, cause of incident, photo of damaged cargo, parties involved and action taken by security forces (if applicable).

B.6.4 The Contractor shall include the cost of Standard Inland Transit Security in its basic linehaul rates.

## **B.7 High Value Cargo**

B.7.1 Container Bookings Only - If operational concerns arise following identification of cargo value exceeding \$1,250,000 per container, the Contractor should contact the Contracting Officer for movement guidance.

B.7.2 Breakbulk Bookings Only - If operational concerns arise following identification of cargo value exceeding \$1,250,000 per unit, the Contractor should contact the Contracting Officer for movement guidance.

## **C. APPLICABLE TO EXIGENCY AREAS WITHIN USCENCOM**

### **C.1 Security Convoy (Iraq)**

The Contractor shall ensure that all convoys moving within Iraq have security support when ordered by the OO in the booking.

C.1.1 The Contractor shall ensure the integrity and safety of the materials and equipment being transported and is responsible for providing armed security escorts for all missions when the Security Convoy Accessorial is ordered in the booking.

C.1.2 When a Contractor utilizes a Private Security Company (PSC), the Contractor shall ensure the PSC complies with all applicable Iraqi laws, codes and regulations while performing contract services. All PSC services must utilize a Government of Iraq licensed firm. Vetting and sourcing of the security personnel is the responsibility of the Contractor alone. PSCs will not be allowed on base and must link up with convoys outside the gates.

C.1.3 The Contractor shall provide a convoy team leader for each convoy movement to ensure the logistical convoys are coordinated with the security convoys prior to and during convoy movements.

C.1.4 The Contractor shall ensure continuous monitoring of each convoy movement and maintain immediate coordination and communication capabilities in cases of emergency, truck/equipment breakdowns, etc.

C.1.5 An initial incident report, including at a minimum: Contractor's name, contract number, date of incident, nature of incident, container number, TCN, PCFN, must be submitted within 24 hours to 595<sup>th</sup> and SDDC HQ CORs any time a Contractor asset is involved in any serious incident to include, but not limited to, accidents, injuries, and damage / loss / theft / destruction of cargo. Follow-on reports must be submitted at least every 24 hours (or as events change) until the cargo is recovered and include the following as the information becomes available:

- Contractor's name;
- Contract number;
- Reporting party name and contact information;
- Time, date and location of incident;
- Details of the incident;
- Container numbers, PCFNs, and/or TCNs involved;
- Proposed corrective action(s);
- Impact to delivery schedule (if any);
- Photo of damaged cargo,
- Parties involved;
- Action taken by security forces if applicable; and

C.1.6 Contractor shall provide convoy movement planning and execution that includes:

- Secure checkpoints to include cargo inspection and daily reporting of checkpoint activity;
- Back-up truck and driver capability to recover from truck or driver disability;
- Truck operations that incorporate:
  - Route planning to avoid reported threats;
  - Waypoint ETAs and status checks for overdue trucks;
  - Continuous contact with drivers and security vehicles;
  - Secure facilities for overnight stops;
  - Immediate response to driver disability, equipment damage or breakdown.

### **C.2 Tarping Requirements – Iraq**

C.2.1 The Contractor shall tarp import cargo before departing the POD and export cargo at origin before leaving the FOB.

C.2.1.1 Non-containerized cargo/rolling stock/military vehicles in a military paint scheme or vehicles with Government or military markings must be covered with tarps during transport.

C.2.1.2 All breakbulk cargo (to include TRICONS, QUADCONs, ISU-90s, etc.), 20'/40' shipper-owned containers with military markings/flags/paint schemes, trailers, cargo loaded on flatracks, and other loose cargo must be tarped. Contractor must conceal Government or military markings on containerized cargo during transport. Container numbers that start with the letters USG or USA are not considered Government or military markings. Examples of Government or military markings include "US Army", flags, unit identification and military insignia.

C.2.2 Due to local Government requirements, tarps may be temporarily removed or partially lifted at the request of local authorities to facilitate inspection at specific transit points, borders and check posts while enroute. Contractor must ensure that the cargo is immediately re-tarped upon completion of the required inspection. Cargo must be completely covered and concealed from view while being transported. Concealment materials shall be weather resistant, non-transparent and shall remain secured and in place during the inland movement of cargo. In addition, concealment material shall remain on the cargo until final destination unless otherwise directed by the Government.

**APPLICABLE TO EXIGENCY AREAS WITHIN USAFRICOM**

**D. APPLICABLE TO EXIGENCY AREAS WITHIN USEUCOM**

**E. APPLICABLE TO EXIGENCY AREAS WITHIN USINDOPACOM**

**F. APPLICABLE TO EXIGENCY AREAS WITHIN USNORTHCOM**

**G. APPLICABLE TO EXIGENCY AREAS WITHIN USSOUTHCOM**

**END OF EXIGENCY ANNEX**

**Electronic / EDI Reporting**

Shipment Status Reporting: The Contractor shall provide accurate shipment status reports using the Electronic Data Interchange (EDI) 315 transaction sets. Transaction sets shall be submitted in accordance with the Department of Defense (DoD) Transportation Electronic Business (DTEB) Implementation Convention (IC) ANSI X-12 EDI standard or via Integrated Booking System (IBS) Ocean Carrier Interface (OCI) to SDDC. Table 1 identifies specific events that require reporting. The Contractor shall submit all reports within 48 hours of accomplishment.

Table 1 of Reportable Shipment Status Events

CODE	DEFINITION	NOTES
EE	Empty Spotted	The transaction is required for all carrier owned containers spotted at locations other than container pool locations. Pick up of Loaded Container in lieu of Empty Spotted is acceptable for shippers having container pools. (NOT REQUIRED FOR BREAKBULK)
W	Pickup of Loaded Container/Breakbulk	This transaction is required at the time customer turns over possession to Contractor. This transaction is only applicable upon Contractor pick-up. There shall be exactly one W transaction per shipment. If erroneous W transactions are submitted, Contractor shall invalidate them via the Pipeline Asset Tool (PAT) EDI invalidator tool to ensure only one valid transaction is reflected per shipment.
I	In-gate at Port of Embarkation (POE)	This transaction is required at the POE. This transaction is only applicable at the POE. There shall be exactly one I transaction per shipment. If erroneous I transactions are submitted, Contractor shall invalidate them via the PAT EDI invalidator tool to ensure only one valid transaction is reflected per shipment.
AE	Loaded on Vessel	This transaction is required at the POE and required at all transshipment ports.
VD	Vessel Departure	This transaction is required at the POE and required at all transshipment ports.
VA	Vessel Arrival	This transaction is required at the Port of Debarkation (POD) and required at all transshipment ports.
UV	Vessel Discharge	This transaction is required at the POD and required at all transshipment ports.
OA	Out-gate from POD	This transaction is required at the final POD for all cargo, regardless of whether booked to port or to door. This transaction is only applicable at the POD. There shall be exactly one OA transaction per shipment. If erroneous OA transactions are submitted, Contractor shall invalidate them via the PAT EDI invalidator tool to ensure only one valid transaction is reflected per shipment.
X6	Waypoint	This transaction is required when the Daily ITV accessorial is ordered or when specified by the contract. This transaction will be auto-generated based on Contractor date input to the Carrier In Transit Visibility Entry Tool (CIET) to document a shipment passing specified waypoints along the route.
AV	Cargo Booked to-Door Available for Delivery (Applicable to Exigency areas only; Optional Transaction)	For Exigency Areas only, and only for bookings to-door; the Contractor may submit an AV request upon entering in line outside the final destination gate to document accrual of driver wait time, if applicable. AV, for these locations only, is valid only if submitted prior to RDD for metric purposes.
EC	Return of Empty Container to	This transaction is required for container shipments when the Contractor has regained possession of its asset prior to delivery (X1). An example

	Contractor Prior to Delivery (X1)	of the proper use of an EC Code would be when cargo is deconsolidated at a transship point, the container is returned to the Contractor prior to X1, and the cargo is moved as pallet loads to the final consignee. Each container shipment container return event shall be documented with either an RD or an EC but never both. (NOT REQUIRED FOR BREAKBULK)
X1	Delivery to Consignee	For door bookings, this transaction is required when the shipment is delivered to the customer. For port bookings, the X1 is required when the Contractor releases the cargo to the Government. There shall be exactly one X1 transaction per shipment. If erroneous X1 transactions are submitted, Contractor shall invalidate them via the PAT EDI invalidator tool to ensure only one valid transaction is reflected per shipment.
RA	Carrier Notified Empty Container Available for Pick-up	This transaction will be auto-generated via PAT to document U.S. Government notification to the Contractor that an empty container is available for pick-up. This transaction will be auto-generated based on the date of notification if the Contractor does not dispute availability within seven (7) days of notification.  (NOT REQUIRED FOR BREAKBULK)
RD	Return of Empty Container to Contractor After Delivery (X1)	This transaction is required for every container shipment when the Contractor regains possession of its asset after delivery (X1). There shall be exactly one RD transaction per shipment. Each container shipment container return event shall be documented with either an RD or an EC but never both.  (NOT REQUIRED FOR BREAKBULK)
HG	Entry into U.S. Government-directed Staging	This transaction will be auto-generated based on the date approved in the PAT Delay Request and Authorization Portal (DRAP) after receiving and executing U.S. Government direction to stage a shipment, to include port staging or constructive staging.
HR	Release from U.S. Government-directed Staging	This transaction will be auto-generated based on the date recorded in the DRAP after receiving U.S. Government direction to end staging of a shipment, to include staging at ports or constructive staging.
SD	Authorized Shipment Delay (Not Government-caused)	This transaction will be auto-generated upon approval of a Contractor requested delay submitted via the DRAP. This transaction will be triggered for delays which are not caused by either the U.S. Government or Host Government.
BD	End of Authorized Shipment Delay (Not Government-caused)	This transaction will be auto-generated upon U.S. Government approval of a Contractor request to end a shipment delay submitted via the DRAP. This transaction will be triggered for delays which are not caused by the U.S. Government or Host Government.
A1	Authorized Shipment Delay (Government –Caused)	This transaction will be auto-generated upon U.S. Government approval of a Contractor requested delay submitted via the DRAP. This transaction will be triggered for delays which are caused by either the U.S. Government or Host Government.
A2	End of Authorized Shipment Delay (Government-caused)	This transaction will be auto-generated upon U.S. Government approval of a Contractor request to end a shipment delay submitted via the DRAP. This transaction will be triggered for delays which are caused by the either the U.S. Government or Host Government.

**Additional Rules for Cargo Using Transshipment Ports**

When cargo is transshipped from one vessel to another, the VA, UV, AE and VD transactions are required. The Contractor will submit the transaction with the new vessel name and International Radio Call Sign (IRCS).

#### **Additional Rules for AV Transactions for Cargo Booked to Door**

AV transactions for cargo booked to door are permitted for Exigency Areas only.

AV is a required transaction to document accrual of driver wait time. AV may only be requested upon entering in line outside the gate at final destination. There are no other acceptable uses of AV for cargo booked to door. In the event an AV transaction is not requested, the Government will assess that driver wait time was not incurred at final destination for the associated shipment. AV transactions submitted for these locations will be considered in measuring RDD compliance.

Once AV has been submitted, the Contractor may not request a delay for that cargo. Staging direction may occur after AV has been submitted, which must be initiated by the Government.

#### **Additional Rules for HG/HR Transactions**

The HG and HR transactions will be auto-generated by the DRAP to indicate entry into and release from Government-directed staging. Authority for approval of a staging is the cognizant SDDC Ordering Officer (OO).

The HG/HR transaction pair, generated via the DRAP, will recommit the Contractor to a new delivery date defined as: RDD + (# days elapsed between HG and HR). For a shipment RDD to be extended, both an HG and HR transaction must be generated.

**HG:** Following receipt of a written Government request to stage cargo, the Contractor will submit a request in DRAP to begin Staging with supporting documentation for OO approval. The Contractor will not execute movement of the shipment to a constructive staging location prior to receiving OO written or DRAP approval. When the OO has approved the staging request in writing the Contractor will submit the DRAP request within 2 calendar days of entry into the staging area with supporting documentation. The OO will review the request for accuracy and either approve, approve with a modified date, or reject it. If approved the HG transaction will be auto-generated and distributed with the date approved in the request.

**HR:** Following receipt of a written Government staging release order to move cargo from staging location, the Contractor will execute movement of the shipment from the staging location. Within 2 calendar days of cargo departure from the staging location, the Contractor will submit a request in DRAP to end Staging. If an onward movement EDI is submitted by the Contractor for staged shipments prior to requesting staging release in the DRAP, the shipments will queue for auto-closing in the DRAP. The cognizant SDDC OO will review the request and either approve, approve with a modified date, or reject it. The HR event date will be the cognizant SDDC OO's staging release date identified in the staging release order or the date of departure inputted into the DRAP indicating actual departure from the staging location whichever is the earliest date. The RDD will be extended accordingly.

#### **Additional Rules for SD/BD/A1/A2 Transactions**

The SD, BD, A1 and A2 transactions will be auto-generated by the DRAP based on Government approval to indicate start or end of an authorized delay. These transactions will be auto-generated only upon authorization from the cognizant SDDC COR.

**SD and A1:** The Contractor shall submit a request for an authorized delay to the cognizant SDDC COR via the DRAP within 10 business days of the event causing the delay. The SDDC COR has 10 business days to respond to the request from the Contractor via the DRAP.

Following Government authorization of a Contractor's request for delay via the DRAP, the SD or A1 transaction will be auto-generated and distributed. If an authorization is not processed by the cognizant SDDC COR in the

DRAP within 10 business days, the SD or A1 transaction will be auto-generated and distributed. The Contractor must submit supporting documentation with the delay request submitted via the DRAP. The COR may deny the delay authorization if supporting documentation with adequate justification is not provided.

**BD and A2:** The Contractor shall submit a request to end the authorized delay via the DRAP with supporting documentation. Following Government authorization of a Contractor's delay end via the DRAP, the BD or A2 transaction, as applicable, will be auto-generated and distributed. If the SDDC COR determines that the Contractor's reporting of the delay duration is inflated, the delay authorization may be voided.

For authorized SD/BD transaction pairs generated via the DRAP, the RDD will not recommit the Contractor to a new delivery date. The Contractor must submit required documentation via PAT Carrier Performance Portal (CPP) to request exclusion from scorecard or on time delivery.

For authorized A1/A2 transaction pairs generated via the DRAP, the RDD will not recommit the Contractor to a new delivery date. CPP will automatically exclude from scorecard or grant on time delivery based on the authorized government delay.

For all delays, if an onward movement EDI is submitted by the Contractor, prior to the Contractor requesting an end to the delay in DRAP, the delayed shipments will queue for auto-closing. If an end delay request is not received via DRAP by the cognizant SDDC COR within 96 hours of the queuing of the shipment record for auto-closing, a BD/A2 transaction ending the delay will be auto-triggered by the DRAP. The BD/A2 event date will equal the event date of the SD/A1 transaction.

Government and non-Government delays will be approved, approved with date modification, or denied by the Government COR based on their review of the DRAP request. The Government COR will not approve a request for a Government caused delay request as a non-Government caused delay. If the Contractor decides to submit a previously denied Government caused delay request as a non-Government caused delay, a new request must be submitted.

#### **Additional Rules for X6 Transactions**

The Contractor shall submit a X6 transaction when daily ITV is ordered. The X6 transaction shall also be applied when the below scenarios take place.

The Contractor shall submit an X6 transaction when cargo, as required by the Port Authority of Lome, enters and exits the inland container depot Plateforme Industriel D'Adetikope (PIA).

**Operational Reports**

**1. Cargo Lift Report and Pre-Arrival Notice – Containers and Breakbulk**

1.1. Reports due: One business day after vessel departure for Liner-In operations and one business day after the cognizant SDDC Battalion (BN) provides the contractor with a load list for Free-In operations. If the Contractor loads both Free-In and Liner-In cargo at a single port, the Lift on Board (LOB) for that port is due either one business day after vessel departure or one business day after the cognizant SDDC Battalion provides the Contractor with a load list, whichever is later.

1.2. Medium: Excel attachment uploaded into Pipeline Asset Tool (PAT) LOB Portal per Port of Embarkation (POE)

1.3. Distribution: Authorized users of PAT

1.4. Required elements:

— Mandatory header fields (Populates these fields for all shipment records)

1. SCAC
2. VOYDOC (Select from dropdown)
3. Sail Date
4. POE (Select from dropdown – based on vessel schedule and VOYDOC selected)
5. Vessel Name (select from dropdown – based on vessel schedule and VOYDOC selected)

— Excel Columns heading (One row per shipment)

1. Van Type – 35 characters
2. TCN – 17 characters
3. Container # – 11 characters with dash
4. Consignor DODAAC – 6 characters
5. Commercial VOYDOC – 10 characters
6. Point of Debarkation (POD) – 3 characters
7. Commercial Booking Number – 25 characters
8. PCFN – 6 characters
9. Vessel Status – 2 characters (e.g., F2, W2, E2, etc.)
10. Consignee DODAAC – 6 characters
11. Cargo Description
12. Cube – Numeric
13. Length – Numeric
14. Width – Numeric
15. Height – Numeric
16. Weight – Numeric
17. Measurement Tons – Numeric
18. Is Booked (Y/N) – Based on if the Contractor thinks the item has been booked
19. Has SI (Y/N) – Based on whether Contractor has VSI
20. Ocean Bill of Lading (OBL) – Required for all DOD shipments (container/breakbulk) with CONUS POD
21. Comment One – free form text field for any Contractor comment on the item (250 characters max)
22. Comment Two – free form text field for any Contractor comment on the item (250 characters max)
23. Estimated Date of Vessel Arrival at POD
24. Estimated Time of Vessel Arrival at POD
25. Name of vessel arriving at POD
26. Commercial Voyage Number of vessel arriving at POD
27. Seal Number

— Certified Cargo Survey Report shall be submitted in the LOB and shall include the revised cargo dimensions which will update the SDDC cargo manifest and update Treasury Invoice Processing Portal (IPP). BRTs will still be required to update other rates associated with dimensional changes (ex. BAF).

- 1.5. Pre-Arrival Notice documents will be derived from data uploaded in the LOB. SDDC/Receiving Activity terminal personnel will access the LOB portal to retrieve Pre-Arrival Notice information. Contractors must ensure POD arrival information is updated to the LOB portal as changes occur prior to vessel arrival. As required locally or upon request of SDDC/Receiving Activity/Terminal, Contractor will provide information to support Customs Clearance via email or LOB Portal.
- 1.6. In the event of a system outage, and upon request or with prior approval from the cognizant Ocean Cargo Clearance Authority (OCCA) Contracting Officer Representative (COR), a carrier may submit a manual LOB via e-mail. Distribution will be advised by the cognizant OCCA COR. Carriers must still upload LOBs into PAT once system access has been restored.

## **2. Containerization Report**

- 2.1. Reports due: Next business day after Contractor provides container cargo handling service or Less than Container Load (LCL) service
- 2.2. Medium: Excel attachment to email
- 2.3. Distribution: Cognizant SDDC office as advised by COR
- 2.4. Required elements:
  1. Booked container TCN
  2. POE
  3. Cargo TCN, pieces, weight, cube
  4. Container number and prefix
  5. Seal number
  6. Date stuffed
  7. POD
  8. Consignee if for inland delivery by the Contractor
  9. Booking reference
  10. Booked/scheduled vessel
  11. Location stuffed

## **3. Direct Booking Report**

- 3.1. Reports due: Within 24 hours of booking or booking cancellation/decrease/increase via the LOB Portal
- 3.2. Medium: Excel attachment uploaded into PAT
- 3.3. Distribution: Authorized users of PAT
- 3.4. Required elements:
  1. Contractor name
  2. Vessel name
  3. TCN
  4. DTR Commodity code
  5. SCAC code
  6. Booked VOYDOC#
  7. Estimated sail date
  8. POE
  9. POD

10. Shipper DODAAC
11. Shipper POC
12. Consignee DODAAC
13. Equipment size and type
14. Estimated arrival date at POD
15. Date booked
16. Flag
17. RDD (Required Delivery Date)
18. Report type (new booking or cancellation/decrease/rolled)

#### **4. Container Fleet Report**

4.1. Reports due: Monthly (on the first business day of the month)

4.2. Medium: Excel attachment uploaded into PAT

4.3. Distribution: Authorized users of ETA TEAMS/PAT

4.4. Required elements:

1. SCAC
2. Container Number (Full ISO Container Number – 11 Characters)
3. Equipment Type Code (ISO Size/Type Code, for example 22G1 – 4 Characters)
4. Date acquired (MMDDYYYY format)

4.5. Other data elements may be provided for reference and ease of transmitting

#### **5. Notice of Arrival (NOA) or Ocean Bill of Lading (OBL) Report**

5.1. The NOA/OBL is required for cargo imported through commercial terminals in countries where it is required for customs clearance.

5.2. Reports due: 2 business days before arrival at the POD

Note: When requested, the Contractor shall provide the OBL within 3 business days of POE departure to facilitate cargo clearance as required by the destination country. (e.g., Niger)

5.3. Medium: Faxed or PDF via email

5.4. Distribution: The cognizant SDDC BN

Note: For cargo booked to PODs in Africa also send to email address listed for the specific country cargo is destined for in the DTR 4500.9-R Part V, Chapter 515 for customs exonerations

5.5. Required Elements:

1. Vessel
2. Voyage Number
3. Consignee
4. Consignor
5. POE
6. POD
7. Place of delivery
8. Date of vessel arrival at POD
9. Description of cargo (to include commodity, weight, and measurements)
10. Container Number
11. Seal Number

12. TCNs
13. Temperature (as applicable)

5.6. Also Required for POV shipments:

1. Owner's Full Name
2. VIN
3. Vehicle Type
4. Year
5. Make
6. Model
7. Color
8. Left- or Right-Hand Drive

**Rate Rules**

**1. APPLICATION OF FREIGHT RATES – CONTAINERS**

All rates included herein are based on Liner Terms and include all costs for normal services from gate to gate. Except as otherwise provided, all basic ocean freight rates are stated in U.S. dollars and cents per manifested type/size container and apply between Contractor's terminal at the loading port and the Contractor's terminal at the discharge port. Basic ocean freight rates shall be applicable to all categories of cargo except as specified below.

**1.1 Equipment Charges**

1.1.1 Cargo shipped in flatrack containers shall be freighted at the General Cargo container rate. In addition, the Contractor's lump sum flatrack surcharge shall be added to the total for this cargo. The flatrack surcharge applies by route, size of container, and direction of movement. Direction is outbound, inbound or interport as described in the Integrated Booking System (IBS) application. For outbound identified routes, the first geographic area is the origin. For inbound identified routes, the first geographic area is the destination. Rates for Interport identified routes are the same in all directions. For cargo moving under single factor rates, the flatrack surcharge applicable to the specific route, size and direction is applicable and is in addition to the single factor rate. For shipments that include a port arbitrary, the route used to pay ocean freight shall be used to determine the flatrack surcharge. This provision is not applicable to excepted commodities.

**1.1.2 Movement of Empty, Government-Owned or Leased Containers**

The ocean rate for empty, Government furnished containers accepted on a space available basis shall be fifty percent (50%) of the general cargo container rate that would apply for the size container. The general cargo container rate shall apply for shipments of two or more collapsed flatrack containers shipped together.

1.1.2.1 The Contractor's charges for drayage or inland linehaul of empty Government containers shall be the same as the Contractor rates contained in the Rate Guide.

1.1.2.2 Accessorial services provided by the Contractor, in connection with service provided to Government containers, shall be at the rates contained in the Rate Guide.

**1.1.3 Hazardous Cargo On-Deck Surcharge**

The lump sum surcharge shall only apply, per container, to hazardous cargo requiring on-deck stowage per the IMDG. The surcharge shall be in addition to the general cargo container rate. This charge does not apply to excepted commodities.

**1.1.4 Small Arms Ammunition**

Small Arms Ammunition (International Marine Organization (IMO) Class 1.4S) is moved at the same rate as general cargo plus a surcharge of \$1,200 per container or, for breakbulk shipments, \$60 per measurement ton (MTON).

**1.1.5 Twenty Foot Container Ocean Differential**

1.1.5.1 For routes where 20-foot container ocean rates are not on contract, 20-foot container ocean rates shall be calculated at 75% of the applicable 40 foot and over dry or reefer rates. The 20-foot ocean differential may only be used if all carriers with rates on contract reject a booking. This formula is not applicable to single factor rates or linehaul rates.

**1.1.6 Forty-Five Foot and Greater Ocean Container Surcharge**

A surcharge of 13% of the ocean rate for a 40-foot container shall be applied for use of any 45-foot (or greater) container.

#### 1.1.7 High-Cube Containers

A container (dry or reefer) in excess of 8'6" in height shall be paid at the same rate as an 8'6" container.

#### 1.1.8 Open Top Containers

The Contractor shall be paid a surcharge of \$360.00 for the use of Contractor provided, open top containers.

#### 1.1.9 Bulk liquid commodities containerized in Government owned or leased 20-foot Tank Containers

1.1.9.1 The Government shall pay for bulk liquid containerized service at the rates for each overland linehaul segment; the ocean segment shall be paid at the Contractor's 20-foot general cargo dry container rate, plus a surcharge of \$600.00 for each loaded tank container or empty tank container that is not cleaned, sealed, and certified. Clean and empty tank containers shall be paid at the Contractor's 20-foot general cargo dry container rate, without the surcharge for the ocean segment. (This includes transportation of Helium Tanks).

1.1.9.2 Contractor provided tank container service is described in Exhibit 2, PWS, paragraph 6.H.

1.1.10 Ocean and single factor rates shall be in whole dollars. Any calculated rate shall be rounded to the nearest cent.

### 1.2 Application of Drayage and Linehaul Rates

1.2.1 All drayage or inland services rates are stated in whole dollars per manifested container size/type and are applicable for drayage or inland services furnished by the Contractor in conjunction with basic ocean services. All drayage and inland rates apply in either direction. Drayage and inland rates apply for tank, open top, and flatrack containers unless specifically provided herein. Mileage rates shall be calculated to dollars and cents.

1.2.2 Linehaul and drayage rates apply to points specifically named and to other points, places, ports, and cities as described in Exhibit 2, PWS, Attachment 4. Linehaul and drayage rates within the United States also apply to points that are within the Commercial Zone of the named point as described by 49 CFR Ch. III Part 372, and to points (even if not named in Exhibit 2, PWS, Attachment 4) that are within 10 miles of the city limits of any location named in the rightmost column (labeled Locality) of Exhibit 2, PWS, Attachment 4. Linehaul and drayage rates outside the United States also apply to points that (even if not named in Exhibit 2, PWS, Attachment 4) are within 10 miles of the city limits of any location named in the column labeled Locality of Exhibit 2, PWS, Attachment 4.

1.2.3 The order of precedence for application of inland movement rate is drayage, linehaul and then mileage. In the absence of drayage rates, line haul rates would apply. In the absence of drayage and linehaul rates, mileage rates would then apply.

1.2.4 As an exception to the application of the linehaul rates, service to points identified as "Via Inland Customs" include delivery to a specified customs clearance facility, and after customs clearance is completed, delivery to destination.

#### 1.2.5 Mileage Rates

1.2.5.1 In the absence of specific container drayage or linehaul rates between points, inland charges are computed using mileage band rates, multiplied by the one-way mileage per mileage bands greater than 50 miles. Mileage rates apply by commodity/container size. Rates for mileage bands up to 50 miles are per container for container shipments and per conveyance for breakbulk shipments. Mileage calculation between bands will be calculated using the rate from the next higher band (i.e., 75.3 miles will use the rate from mileage band 76-100). Using the rate from

the next higher mileage band only applies when the actual mileage falls between bands, and the actual mileage will still be used in the calculation (i.e., 75.3 miles will use the rate for band 76-100, but the cost will be calculated as 75.3 x rate).

1.2.5.2 Mileage rates apply between points and ports in the country named in the rate table, except:

1.2.5.2.1 The U.S. mileage rate table shall also apply from/to points in Canada and include ports in the U.S. and Canada. U.S. mileage rates apply to CONUS and Canada, not Alaska.

1.2.5.2.2 European mileage rates apply between ports and points in Germany, Belgium, Luxembourg, Italy, and the Netherlands. These rates apply between points in Italy and ports in Germany, Belgium, and Netherlands and points in Germany, Belgium, and Netherlands and ports in Italy, even though the routing is through other countries.

#### 1.2.6 Refrigerated Linehaul Differential

In the absence of refrigerated drayage, linehaul or mileage rates, the rate for drayage or inland service in connection with the transportation of refrigerated cargo is applied at an additional 30% of the dry cargo drayage, inland, or mileage rate. The refrigerated differential may only be used if all carriers with refrigerated drayage, linehaul or mileage rates on contract reject a booking.

#### 1.2.7 20 Foot Linehaul Differential

Rates for drayage or inland service for 20-foot containers may be applied at 85% of the 40-foot drayage, linehaul, or mileage rate only for locations where 20-foot drayage, linehaul or mileage rates are not on contract. The 20-foot linehaul differential may only be used if all carriers with rates on contract reject a booking.

#### 1.2.8 Application of Breakbulk and Out-Of-Gauge (OOG) Container Linehaul to and from Iraq.

1.2.8.1 The Contractor shall be paid for service provided for multiple pieces where more than one breakbulk piece can be loaded to a conveyance.

1.2.8.2 The breakbulk linehaul rates and terms shall apply for breakbulk cargo if a Contractor offers both container and breakbulk linehaul rates.

#### 1.2.9 Inland Service by Ferry or by Barge-Ship Systems.

1.2.9.1 Inland rates shall apply to inland service provided by commercial ferry or by commercial barge ship systems in the following instances:

1.2.9.1.1 Between ports in the United Kingdom and ports in Ireland.

1.2.9.1.2 Between ports on the mainland of Italy and ports of Sicily and Sardinia.

1.2.9.1.3 Between ports in mainland Greece and ports in Crete.

1.2.9.1.4 Between ports in Japan and Misawa, Iwakuni, Sasebo Japan.

1.2.9.1.5 Within the State of Hawaii, when the inland location is not on the same island as the port.

#### 1.2.10 Grouping of certain Ports, Cities, and Places

1.2.10.1 To avoid proliferation of rates, certain ports and inland points have been grouped together as described in Exhibit 2, PWS, Attachment 4.

1.2.10.2 The ports listed below have been grouped. For routings via below listed ports, 1.2 Contractors should only offer routings that use the port group for drayage, linehaul, and single factor rates.

<b><u>Port Group (CONUS)</u></b>	<b><u>Ports</u></b>
Galveston Bay	Galveston, Houston, Texas City, Baytown, Jacinto, Seabrook, Pasadena, Bayport, Fairway (Anchorage), Bolivar Roads (Anchorage)
Los Angeles	Los Angeles, Long Beach, San Pedro, Wilmington, Terminal Island
Miami	Miami, Port Everglades, Fort Lauderdale
New York	New York, Bayonne, Newark, Elizabeth, Howlan Hook-Kearney
Norfolk	Norfolk, Newport News, Portsmouth, Virginia Beach, Chesapeake
Philadelphia	Philadelphia, Pennsauken
Puget Sound	Bremerton, Seattle, Tacoma
San Francisco Bay Area	San Francisco, Oakland, Richmond, Mare Island, Alameda
<b><u>Port Group (OCONUS)</u></b>	
Accra	Accra, Tema
Calcutta/Kolkata	Calcutta/Kolkata Haldia
Dammam	Dharan, Dammam
Keflavik	Keflavik, Njardvikur, Helguvik
Khalifa Bin Salman	Khalifa Bin Salman, Manama
Karachi	Karachi, Port Qasim
Maputo	Maputo, Lourenco Marques
Muscat	Muscat, Sultan Qaboos
Naha	Naha, Aja
Naples	Naples, Salerno
Thamesport	Thamesport, Isle of Grain
Jebel Ali	Dubai, Jebel Ali
Messaieed	Umm Said, Hamad, Messaieed
Yanbu	Yanbu Commercial, Yanbu Industrial

1.2.11 For linehaul rate calculation purposes, three Tricons or four Quadcons linked in a 20-foot container configuration shall be considered equivalent to one Twenty Foot Equivalent Unit (TEU). If booked as breakbulk, the applicable accessorial rates will be applied.

### **1.3 Over dimensional Cargo**

1.3.1 Selection of the equipment used for ocean transportation shall not result in over length dimensions when the cargo is loaded on the container unless the Contractor and the Government mutually agree to this at the time of cargo booking. For example, cargo 24 feet in length shall be loaded on a 40-foot flatrack, not a 20-foot flatrack.

1.3.2 Charges for over dimensional cargo stowed on a vessel in containers shall equal the additional ocean rate for equivalent displaced standard dry container(s) by size in accordance with the following formula (which includes use of a flatrack container):

NOTE: The blocks in the above examples depict the displaced cells based on shipments being overheight, overwidth, or overheight and overwidth. The black block is the loaded flatrack and the gray blocks are the displaced cells.

1.3.2.1 In-gauge cargo is defined as less than or equal to 456 inches long, 96 inches wide, and 77 inches high for a 40-foot flatrack. OOG flatrack cargo is defined as greater than 456 inches long, greater than 96 inches but less than or equal to 132 inches wide, and greater than 77 inches but less than or equal to 115 inches high for a 40-foot flatrack.

1.3.2.2 For a 20-foot flatrack, in-gauge cargo is defined as less than or equal to 216 inches long, 96 inches wide, and 87 inches in height. OOG flatrack cargo is defined as greater than 216 inches long, greater than 96 inches but less than or equal to 132 inches wide, and greater than 87 inches but less than or equal to 125 inches high for a 20-foot flatrack.

1.3.2.3 Cargo exceeding 90 inches in height shall be considered overheight for open tops.

1.3.2.4 A 35% discount off the basic ocean freight rate shall be applied for displaced slots in any configuration.

1.3.3 If other than flatracks are used to ship over dimensional cargo, the flatrack surcharge shall not be applied to the formula. If open top containers are used, the open top surcharge shall apply.

1.3.4 Flatrack surcharges shall not apply to Government owned flatracks in the rate computation for over dimensional cargo.

1.3.5 Displaced slots for which charges are assessed shall be counted toward the minimum cargo guarantee.

1.3.6 Cargo that cannot be loaded on or in an intermodal container (closed, open top, flatrack) prior to stevedoring is not covered by this formula.

1.3.7 The over dimensional formula is limited to port-to-port terms only. Basic ocean freight (BOF) is the General Cargo ocean container rate in the Rate Guide.

1.3.8 This formula can be applied to cargo exceeding either the weight and/or the dimensions defining over dimensional cargo when the Government and the Contractor mutually agree in writing to do so prior to the cargo booking.

## 1.4 Single Factor Rates

1.4.1 These rates include all considerations except for Currency Adjustment Factor (CAF), Bunker Adjustment Factor (BAF), and any accessorial ordered in the booking. Single factor rates can apply to point-to-point, point-to-port, or port-to-point movements. In-gauge cargoes on flatracks can move at the single factor rate subject to the flatrack surcharge for the route.

1.4.2 Single factor rates apply from specified origin to specified destination via the ports specified in the single factor rate. Contractors shall designate the port of loading and port of discharge for each single factor rate. Bookings shall be made using the combination of ports designated by Contractors.

1.4.3 Contractors may change the ports to be used for a single factor rate or add new port combinations to an existing single factor requirement by notifying the Contracting Officer. Any change in price shall require approval by the Contracting Officer.

1.4.4 Single factor rates may not exceed the cost of the same booking using multifactor rates.

1.4.5 Unless specified elsewhere in the contract, Single-Factor Rates apply only to container rates, and may be either from port or from door, and to either to port or to door. Rates to or from Door are based on city groups, not on drayage zones. For those city groups with multiple drayage zones, door rates shall apply to all locations within the city group.

1.4.6 Single factor rates for the shipment of tobacco products from CONUS to Italy are inclusive of armed security escorts and additional insurance required to move this commodity from POD to destination IAW Italian law, as well as any host-nation directed stops for customs clearance. When stop offs are ordered in the booking, the Stop-Off Accessorial will be paid in addition to the tobacco single factor rate (e.g., Norfolk to Aviano with a stop-off in Vicenza). Any fines assessed by the Italian Government for instances of missing tobacco will be for the account of the carrier.

## **1.5 Cargo Handling**

When this service is ordered by the Government, Contractors shall be paid for each manifest MTON for providing cargo handling services at Contractor-designated facilities. The rates apply for the commodities and locations specified in the rate without regard to container size. Cargo handling rates are for the place named in the Rate Guide and apply for both import and export services.

## **2. APPLICATION OF BREAKBULK AND ROLL-ON ROLL-OFF (RORO) RATES**

### **2.1 Breakbulk Freight Rates**

All rates included herein are based on Free-In, Free-Out (FIO) terms and include all costs for normal service from port to port. Basic ocean freight rates shall be applicable to the commodity categories as specified below:

General Cargo	Government Owned/Leased Dry Containers
Light Vehicles	Helicopters
Heavy Vehicles	

2.1.1 Rates shall be priced per MTON for General Cargo, Heavy Vehicles, Light Vehicles, and Helicopters except in cases where Long Tons (2,240 lbs) will generate the highest revenue. In these cases, the MTON rate shall be applied per Long Ton. Government owned/leased dry containers should be rated by container size. If a Government owned container rate is not available, the Ordering Officer may use the General Cargo Rate for Government Owned/Leased Dry Containers.

2.1.2 When liner service is required for breakbulk shipments at the POE, POD, or both, the applicable liner term rate in the Rate Guide shall be ordered in the booking for the ports where liner service is required.

2.1.3 Extra length charge: For each piece of cargo in excess of 45 feet, the extra length charge shall apply. The surcharge shall only apply once per piece of cargo and shall be priced on a per measurement ton basis. When applicable, the rate specified in the IBS application will be multiplied by the total MTONs of the piece to obtain the total cost for this accessorial. The extra length charge is only applicable on the General and Heavy Vehicle cargo commodity and only applies to the ocean portion of the move.

Sample calculation: Cargo is 60' in length and 55 MTONs; \$25 per MTON (extra length charge) x 55 MTONs = \$1,375 total extra length charge

2.1.4 Hazardous Cargo Surcharge: This surcharge applies to hazardous cargo requiring on-deck stowage by Coast Guard regulations and is expressed as a rate per MTON to be added to the commodity rate for the ocean transportation.

## **2.2 Linehaul Rates for Breakbulk and RORO cargo**

2.2.1 For breakbulk shipments requiring inland movement, linehaul rates apply to points specifically named and to other points, places, ports, and cities as described in Exhibit 2, PWS, Attachment 4, and to any point located within 10 miles of the city limits of any location in Exhibit 2, PWS, Attachment 4.

2.2.2 In the absence of specific linehaul rates between points within CONUS, inland charges are computed using mileage band rates, multiplied by the one-way mileage. For mileage up to 50 miles, the rates are per conveyance.

2.2.3 Mileage rates apply between ports and points in the named country only. Exceptions: the U.S. mileage rate table shall also apply from/to points in Canada as well as to/from ports in both countries. The Northern European Mileage rates apply between ports and points in Germany, Belgium, Luxembourg, Italy, and the Netherlands.

## **3. APPLICATION OF RATES – CONTAINER AND BREAKBULK**

### **3.1 Port Arbitraries**

3.1.1 A surcharge is applicable for selected ports designated in Exhibit 2, PWS Attachment 12. The port arbitrary rate in the Rate Guide is applicable to a specific intermediate ports trade route. Port arbitrary is added to the ocean rate for the trade route used to deliver cargo to the intermediate port for transshipment to the arbitrary port. The port arbitrary surcharge includes costs to load or discharge feeder vessels at intermediate ports. Port arbitraries apply to all directions of movement.

3.1.2 Port arbitraries do not apply to single factor rates.

3.1.3 Exhibit 2, PWS, Attachment 12 identifies the ports for which port arbitraries may be established for this contract. The surcharge shall be listed in the Rate Guide.

3.1.4 Each port arbitrary, as specified in the Rate Guide, names a port or zone over which the port arbitrary applies. The applicable ocean rate is the rate to/from this port or zone.

3.1.5 Port Arbitraries do not apply to:

3.1.5.1 Scandinavia, Baltic - Continental Europe, United Kingdom, Ireland

3.1.5.2 Kuwait - Iraq,

3.1.5.3 Other routes where the ports subject to port arbitraries are named in the ocean route (Exhibit 2, PWS, Attachment 12)

3.1.6 Direct ocean rates may not exceed the cost of the same booking using a rate derived from an ocean rate and port arbitrary rates.

### **3.2 Mileage Source**

3.2.1 The Defense Table of Official Distances (DTOD) is the source of worldwide overland distances calculations and shall be used when calculating the number of miles for overland moves (e.g., point to port and/or port to point) with rates based on the number of miles or mileage band. Contractor shall invoice and be paid in accordance with the current available version of DTOD within IBS at the time of the booking.

Example of DTOD use:

1. Mileage calculation to obtain relevant mileage band for mileage rates
2. Mileage calculation for the 10-mile rule for Drayage and Linehaul rates as described in paragraph 1.2.2 of this attachment.

## **4. RATE REFRESH**

All USC rates will be refreshed (re-priced) annually in conjunction with Exercising the Option. Rates will be applied based on the vessel sail date at the time of initial offer. If cargo rolls from one contract performance period to the next, the rates will remain for the contract performance period under which the cargo was initially offered.

## **5. RATE RELEASE**

By participating in the USC multiple award program (USC-10), all carriers agree that the rates offered at award and during Option Period rate refreshes are not confidential or proprietary and will not pose harm or violate trade secrets if publicly released. USTRANSCOM/TCAQ will distribute a Rate Guide, inclusive of all carrier accepted rates, following contract award and each Option Period rate refresh thereafter.

### **Invoicing and Payment**

#### **A. General Information**

A.1 Invoices shall be submitted only after services included on the invoice have been satisfactorily performed per FAR 32.905. Descriptions of services rendered must match the terms used in the USC-10 contract. When carrier terminology differs from USC-10, the latter shall be used. Invoices shall be submitted within two years of accrual.

A.2 Charges for services performed for containers booked under the Direct-Booking process are to be billed directly to the Shipper and are not covered under this attachment, except for services not ordered within IBS which will continue to be submitted to SDDC for validation using the procedures in Section C of this attachment and forwarded by SDDC to the direct shipper for payment upon validation. These invoices will be prominently marked as "Direct Booked". Direct Bookers require carriers to be Third Party Pay System (TPPS) capable. TPPS is an electronic freight transaction tracking and payment system. Current TPPS contact information will be provided to carriers following the award of the contract. Booking data will be made available within Syncada for carrier billing once the Lift on Board notification has been provided for the associated cargo.

A.3 Non-IBS charges that are determined to be Government caused, for Prime Vendor cargo, will be submitted to SDDC for validation using the procedures in Section C of this attachment. Upon validation, these invoices will be forwarded to G8 for payment. These invoices will be prominently marked as "Prime Vendor" and tagged as Prime Vendor when submitting the invoice via the Pipeline Asset Tool (PAT) Invoice Processing Portal (IPP). Non-IBS charges that are determined to be NOT Government caused, for Prime Vendor cargo, will be submitted to the Prime Vendor for payment. In the event that an Invoice is rejected by the Prime Vendor, the Contractor may submit a claim according to Section E of this attachment.

A.4 Failure to provide required information and appropriate documentation for a specific container/piece of cargo shall result in a rejection of an invoice and may delay the payment process. Discrepancies in Contractor provided shipment information on submitted invoices will lead to certification delays as additional supporting documentation may be required from the Contractor.

A.5 There are five distinct invoicing categories for this contract as follows:

- a. Invoices for Services Ordered within the SDDC Integrated Booking System (IBS) (Section B)
- b. Invoices for Services Not Ordered within IBS, to include Pass-through charges (Section C)
- c. Invoices for exception charges which require preapproval (Section D)
- d. Invoices associated with Requests for Equitable Adjustments (REA) (Section E)

A.6 The Government has the right to request additional information in support of the charges in the invoice. In addition, all charges for services not ordered in the IBS booking (and for the Enhanced ITV accessorial in the IBS Booking) require COR validation prior to G8 certification via the PAT IPP tool. REA invoices must be approved by the Contracting Officer.

A.7 The provisions of prompt payment will apply to this contract and any invoice not paid within 30 calendar days will incur interest penalty.

A.8 Contractors are authorized to bill all charges on vessel departure.

A.9 Contractors will submit all invoices for IBS Booked Services electronically via the Treasury Invoice Processing Portal (TIPP).

A.10 Transportation Financial Management System (TFMS) will pass booking data received from IBS to Treasury IPP for use in the invoice creation process. Invoices should be input into Treasury IPP based on receipt of an EDI Vessel Departure Notice (VD). Once invoice data is successfully input to Treasury IPP, it will pass from Treasury IPP to TFMS for entitlement processing. TFMS will match obligation data from the booking, manifest data provided by GATES and invoice data provided from Treasury IPP and create a payable record. TFMS will also return invoice status data to Treasury IPP to include invoice payment notification.

B. Invoices for Services Ordered within IBS

B.1 The following procedures are applicable to invoicing and payment for IBS Booked Services ordered or modified thereafter within IBS.

B.2 All invoices for IBS Booked Service charges shall be submitted electronically via Treasury IPP. Once invoices are successfully uploaded to the portal, they will be interfaced into the TFMS for entitlement processing. The word FINAL shall be included in the invoice description area within Treasury IPP associated with all final invoice submissions for a booking.

B.3 Purchase orders (bookings) will be loaded into Treasury IPP with summarized quantities loaded for each charge type other than commercial over ocean transport charges included in the booking.

B.3.1 When Economic Price Adjustment (EPA) factors flow into TFMS, the system will have Bunker Adjustment Factor (BAF), Fuel Adjustment Factor (FAF), and Currency Adjustment Factor (CAF) netted together and written as a single EPA charge. The data will then be pushed to Treasury IPP for vendor invoicing.

B.3.2 In those instances, wherein the netting of all EPA charges included in a booking result in a net credit amount, SDDC G8 will create a refund receivable for the applicable vendor and will generate an associate demand letter which will be sent to the carrier's finance staff for disposition.

B.4 A Treasury IPP invoice will contain the following information:

Header:

- Contractor Name and Address(\*)
- Invoice Date and Invoice Number
- Invoice Total Amount(\*)
- Contract Number(\*)
- TFMS PO Number (\*) (Combination of contract number + Port Call File Number (PCFN) + PCFN fiscal year + sequence number) – no more than one (1) per invoice.
- Sail Date
- Miscellaneous Cost (used to convey any net negative value associated with BAF/CAF/FAF credit lines)

Line Item Detail:

- Line Item Description(\*)
- Quantity
- Unit of Measure(\*)
- Unit Price(\*)

- Extended price of services performed(\*)
- TFMS PO Line Number(\*)
- TFMS PO Schedule Number(\*)
- Transportation Control Number (TCN) (\*)
- Care Rate ID(\*)
  - ❖ Note 1: Items marked with (\*) are provided within Treasury IPP and do not require carrier input
  - ❖ Note 2: Enter the word FINAL in the Description box for all final invoice submissions against a PCFN.

C. Invoicing Procedures for Services Not Ordered within IBS, to Include Pass-Through charges

C.1 Procedures applicable to invoicing and payment for priced charges or Contracting Officer pre-approved charges that cannot be booked within IBS are provided below. Invoice submission shall include only one (1) category per invoice (see categories in paragraph C.6 below). Additionally, invoice submissions shall include only one (1) AOR per invoice (e.g., USCENTCOM-only, USAFRICOM-only).

C.2 All invoices for non-booked charges shall be submitted electronically via upload to PAT IPP. Invoices containing such charges will be assigned to appropriate personnel within SDDC for validation/certification. Once these invoices are validated, they will be passed to the G8 accounts payable section for entitlement processing.

C.3 The Contractor shall pay valid pass-through charges incurred on behalf of the U.S. Government. Pass-through charges shall not include any cost or charge that is included in priced services or is paid directly by the U.S. Government or consignee. The Government shall pay the Contractor on a cost reimbursement basis for valid direct pass-through charges, incurred by the Contractor on behalf of the U.S. Government, not included in priced services or covered by the Compensable Delays clause at Exhibit 1 Additional Clauses, section 6. The pass-through charges shall be allowable, reasonable, and allocable, supported by an invoice, and subject to audit. The Government reserves the right to reject any pass-through charge that is not allowable, reasonable, and allocable, or is not supported by a proper invoice. Pass-through charges shall include only direct reimbursable pass-through costs and shall exclude overhead, general and administrative expenses, and profit.

C.4 In accordance with Exhibit 2, PWS, Attachment 3, all rates shall include all costs for normal services from gate to gate. Costs or charges included in priced service shall not be invoiced as a pass-through charge.

C.5 A proper invoice for Services Not Ordered within IBS, to include pass-through charges will follow the below guidelines:

C.5.1 All applicable EDI 315 transactions as outlined in Exhibit 2, PWS, paragraph 3.B.2.1 and Exhibit 2, PWS, Attachment 1 are required for submission of these invoices. Failure to submit required and accurate EDI 315 transactions will result in an invoice rejection until EDI 315 requirements are performed accordingly.

C.5.2 Contractor shall submit pass-through charges with supporting documentation. Supporting documentation must include: notification email to the applicable COR when the additional cost/service was incurred, copy of third-party invoice and basis for rate being charged (e.g., applicable port tariff) and proof of payment to third party. For re-working of containers due to rejection by port or rail authority, a copy of the inspection report identifying reasons for rejection must be provided.

C.5.3 A proper invoice contains the following information

- a. Contractor Name and Address
- b. Invoice Date and Invoice Number
- c. Contract Number
- d. Invoice Type (e.g., container detention, port storage, etc.)
- e. Tax Identification Number
- f. Invoice Measuring Month

- g. Port Call File Number (for IBS shipments only)
- h. Contractor Booking Number
- i. Container number (for container shipments only)
- j. Dollar Amount of Invoice
- k. Name and address of Contractor official to whom payment is to be sent (must match the contract or a proper notice of assignment)
- l. Any additional information as requested under the billing procedures
- m. Exchange rate on the date the Contractor paid the invoice with exchange rate source
- n. \*\*Certification Statement signed by authorized Contractor representative: "I hereby certify that the above bill is correct and just, and services were performed".

**Note 1:** Invoices for container detention shall be submitted per month Invoices. Invoices for port storage and reefer maintenance can be submitted on a monthly basis or all at once.

**Note 2:** Driver wait time invoices for origin and destination shall include supporting documentation with truck driver's appointment date and time if available, truck driver's Bill of Lading (BOL) with annotated date, time in and time out, shipper's printed name (must be legible), shipper's signature and date or for final destination invoices the Proof of Delivery shall be included in accordance with Exhibit 2, PWS paragraph 7.F.1.8. Carriers can also utilize electronic communication with the shipper/consignee that provides the same information. The Contractor shall e-mail the cognizant Ocean Cargo Clearance Authority (OCCA) if a location will not provide the required documentation.

C.6 Invoices for the following non-IBS booked charges are included in this category:

- a. Container Detention
- b. Container Purchase++
- c. Extra CHED/Vet Inspections
- d. Driver Wait Time
- e. Exigent Driver Wait Time
- f. Futile Trip++
- g. Port Storage
- h. Reefer Maintenance
- i. Enhanced ITV\*
- j. Defense Base Act
- k. Singapore container lease
- l. Kuwait Landing Fees
- m. High Risk Waters Armed Security
- n. Dry run
- o. Blocking and Bracing
- p. Guam Customs Inspection Fee
- q. Other Inspections
- r. Cargo Recall++
- s. Electronic Cargo Tracking Notes (ECTN) (includes: BIETCs, and BESCcs)
- t. Spanish Customs Broker (Port bookings only)

\* Invoices for Enhanced ITV, although booked in IBS, must be submitted to PAT IPP for validation by the applicable COR.

++ Invoices that can fall under this attachment, paragraph D. Exceptions.

C.7 Invoice Types with Additional Requirements

C.7.1 Kuwait Landing Fees

Contractor will submit Kuwait Landing Fee invoices via PAT IPP as a "Pass-Through Charge". Kuwait Landing Fee invoices must be submitted per vessel and will not be consolidated per month.

C.7.1.1 Invoices for Kuwait Landing Fees shall include the following supporting documentation:

- a. Copy of the port invoice issued by the Kuwait Port Authority (KPA) indicating proof and date of incurred costs;
- b. Copy of applicable port tariff citing the applicable rate(s) for landing charges (aside from the invoice issued by the Kuwait Port);
- c. An excel spreadsheet for each vessel detailing Vessel Name, VOYDOC/VDN, POE, POD, Arrival Date, Lift Date, Weight and Metric Tonnage for all breakbulk cargo and the number of pieces for containerized cargo. This must include a breakdown of the different types of cargo e.g., general cargo, light vehicles, heavy vehicles, etc. to cross check the information stated in the invoice issued by the KPA.
- d. Proof of payment by Contractor to 3<sup>rd</sup> party

C.7.2 Defense Base Act (DBA)

Invoices submitted for Defense Base Act Insurance will be submitted via PAT IPP as a "Pass-through Charge" and accompanied by a copy of the current insurance policy and proof of payment to the insurance underwriter. Invoices with proper documentation should be submitted no later than 30 calendar days from the date charges occur or within 5 business days of payment to the 3<sup>rd</sup> party. However, the US Government will consider and process invoices submitted after 30 calendar days so long as they are properly supported, and the claimed services can be verified. For Contractors with subcontractors who purchase DBA insurance under this requirement, a copy of the subcontractor's payment to the insurance underwriter, copy of the subcontractor's invoice to the prime Contractor seeking reimbursement and payment documentation of the prime Contractor's reimbursement to the subcontractor shall be provided.

C.7.3 High Risk Waters Armed Security

Invoices for High Risk Waters Armed Security will be submitted via PAT IPP. In addition to the invoice requirements listed in paragraph C.5.3, documentation must also include the vessel name and voyage number(s).

D. Exceptions

Unexpected charges are those anomalies that are not foreseen. Carriers must notify applicable COR and provide supporting documentation to seek approval from the applicable Contracting Officer before an invoice containing one of these charges can be submitted.

The following are examples, but not limited to, the types of charges that fall into this category:

- a. Re-stenciling of containers
- b. Rework (unstuffing & restuffing of improperly-stuffed containers)
- c. Chassis Detention
- d. Vessel Demurrage
- e. Direct Booking Invoice Exceptions

E. Claims or Requests for Equitable Adjustment (REA)

In accordance with FAR 33.206(a), Contractor claims shall be submitted, in writing, to the contracting officer for a decision within two years after accrual of a claim. Invoices for equitable adjustments shall be submitted in PAT IPP with the literal value "REA" in the first three positions of the invoice number and approved by the Contracting Officer in TCAQ. Approved/certified REA invoices will then be submitted by TCAQ to the G8 accounts payable branch for entitlement processing.

F. Invoice Status Reporting

F.1 The Contractor shall utilize the SDDC Invoice Portal to obtain invoice status information including the following status categories:

- a.** Invoice Received
- b.** Invoice Returned
- c.** Invoice Processed for Payment
- d.** Invoice Paid

F.2 For returned invoices, the portal will include both a date and an explanation of why the invoice was returned and for paid invoices the portal will include the date paid, disbursement voucher number and information explaining any applicable short payment of any charges appearing on the invoice.

## **Economic Price Adjustment**

### **1. Bunker Adjustment Factor (BAF)**

#### **1.1. BAF Allowance**

1.1.1. BAF is an allowance for fluctuations in marine fuel prices that shall be paid to the Contractors or to the US Government in accordance with the following process.

1.1.2. BAF has 5 fundamental inputs. These inputs are applied at different times in the three-step process outlined below.

- a) The average price of Marine Gas Oil (MGO) at Los Angeles, Houston, Antwerp, Port Said, Fujairah, and Busan
- b) The average price of Very Low Sulfur Fuel Oil (VLSFO) at Los Angeles, Houston, Antwerp, Port Said, Fujairah, and Busan
- c) The route specific percentages for sailing distance within the Emission Control Area (ECA) Zone (MGO) and in open ocean (VLSFO)
- d) The technical factors for Twenty-Foot Equivalent Units (TEUs), Forty-Foot Equivalent Units FEUs, and Measurement Tons (MTONS) on a per lane basis
- e) The set tolerance of plus or minus 15%

1.1.3. BAF shall be calculated using the average fuel prices at Los Angeles, Houston, Antwerp, Port Said, Fujairah, and Busan and the fuel mix as indicated for each route in Table 1 below.

1.1.3.1 The fuel mixture factors for each route during the Base Period of this contract shall be based on columns Over Ocean Share (2024) and ECA Share (2024) of Table 1. The fuel mixture factors for each route during the option periods of this contract shall be based on columns Over Ocean Share (2025) and ECA Share (2025) of Table 1 due to the Mediterranean Sea becoming an ECA zone in May 2025.

1.1.4. The BAF report shall be computed by the Military Surface Deployment and Distribution Command (SDDC) on or after the first of each month ("calculation month") and be provided to Contractors on the SDDC website no later than the 15<sup>th</sup> of the same month. The report shall use data from the previous month ("data month") and shall be applicable to the month which is two months after the calculation month and three months after the data month. The applicable month is determined by the sail date from port of embarkation (POE) in the initial offer. For example, the BAF calculated in July based on June data shall apply to cargo that was initially offered to sail from POE in September. If the cargo is advanced and ends up sailing in an earlier month, or sails in a later month (due to factors such as roll, shutout, or schedule change), there will be no change to the BAF. Using the above example, if the cargo was initially offered to a vessel that was scheduled to sail from POE in September, the BAF applicable to September shall be payable, even if the sails in a different month.

1.1.5. The scheduled month the vessel departs the load port at the time of booking shall determine the month for calculation of BAF charges.

1.1.6. The source for bunker prices is Bunker Index (<https://www.bunkerindex.com/index.php>) which calculates bunker average monthly prices by port and fuel type. These prices are quoted in metric tons.

1.1.7. The bunker fuel adjustment applies to fuel purchased by the Contractor from normal commercial suppliers and does not apply when bunker fuel has been provided or subsidized by the U.S. Government or

foreign governments.

1.1.8. A baseline fuel price shall be priced annually prior to contract award and prior to the award of each option year if exercised. The baseline fuel price shall be based on the average fuel price for Los Angeles, Houston, Antwerp, Port Said, Fujairah, and Busan over a six-month time frame for each fuel type. The six-month period will be based on the six months prior to the month the Request for Proposal is issued. In the case of the Option Periods, the six-month period will be based on the six months prior to the month that the IBS application is available to the Carriers to input rates. The baseline is calculated based on each route identified in Table 1 of this attachment.

1.1.9. The BAF is zero unless the one-month average fuel price is at least 15% higher or 15% lower than the baseline average fuel price, in which case, the Government (above the upper limit) or the Contractor (below the lower limit) will pay the difference between the limit and the one-month average.

1.1.10. No bunker adjustment is payable on the routes not included in BAF Table 1 below.

## 1.2. BAF Calculation and Example

### 1.2.1. Calculation Steps

1. Calculate the baseline and tolerance for the route.
  - a.  $((6 \text{ Month Avg MGO} \times \text{Route Mix}) + (6 \text{ Month Avg VLSFO} \times \text{Route Mix})) = \text{Baseline}$
  - b. Upper limit = Baseline x 1.15; Lower Limit = Baseline x .85
2. Calculate the monthly value for the route.
  - a.  $((\text{Monthly Avg MGO} \times \text{Route Mix}) + (\text{Monthly Avg VLSFO} \times \text{Route Mix})) = \text{Monthly Value}$
3. Calculate the payment.
  - a. If the Monthly Value is outside of the tolerance limits, the difference between the Monthly Value and the limit of the tolerance range is multiplied by the technical factors to arrive at the payable amount per unit of freight. For containerized goods, these units are TEUs and FEUs. For breakbulk cargo, they are measurement tons.
  - b. If the Monthly Value does not exceed the tolerance limits, then there is no BAF payable to either party.

### 1.2.2. Government Pays Example Step 1:

Month	Price MGO - 6 port Avg	Price VLSFO - 6 port Avg
Dec 23	\$670	\$570
Jan 24	\$610	\$600
Feb 24	\$660	\$650
Average	\$647	\$607

Upper Limit +15% from Route Baseline	Government Pays Carrier	\$710.01
Baseline	No Payment	\$617.40
Lower Limit +15% from Route Baseline	Carrier Pays Government	\$524.79

Calculate the baseline for Route 1 – USWC to Far East:  
 $((\$647 \times .26) + (\$607 \times .74)) = \$617.40$

Calculate tolerance:  
 $\$617.40 \times 1.15 = \$710.01$  is the upper limit  
 $\$617.40 \times .85 = \$524.79$  is the lower limit

1.2.3. Government Pays Example Step 2:

Month	Price MGO - Price VLSFO -	
	6 port Avg	6 port Avg
Dec 23	\$800	\$750

Calculate the monthly value for Route 1 for cargo sailing in August:

$$((\$800 \times .26) + (\$750 \times .74)) = \$763.00$$

1.2.4. Government Pays Example Step 3:

Upper Limit +15% from Route Baseline	Government Pays Carrier	\$710.01
Baseline	No Payment	\$617.40
	No Payment	
Lower Limit +15% from Route Baseline	Carrier Pays Government	\$524.

The monthly value is **above** the tolerance:  $\$763.00 - \$710.01 = \$52.99$

The Government will pay the carrier. To find the amount, multiply the difference by the tech factor:

TEU:  $\$52.99 \times .128 = \$6.72$

FEU:  $\$52.99 \times .252 = \$13.36$

MTON:  $\$52.99 \times .013 = \$0.69$

1.2.5. Carrier Pays Example Step 1 is the same as 1.2.2 above.

1.2.6. Carrier Pays Example Step 2:

Month	Price MGO - Price VLSFO -	
	6 port Avg	6 port Avg
Dec 23	\$550	\$500

Calculate the monthly value for Route 1 for cargo sailing in August:

$$((\$550 \times .26) + (\$500 \times .74)) = \$513.00$$

1.2.7. Carrier Pays Example Step 3:

Upper Limit +15% from Route Baseline	Government Pays Carrier	\$710.01
Baseline	No Payment	\$617.40
	No Payment	
Lower Limit +15% from Route Baseline	Carrier Pays Government	\$524.

The monthly value is **below** the tolerance:  $\$524.00 - \$513.00 = \$11.00$ . The Carrier will pay the Government. To find the amount, multiply the difference by the tech factor:

TEU:  $\$11.00 \times .128 = \$1.41$

FEU:  $\$11.00 \times .252 = \$2.78$

MTON:  $\$11.00 \times .013 = \$0.15$

**1.3. Payment procedures**

Contractors are responsible for indicating on their shipment invoice whether a fuel payment is due them, whether no fuel payment is to be made, or whether a fuel payment is due SDDC. If a fuel payment is due the Contractor or SDDC, the Contractor shall compute the value of the payment (or credit) and indicate this on the shipment invoice. If there is no fuel payment, the Contractor shall indicate on the invoice “No Fuel Adjustment.” BAF for authorized agent shipments shall be paid using this process.

**1.4. Tables for Fuel Mixtures and Technical Factors by Lane**

The bunker fuel mixture for each route is shown below in BAF Table 1.

**BAF Table 1 Fuel Mixtures**

Lane	Name	Over Ocean Share (2024)	ECA Share (2024)	Over Ocean Share (2025)	ECA Share (2025)
1	U.S. West Coast - Far East	74%	26%	74%	26%

## **2. Currency Adjustment Factor (CAF)**

### **2.1. Allowance**

CAF only applies to the ocean portion of the transportation and is intended to offset the local currency exchange rate fluctuations for terminal services. An allowance for fluctuations in foreign currency exchange rates shall be paid to Contractors or the Government for routes designated to a superlane as shown in the CAF Table 1 below. The allowance shall be paid per dollar of the Contractor's base ocean rate.

### **2.2. Calculation Overview**

2.2.1. The compensation per U.S. Dollar (USD) of the basic ocean rate shall be derived by implementing the calculation process in paragraph 2.3 below. Note that the basic ocean freight is used to calculate CAF for all eligible shipments. The basic ocean freight does not include BAF in the calculation of CAF. Exchange rates are expressed as foreign currency per dollar.

2.2.2. The Currency Adjustment Factor is zero unless the one-month average exchange rate is at least 5% higher or 5% lower than the baseline average currency exchange rate. No CAF is payable on routes/countries if "No CAF payable" is listed in CAF Table 1 below.

2.2.3. The technical factor represents the costs incurred in foreign currency. The technical factor is .07.

2.2.4. The risk sharing factor represents the degree of risk borne by USTRANSCOM on currency fluctuations outside of the buffer zone. The risk sharing factor is 0.9. The base rate is the carrier's ocean rate.

2.2.5. Base rates and differentials in currency exchange rates shall be computed for the currencies shown in CAF Table 2. The applicable currency for payment shall be determined by the foreign port of discharge or load.

2.2.6. The source for exchange rates is XE.com. The base rate is the exchange rate published on the Monday which immediately precedes the date proposals are due for base or option periods.

2.2.7. A one-month average exchange rate shall be computed by SDDC for the currencies shown in CAF Table 2. This average price shall be calculated on or after the first day of the month ("calculation month") and be provided to Contractors no later than the 15<sup>th</sup> of the same month. The calculation shall use data from the previous month ("data month") and shall be applicable to the month which is two months after the calculation month, and three months after the data month. The applicable month is determined by the sail date from POE in the initial offer. For example, the CAF calculated in July based on June data shall apply to cargo that was initially offered to sail from POE in September. If the cargo is advanced and ends up sailing in an earlier month, or sails in a later month (due to factors such as roll, shutout, or schedule change), there will be no change to the CAF. Using the above example, if the cargo was initially offered to a VOYDOC that was scheduled to sail from POE in September, the CAF applicable to September shall be payable, even if the cargo sails in a different month.

### **2.3. Calculation Process**

Calculation of the CAF is a three-step process. First, the currency is compared to the list of 18 currencies for which a CAF is calculated and then grouped into a superlane. If so, in step 2, the decision of whether or not to apply a CAF is made. If so, in step 3, the value of the surcharge is calculated.

2.3.1. Step 1: Determine if currency is in a superlane.

If currency is listed in Table 2 below, note the superlane and go to step 2. If the currency is not on the list, then CAF does not apply (i.e., CAF = \$0).

Example: Japanese Yen (JPY) is noted in Table 2 below and is in the Eastern Asia superlane.

2.3.2. Step 2: Find the currency buffer and determine if the average exchange rate for the currency exceeds the buffer.

Example: The baseline exchange rate for JPY was set at 100 JPY per USD. The buffer is 5%; therefore, it is from 95 JPY to 105 JPY per USD. This month's average exchange rate was 110 JPY per USD. Because this exceeds the buffer, CAF is payable to the Carrier. (Note: if the monthly average exchange rate was below the buffer, then the Carrier would pay the Government)

2.3.3. Step 3: Calculate the CAF.

1. Determine the exchange rate ratio:

(monthly average exchange rate – baseline exchange rate)/ baseline exchange rate

Example:  $(110 - 100)/100 = 10\%$

2.  $CAF = \text{exchange rate ratio} \times .9 \text{ (risk sharing factor)} \times .07 \text{ (technical factor)} \times \text{base ocean rate}$

2.3.4. CAF can be either positive or negative. If  $CAF > 0$ , then the foreign currency has depreciated, the CAF is a payment to the Government. If  $CAF < 0$ , then the foreign currency has appreciated, the CAF is a payment to the carrier.

## 2.4. Payment Procedures

2.4.1. For shipments paid using the Third-Party Payment System (TPPS), CAF shall be fixed at the time of booking and shall be based on the date the booked vessel is scheduled to depart. When CAF is payable, shippers shall include the applicable CAF amount (plus or minus) to all shipments paid to the Contractor via their own documentation and payment system at the time that the original transactions are sent to TPPS. Contractors using the TPPS invoice procedure shall include the applicable CAF amount (plus or minus) in their invoice.

2.4.2. For all shipments other than those paid using TPPS, Contractors are responsible for indicating on their shipment invoice whether a currency adjustment payment is due them, whether no currency adjustment payment is to be made or whether a currency adjustment payment is due SDDC. If a currency adjustment payment is due the Contractor or SDDC, the Contractor shall compute the value of the payment (or credit) and indicate this on the shipment invoice. If there is no currency adjustment payment, the Contractor shall indicate on the invoice "No Currency Adjustment Payment". CAF for authorized agent shipments shall be paid using this process.

**CAF TABLE 1**

Route	Name	Superlane
1	U.S. West Coast - Far East	Far East
2	Continental Europe, United Kingdom, Ireland – Middle East, South Asia, Indian Ocean	No CAF payable
3	U.S. West Coast - Hawaii	No CAF payable
4	Middle East, South Asia, Indian Ocean Interport	No CAF payable

### **3. Fuel Adjustment Factor (FAF)**

#### **3.1. Fuel Adjustment Surcharge**

A Fuel Adjustment for inland transportation will be calculated and updated monthly and based on the U.S. monthly average On-Highway Diesel fuel price as determined by the Department of Energy, Energy Information Administration (EIA). The diesel fuel prices published by the EIA may be found via the following website: [https://www.eia.gov/dnav/pet/pet\\_PRI\\_GND\\_DCUS\\_nus\\_m.htm](https://www.eia.gov/dnav/pet/pet_PRI_GND_DCUS_nus_m.htm)

#### **3.2. Baseline**

3.2.1. The base period for determining the baseline diesel fuel price will be the month prior to the month the solicitation was issued. For option years the baseline will be the month prior to the month the IBS application is opened for carriers to submit rates for that option year. In both cases the baseline used will be the national monthly average diesel fuel price from the EIA.

3.2.2. A monthly national average diesel fuel price shall be posted by SDDC using the price published by the EIA. This average price shall be calculated on or after the first of each month (“calculation month”) and be provided to Contractors no later than the 15<sup>th</sup> of the same month. The calculation shall use data from the previous month (“data month”) and shall be applicable to the month which is two months after the calculation month and three months after the data month. The applicable month is determined by the sail date from POE in the initial offer. For example, the FAF calculated in July based on June data shall apply to cargo that was initially offered to sail from POE in September. If the cargo is advanced and ends up sailing in an earlier month, or sails in a later month (due to factors such as roll, shutout, or schedule change), there will be no change to the FAF. Using the above example, if the cargo was initially offered to a VOYDOC that was schedule to sail from POE in September, the FAF applicable to September shall be

payable, even if the cargo sails in a different month.

### **3.3. Fuel Adjustment Application**

3.3.1. The fuel adjustment surcharge on the inland CONUS portion of shipments will be based on the shipment's origin state and POE (port of embarkation) or the POD (port of debarkation) and the shipment's destination state.

3.3.2. For the purpose of determining the surcharge East Coast ports will include those within the states of Maine, New Hampshire, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, North/South Carolina, Georgia, and Florida and within the district of the District of Columbia; Gulf Coast ports will include those within the states of Texas, Louisiana, Mississippi and Alabama; and West Coast ports will include those within the states of California, Oregon and Washington.

3.3.3. A different fuel adjustment surcharge will apply, depending on the type of shipment. A shipment may be a container shipment, a refrigerated container shipment, a breakbulk shipment with a weight/shipment unit less than or equal to 50,000 lbs., or breakbulk shipment where the weight/shipment unit exceeds 50,000 lbs. Carriers will select the appropriate table for determining the FAF applicable to a given shipment. FAF is payable per conveyance.

3.3.4. The Fuel Adjustment Surcharge will be calculated on six zones. The zones encompass movements from West Coast ports to West Coast states, movements from West Coast ports to rest of US, movements from East Coast ports to East Coast states, movements from East Coast ports to rest of US, movements from Gulf Coast ports to Gulf Coast states, and movements from Gulf Coast ports to rest of US. Additionally, the Fuel Adjustment Surcharge will be broken out by:

- Container Shipments
- Refrigerated Container Shipments
- Breakbulk Shipments
- Breakbulk Shipments Exceeding 50,000 lbs.

3.3.5. The equations for calculating the Fuel Adjustment Surcharge are:

#### **3.3.5.1. Container Shipments**

EC to EC Surcharge = (Monthly Average Fuel Price - Baseline Fuel Price)\*Truck gallons/  
container mile\*Average haul EC ports to EC points

GC to GC Surcharge = (Monthly Average Fuel Price - Baseline Fuel Price)\*Truck  
gallons/container mile\*Average haul GC ports to GC points

WC to WC Surcharge = (Monthly Average Fuel Price - Baseline Fuel Price)\*Truck  
gallons/container mile\*Average haul WC ports to WC points

EC to Rest of US = (Monthly Average Fuel Price - Baseline Fuel Price)\* Intermodal  
rail gallons/container mile \*Average haul EC ports to Rest of US + (Monthly Average  
Fuel Price - Baseline Fuel Price)\* Truck gallons/container mile \*Average Truck  
component EC ports to Rest of US

GC to Rest of US = (Monthly Average Fuel Price - Baseline Fuel Price)\*Intermodal rail gallons/container mile \*Average haul GC ports to Rest of US + (Monthly Average Fuel Price - Baseline Fuel Price)\* Truck gallons/container mile \*Average Truck component GC ports to Rest of US

WC to Rest of US = (Monthly Average Fuel Price - Baseline Fuel Price)\*Intermodal rail gallons/container mile \*Average haul WC ports to Rest of US + (Monthly Average Fuel Price - Baseline Fuel Price)\* Truck gallons/container mile \*Average Truck component WC ports to Rest of US

Container Shipment Fixed Input Values for the Equations:

Average haul EC ports to EC points	146
Average haul GC ports to GC points	280
Average haul WC ports to WC points	86
Average haul EC ports to rest of US	1,127
Truck Component EC ports to rest of US	45
Average haul GC ports to rest of US	1,403
Truck Component GC ports to rest of US	54
Average haul WC ports to rest of US	2,540
Truck Component WC ports to rest of US	30
 Truck fuel factor gallons/container mile	 0.1264
 Intermodal rail fuel factor gallons/container mile	 0.032

3.3.5.2. Refrigerated Container Shipments

EC to EC Surcharge= (Monthly Average Fuel Price - Baseline Fuel Price)\*(Truck gallons/container mile\*Average haul EC ports to EC points + Average haul EC ports to EC points/Average speed\*Reefer unit gallons/hour)

GC to GC Surcharge= (Monthly Average Fuel Price - Baseline Fuel Price)\*(Truck gallons/container mile\*Average haul GC ports to GC points +Average haul GC ports to GC points/Average speed\*Reefer unit gallons/hour)

WC to WC Surcharge = (Monthly Average Fuel Price - Baseline Fuel Price)\*(Truck gallons/container mile\*Average haul WC ports to WC points +Average haul WC ports to WC points/Average speed\*Reefer unit gallons/hour)

EC to Rest of US = (Monthly Average Fuel Price - Baseline Fuel Price)\* (Truck gallons/container mile \*Average haul EC ports to Rest of US + Average haul EC ports to Rest of US/Average speed\*Reefer unit gallons/hour+Off duty time\*Reefer unit gallons/hour)

GC to Rest of US = (Monthly Average Fuel Price - Baseline Fuel Price)\*(Truck gallons/container mile  
 \*Average haul GC ports to Rest of US + Average haul GC ports to Rest of US/Average speed\*Reefer unit  
 gallons/hour+Off duty time\*Reefer unit gallons/hour)

WC to Rest of US = (Monthly Average Fuel Price - Baseline Fuel Price)\*(Truck gallons/container mile  
 \*Average haul WC ports to Rest of US + Average haul WC ports to Rest of US/Average speed\*Reefer unit  
 gallons/hour+Off duty time\*Reefer unit gallons/hour)

Refrigerated Container Shipment Fixed Input Values for the Equations:

Average haul EC ports to EC points	266
Average haul GC ports to GC points	263
Average haul WC ports to WC points	77
Average haul EC ports to Rest of US	1,370
Average haul GC ports to Rest of US	1,477
Average haul WC ports to Rest of US	2,790
Truck fuel factor gallons/container mile	0.1264
Reefer unit fuel factor gallons/hour	0.8
Average speed miles/hour	50

3.3.5.3. Breakbulk Shipments Equal to or Less than 50,000 lbs.

EC to EC Surcharge = (Monthly Average Fuel Price - Baseline Fuel Price)\*Truck gallons/  
 trailer mile\*Average haul EC ports to EC points

GC to GC Surcharge = (Monthly Average Fuel Price - Baseline Fuel Price)\*Truck  
 gallons/trailer mile\*Average haul GC ports to GC points

WC to WC Surcharge = (Monthly Average Fuel Price - Baseline Fuel Price)\*Truck  
 gallons/trailer mile\*Average haul WC ports to WC points

EC to Rest of US = (Monthly Average Fuel Price - Baseline Fuel Price)\* Intermodal  
 rail gallons/trailer mile \*Average haul EC ports to Rest of US

GC to Rest of US = (Monthly Average Fuel Price - Baseline Fuel Price)\*Intermodal  
 rail gallons/trailer mile \*Average haul GC ports to Rest of US

WC to Rest of US = (Monthly Average Fuel Price - Baseline Fuel Price)\*Intermodal  
 rail gallons/trailer mile \*Average haul WC ports to Rest of US

Breakbulk Shipments Less than 50,000 lbs Fixed Input Values for the Equations:

Average haul EC ports to EC points	267
Average haul GC ports to GC points	399
Average haul WC ports to WC points	200
Average haul EC ports to Rest of US	1,651

	Average haul GC ports to Rest of US	1,672	
	Average haul WC ports to Rest of US	2,040	
3.3.5.4.			Breakbulk
Shipments	Truck fuel factor gallons/trailer mile	0.1264	Exceeding
50,000 lbs.			

EC to EC Surcharge = (Monthly Average Fuel Price - Baseline Fuel Price)\*Truck gallons/  
mile\*Average haul EC ports to EC points

GC to GC Surcharge = (Monthly Average Fuel Price - Baseline Fuel Price)\*Truck  
gallons/ mile\*Average haul GC ports to GC points

WC to WC Surcharge = (Monthly Average Fuel Price - Baseline Fuel Price)\*Truck  
gallons/ mile\*Average haul WC ports to WC points

EC to Rest of US = (Monthly Average Fuel Price - Baseline Fuel Price)\* Conventional  
rail gallons/car mile \*Average haul EC ports to Rest of US

GC to Rest of US = (Monthly Average Fuel Price - Baseline Fuel Price)\* Conventional  
rail gallons/car mile \*Average haul GC ports to Rest of US

WC to Rest of US = (Monthly Average Fuel Price - Baseline Fuel Price)\* Conventional  
rail gallons/car mile \*Average haul WC ports to Rest of US

Breakbulk Shipments Exceeding 50,000 lbs Fixed Input Values for the Equations:

Average haul EC ports to EC points	155
Average haul GC ports to GC points	560
Average haul WC ports to WC points	173
Average haul EC ports to Rest of US	1,275
Average haul GC ports to Rest of US	1,287
Average haul WC ports to Rest of US	2,002
Truck fuel factor gallons/trailer mile	0.2192

### 3.3.6. Payment procedures

3.3.6.1. For shipments paid using Syncada/U.S. Bank, the Fuel Adjustment Surcharge shall be fixed at the time of booking and shall be based on the date the booked vessel is scheduled to sail. When Fuel Adjustment Surcharge is payable, shippers shall include the applicable Fuel Adjustment Surcharge amount (plus or minus) to all shipments paid to the Contractor via their own documentation and payment system at the time that the original transactions are sent to Syncada. Contractors using the Syncada invoice procedure shall include the applicable Fuel Adjustment Surcharge amount (plus or minus) in their invoice.

3.3.6.2. For all shipments other than those paid using Syncada/U.S. Bank, Contractors are responsible for indicating on their shipment invoice whether a Fuel Adjustment Surcharge payment is due them, whether no Fuel Adjustment Surcharge payment is to be made or whether a Fuel Adjustment Surcharge payment is

due SDDC. If a Fuel Adjustment Surcharge payment is due the Contractor or SDDC, the Contractor shall compute the value of the payment (or credit) and indicate this on the shipment invoice. If there is no Fuel Adjustment Surcharge payment, the Contractor shall indicate on the invoice “No Fuel Adjustment Surcharge”. Fuel Adjustment Surcharge for authorized agent shipments shall be paid using this process.

## SHIPMENTS OF DLA PRIME VENDOR CARGO

### 1. Special Provisions for Defense Logistics Agency (DLA) Prime Vendor Program

**1.1 Contractual Intent.** Generally, the terms, conditions and prices of this contract shall apply equally to the transportation of both Government owned cargo and cargo otherwise transported by the DoD. For example, the standard of liability of a USC Contractor for loss/damage to cargo is the same in both situations. Also, compensation due the USC Contractor for detention of Carrier containers, port storage, reefer maintenance, and other matters is the same in both situations. However, experience has demonstrated that certain matters are better handled directly between a Prime Vendor and USC Contractor (the real parties in interest) where non-Government cargo is involved. These matters include, but are not limited to:

- a) Claims procedures and claims dispute resolution procedures related to Prime Vendor cargo and Prime Vendor claims against a USC Contractor for loss/damage to Prime Vendor cargo;
- b) USC Contractor claims against a Prime Vendor for loss/damage to USC Contractor equipment;
- c) USC Contractor claims against a Prime Vendor for detention accrued on or after the X1 event for USC Contractor equipment;
- d) USC Contractor claims against a Prime Vendor for detention, port storage charges, Driver wait time, and reefer maintenance that are clearly not the cause/fault of the Government;
- e) Claims between the Prime Vendor and USC Contractor for services not ordered by the Government

The reason these matters are better handled directly between the Prime Vendor and the USC Contractor is because the Prime Vendor owns the cargo and because only the Prime Vendor and the USC Contractor have specific, factual knowledge and documentation/evidence related to such matters and the delivery location. DLA's Prime Vendor contracts involving the cargo movements outside of the Continental United States (OCONUS) require the Prime Vendor to sign an agreement (which the USC Contractor may accept and seek to supplement) establishing a minimum level of claims processing and dispute resolution procedures. This contract requires the Carrier to accept a minimum level agreement to be eligible for the carriage of Prime Vendor cargo OCONUS. The contractual intent is for the Prime Vendor and the USC Contractor to address/resolve such matters directly with each other. The Government customer can be harmed when procedures for resolving such matters between the Prime Vendor and a USC Contractor are not established and problems are not resolved directly between the Prime Vendor and the USC Contractor. However, the USC Contractor may submit claims for issues arising out of the control of both the Prime Vendor and the USC Contractor. The USC Contractor should exhaust claims with the PV including invoking arbitration, if applicable, before submitting a claim involving Prime Vendor cargo to the Government.

**1.1.1** The following are the responsibility of the USC Contractor. Any costs incurred by the Prime Vendor as a result of the USC Contractor's failure to properly perform these services, in accordance with this PWS, shall be borne by the USC Contractor, as shall any other failure of the USC Contractor to perform in accordance with the requirements of this PWS that results in a loss by the Prime Vendor:

- a. Spotting equipment at the date and time agreed upon by the Vendor and the Carrier
- b. Picking-up cargo at the date and time agreed upon by the Vendor and the Carrier
- c. Allowing 2 business days to schedule delivery appointments.
- d. Providing an accurate Bill of Lading (B/L)
- e. Notifying the Government within 24 hours of discovering a seal on any unit of cargo has been broken and/or replaced.
- f. Ensuring refrigerated containers maintain a temperature within three degrees Fahrenheit for chilled cargo, or five degrees Fahrenheit for frozen cargo, of the temperature requested in the booking.

The Prime Vendor will submit any claims related to the above directly to the USC Carrier. The U.S. Government shall not be liable for loss or damage to Prime Vendor cargo. Any discrepancy report or notice of claim for such loss or damage shall be submitted by the DLA Prime Vendor directly to the USC Contractor for resolution, not to

DLA or USTRANSCOM. The USC Contractor shall accept such discrepancy report or notice of claim for such loss or damage from the DLA Prime Vendor, as well as any other communications regarding such loss or damage.

**1.1.2** The following are the responsibility of the Prime Vendor Contractor and any costs incurred by the USC Contractor resulting from the Prime Vendor's failure to properly perform these services, in accordance with the Prime Vendor Contract, shall be borne by the Prime Vendor:

- a. Loading containers at the date and time agreed upon by the Vendor and the Carrier
- b. Providing accurate and timely Health Certificates and Commercial Invoices and Packing Lists (CIPL)
- c. Receiving and unloading of cargo at the date and time agreed upon by the Prime Vendor and the Carrier.
- d. Submitting accurate cargo weights to Government on shipping instructions and CIPL

The Carrier shall submit any claims related to the above directly to the Prime Vendor. The U.S. Government shall not be liable for USC Contractor claims against a Prime Vendor for loss/damage to USC Contractor equipment or claims for detention, port storage charges, Driver wait time, and reefer maintenance that are clearly not the cause/fault of the Government.

**1.1.3** Services for Prime Vendors cargo not ordered in IBS that are determined to be Government caused will be treated the same as all other cargo under this contract. Invoices shall be submitted in accordance with Exhibit 2, PWS, Attachment 6. This includes, but is not limited to the following:

- a) USC Contractor claims for detention prior to X1 event for USC Contractor equipment
- b) USC Contractor claims for port storage charges
- c) USC Contractor claims for Driver wait time
- d) USC Contractor claims for reefer maintenance

**1.1.4** The Contractor and the Prime Vendor should include any common issues not delineated above in their Prime Vendor/USC Carrier Agreements for resolution in accordance with the Agreements.

**1.2 Prime Vendor and USC Contractor Agreements for OCONUS:** After notification of an award of any route for Prime Vendor cargo movement, the USC Contractor is required to enter into a written agreement with the Prime Vendor which shall, at a minimum, include the content in the sample Prime Vendor/USC Carrier Agreement in section 2 below. The agreement provides procedures to submit and process claims and resolve disputes arising in connection with U.S. Government ordered transportation services for non-Government owned cargo. The sample Prime Vendor/USC Carrier Agreement is the minimum instrument required to address the matters described in 1.1.1 through 1.1.3. A copy of the agreement and any negotiated supplemental language in respect thereof or changes thereto, shall be furnished to the USC Contracting Officer.

**1.3 Supplementation Encouraged.** The USC Contractor is encouraged, but not required, to supplement the terms of the sample agreement located in section 2 with each Prime Vendor by providing additional details, more specific procedures, or other terms that will facilitate claims processing and dispute resolution. Supplementary language must be consistent with this Attachment. A copy of any supplemental terms must be provided to the USC Contracting Officer. In negotiating any agreement, the USC Contractor should consider that the Prime Vendor may exercise a right of setoff, if any exists, involving a commercial contract or other remedial action against the USC Contractor. Similarly, the USC Contractor may take remedial action or other actions to protect its interests against the Prime Vendor, including the assertion of a lien, if any exists, on Prime Vendor cargo.

## 2. Sample Prime Vendor Carrier Agreement

### **PRIME VENDOR/USC CARRIER AGREEMENT**

WHEREAS, components of the Defense Logistics Agency (DLA) have entered into contracts with various suppliers and distributors under a "Prime Vendor" (PV) program to supply various commodities to U.S. Government agencies and under this program the PVs retain title to such commodities until final delivery;

WHEREAS, DLA's PV contracts permit components of DLA to order transportation services from commercial Carriers under a contract with the United States Transportation Command (USTRANSCOM) known as the Universal Services Contract (USC);

WHEREAS, USC Carriers transport PV commodities and return them to PVs at a different location prior to delivery of same by the PV to U.S. Government agencies;

WHEREAS, past experience has demonstrated that PVs and Carriers may disagree about claims procedures and claims dispute resolution procedures related to PV cargo, including PV claims against a USC Contractor for loss/damage to PV cargo; USC Contractor claims against a PV for loss/damage to USC Contractor equipment; claims for detention, port storage charges, Driver wait time, and reefer maintenance that are clearly not the cause/fault of the Government, and claims between the PV and USC Contractor for services not ordered by the Government;

WHEREAS, \_\_\_\_\_ (hereinafter referred to as The PV) has been awarded contract number \_\_\_\_\_ by \_\_\_\_\_ for the supply of PV cargo;

WHEREAS, one or more Carriers under the USC may serve the geographical area covered by said contract and transport PV commodities intended for performance of said contract;

NOW, THEREFORE, in consideration of the mutual promises herein and for the purpose of facilitating minimum standards for the processing of claims and the resolution of disputes between the PV and applicable USC Carriers, the PV and any USC Carrier accepting the terms of this Agreement (hereinafter referred to as Accepting USC Carrier) agree as follows:

1. The PV and Accepting USC Carrier agree to adhere to the booking requirements of the transportation services ordered. Cargo ordered for delivery to a PV location shall be accepted by the PV upon delivery by the USC Carrier. The PV and USC Carrier will abide by the destination services requirements for delivery and receipt notifications. If the PV finds the cargo to be in an unacceptable condition for receipt, the PV and the USC Carrier will agree to a joint inspection. If the joint inspection determines the cargo to be in an unacceptable condition, the PV and USC Carrier agree to resolve these claims after delivery and subsequent destruction of the cargo.
2. The PV will submit directly to the Accepting USC Carrier (not to DLA or USTRANSCOM) for resolution any discrepancy report or notice of claim for loss/damage to PV cargo, for services not ordered by DLA/USTRANSCOM, or for ending container detention charges or other matters. The Accepting USC Carrier shall accept such report/notice and both parties agree to communicate with each other regarding the processing of claims. The parties may (but are not required to) supplement this minimum level of agreement with additional or more specific terms and conditions consistent with this Agreement and Attachment of the USC contract.
3. The Accepting USC Carrier will submit to the PV (not to DLA or USTRANSCOM) for resolution any notice of claim for equipment loss/damage, container detention, maintenance of refrigerated containers (reefer maintenance), port storage, services not ordered by DLA/USTRANSCOM, procedures for ending container detention charges, or other matters. The PV shall accept such notice of claims and both parties agree to communicate with each other regarding the processing of claims. The parties may (but are not required to) supplement this minimum level of

agreement with additional or more specific terms and conditions consistent with this Agreement and Attachment of the Exhibit 3, PWS in the USC contract.

4. When the claims process does not lead to resolution of the claim, the parties agree to initiate some form of dispute resolution process (such as, but not limited to, direct negotiation, alternative dispute resolution, binding arbitration, and/or court action) that does not involve the U.S. Government as a party (including DLA/USTRANSCOM.) The parties may (but are not required to) supplement this minimum level of agreement with additional or more specific terms and conditions consistent with this Agreement and Attachment of the Exhibit 2, PWS in the USC contract.

5. The PV and the Accepting USC Carrier will notify their respective Contracting Officers of any refusal to communicate regarding the processing of a claim and of any failure to attempt to resolve a dispute.

6. The PV and the Accepting USC Carrier acknowledge that the terms of their contracts with the U.S. Government (DLA and USTRANSCOM respectively) generally preclude liability of the Government for the following: PV claims against a USC Contractor for loss/damage to PV cargo; USC Contractor claims against a PV for loss/damage to USC Contractor equipment; claims for detention, port storage charges, Driver wait time, and reefer maintenance that are clearly not the cause/fault of the Government, and claims between the PV and USC Contractor for services not ordered by the Government.

7. The PV and Accepting USC carrier agree that as a result of the Accepting USC carrier will be responsible for the following claims if the Accepting USC carrier fails to properly perform these services and the failure to comply with the terms results in a loss by the PV. The PV must document its losses.

- a. Spotting equipment at the date and time agreed upon by the PV and the Accepting USC carrier
- b. Picking-up cargo at the date and time agreed upon by the PV and the Accepting USC carrier
- c. Allowing two business days to schedule delivery appointments.
- d. Providing an accurate Bill of Lading (B/L)
- e. Notifying the Government within 24 hours of discovering a seal on any unit of cargo has been broken and/or replaced.
- f. Ensuring refrigerated containers maintain a temperature within three degrees Fahrenheit for chilled cargo, or five degrees Fahrenheit for frozen cargo, of the temperature requested in the booking.

8. The PV and the Accepting USC carrier further agree that the PV is responsible for the following costs/claims resulting from the PV's failure to perform:

- a. Loading containers at the date and time agreed upon by the Vendor and the Carrier
- b. Providing accurate and timely Health Certificates and Commercial Invoices and Packing Lists (CIPL)
- c. Receiving and unloading of cargo at the date and time agreed upon by the Prime Vendor and the Carrier. This includes failure of the PV to accept cargo at the destination after being notified of its arrival, including detention, port storage charges, Driver wait time, and reefer maintenance, etc., so long as these extra costs are caused by the Accepting USC carrier.
- d. Submitting accurate cargo weights to Government on shipping instructions and CIPL

9. The parties acknowledge that the terms of the USC contract are applicable to this Agreement and incorporate by reference into this Agreement the USC contract in force at the time PV cargo is booked. For example, the standard of liability of an Accepting USC Carrier for loss/damage to PV cargo is the same as the standard of liability of a USC Carrier for loss/damage to government-owned cargo under USC. Similarly, the compensation due an Accepting USC Carrier for damage to its equipment, detention of its containers, port storage of its equipment, and maintenance of its refrigerated containers is the same as the compensation due to a USC Carrier for such matters under USC. Attachment 8 to the USC contract describes specific provisions of the USC contract that are modified to acknowledge that the transportation described herein involves PV cargo, not government-owned cargo; that USC Carriers deliver cargo back to the PV, not to the Government; and that the real parties in interest for PV cargo movements are generally the PV and the USC Carrier, not the Government.

## INSTRUCTIONS

The FARS 52.204-21 tab highlights FAR Clause 52.204-21 the Basic Safeguarding of Covered Contractor Information Systems (DODI 8582.01)

The Carrier Info tab summarizes the NIST 800-171 controls from the control family tabs across the bottom of this workbook.

Please complete

Company name:

Contract number:

Cage code:

Date completed:

Submission Type (Annual or update?)

Point of contact (POC):

POC phone number:

POC e-mail address:

The remainder of tabs across the bottom of this workbook contain a NIST 800-171 control family.

Note: Certain areas of each sheet are not editable. These include "control compliance", "control/objective number", "control family", "DIBCAC score", "control/objective text" and "control type" (columns A through F). These are all locked out.

Overarching control compliance status is controlled by the subobjectives under each control number. Example: 3.1.1 can only be compliant ("yes") if objectives 3.1.1[a] through [f] are all compliant ("yes"). A noncompliant ("no") in any subobjective will automatically render the objective as noncompliant ("no"). Thus, when all subobjectives are in compliance ("yes"), the objective automatically is compliant ("yes").

VSP	Vessel Security Plan
WC	West Coast
WS	Worldwide Score

## 2. DEFINITIONS

The following terms have the meaning as set forth below:

Acceptable Space: Space with normal access thereto as would normally be used in liner service for the particular type of cargo declared at the time of booking, and shall be properly prepared, cleaned and ready to receive the cargo.

Alternate Service Arrangements: Service subcontracted to another provider that is different than the services described in the Contractors accepted proposal.

Ammunition Linehaul: Linehaul for ammunition requires use of a Contractor approved by DoD for the transport of this commodity and includes satellite tracking as part of the basic service.

Authorized Agent of the United States Government: An entity authorized to book shipments under this contract on behalf of the Government in accordance with terms and conditions listed in Exhibit 3.

Available Date: The date on which the shipper can make cargo available to the Carrier. For door bookings, this is the date on which cargo is available to be picked-up. For port bookings, this is the earliest date the shipper can deliver cargo to the port.

**Booking:** Offer by the Government and acceptance by the Contractor for the transportation of goods pursuant to the applicable rates, terms and conditions of the subject contract. A booking is an order.

**Brigade Booking Office (BBO):** An SDDC activity within the OCCA that has authority to place orders against the subject contract, provide the contract terms and monetary limitations.

**Breakbulk/RORO Cargo:** All cargo that is not containerized. For the purposes of this contract the Government categorizes breakbulk into the following rate types: General, Heavy Vehicles, Light Vehicles, Helicopters, and Shipper Owned Containers moved on a breakbulk or RO/RO vessel.

**Cargo Cleaning Service:**

**Wash Service:** Cleaning required for cargo that has been tendered to the Contractor dirty and requires thorough washing.

**Rinse Service:** Cargo cleaning to remove road dirt and other contaminants accumulated while in transit or at the port. Service applies to cargo that was tendered to the Contractor clean.

**Cargo Handling:** Cargo Handling (Container) Accessorial service provided by the Contractor for cargoes that are containerized by the Contractor. Cargo handling services include all labor, material, and equipment necessary to receive cargo; unload from inbound conveyance; tally cargo; load and secure cargo into containers; provide intra-terminal transfers; supply necessary blocking, bracing, and dunnage; supply and apply seals to container doors; and submit reports in accordance with Attachment 2. Accessorial includes all services from in-gate and receipt of cargo through stuffing of container at the POE and from unstuffing of the container to out-gate at POD.

**Cities:** A specific location where DoD cargo can originate or terminate.

**City Group:** Two or more cities, close in proximity, that are grouped together to provide an aggregation for simplifying rate structure.

**Commercial Zone:** The pickup and delivery limits of cities, ports and municipalities in the United States as defined by the Surface Transportation Board and published in 49 CFR, Part 1048, on the date service is provided by the Contractor.

**Concealing (Tarping) Service:** Covering and protecting of cargo using weather resistant, non-transparent, durable material.

**Consignee:** The person or entity named in the booking or shipping instructions to which goods have been shipped or turned over for care.

**Consignor:** The person or activity that prepares the shipment of cargo/personal property and releases it to the Carrier for movement to the consignee.

**Container Freight Station (CFS):** A facility usually operated by the Contractor where loose cargo is received for consolidation/containerization and/or where a full container is received for deconsolidation/unstuffing.

**Contingencies:** Military operations that 1) are designated by the Secretary of Defense as an operation in which members of the armed forces are or may become involved in military actions, operations, or hostilities against an enemy of the United States or against an opposing military force; or 2) results in the call or order to, or retention on, active duty of members of the uniformed services under section 688, 12301(a), 12302, 12304, 12305, or 12406 of 10 USC., chapter 15 of 10 USC or any other provision of law during a war or during a national emergency declared by the President or Congress. In such cases, and in some other cases, the SDDC CG may designate certain areas as Exigency Areas in accordance with the Exigency Annex.

**Contracting Officer (CO):** A person with the authority to enter into, administer, and/or terminate contracts and make related determinations and findings. The term includes certain authorized representatives of the Contracting Officer acting within the limits of their authority as delegated by the Contracting Officer.

**Contracting Officer's Representative (COR):** Appointed in writing by the CO, responsible for, but not limited to, the following: monitoring the Contractor's performance in accordance with the terms of the contract; ensuring Contractor's compliance with reporting requirements; providing data for Government reports; certifying invoices; and reviewing Contractor claims.

**Contractor:** An entity in private industry, which enters into contracts with the Government to provide goods or services. For purposes of this contract, the definition is further limited to ocean common carriers within the meaning of the Shipping Act of 1984, as amended, or vessel operating contract carriers as determined under Federal Maritime Law.

**Conveyance:** A means of transporting cargo. Under this contract, a conveyance can be used when describing either a container or a vehicle.

**Country:** An internationally recognized sovereign state.

**Customary Shipping (or Freight) Unit:** Term used for unpackaged cargo to determine liability limits under COGSA and/or as a unit of measure for freight pricing purposes. For example, a large truck loaded on a vessel is considered unpackaged and the freight is priced per "measurement ton." Therefore, the liability under COGSA is based on the customary shipping unit of that item. For purposes of implementing COGSA under this contract, the customary shipping unit for cargo not shipped in packages is "measurement ton."

**Cutoffs:**

**Origin Cutoff:** The date and time established by the Contractor when the cargo shall be tendered to the Contractor to meet the vessel's sail date.

**Port Cutoffs:** The date and time established by the Contractor when the cargo shall be tendered to the Contractor at its terminal facility to meet the requirement for lift to the booked vessel.

**Defense Table of Official Distances (DTOD):** The source for computing the number of miles for any overland moves, when the number of miles is needed to determine the applicable rate.

**Detention:** The charge assessed by the Contractor for equipment delays exceeding applicable free time.

**Drayage:** The movement of cargo between the Contractor's terminal at the port where the cargo is loaded to, or discharged from, the vessel and another place by means other than the Contractor's principal vessels, such as by highway or railway, either (if in the United States) within the commercial zone or modified zone of that United States port city and/or any location listed in the Drayage Zone of Attachment 4, or (if in other countries) within a ten-mile radius of the city limits of that foreign port city, and/or any location listed in the Drayage Zone of Attachment 4. In the case of Bahrain and Singapore, all locations in the country shall be considered part of the Drayage Zone.

**Drop and Pick:** See Spotting of Containers

**Dry Cargo Container:** A completely enclosed weatherproof container.

**Excepted Cargoes Breakbulk:** Aircraft (unboxed), helicopters, boats over 40 ft., oversized cargo, bulk cargo, and heavy lift cargo and explosives (excluding IMO Class 1.4), except where a specific CLIN has been included for the commodity.

**Excepted Cargoes Container:** Heavy lift cargo, oversized cargo (with the exception of cargo that meets the definition of over dimensional cargo or super load), explosives (excluding IMO Class 1.4) and all containers other

than dry, reefer, ISO tank, open tops and flatrack containers, except where a specific CLIN has been included for the commodity.

Exclusive Use: When linehaul service is provided, the Contractor will devote the entire conveyance for cargo booked under this contract and shall be prohibited from loading cargo not booked under this contract either on the conveyance or on the government cargo except as provided in Exhibit 2, PWS, paragraph 7.A.1.

Explosives: Includes all military explosives (IMO Class 1.1, 1.2, 1.3 and 1.4), military lethal chemicals, and other items included in Title 49 Code of Federal Regulations, Part 171 et seq (CFR et seq). Military explosives IMO Classes 1.1, 1.2, 1.3, and 1.4, excluding 1.4S shall be solicited under the One-Time-Only Ordering Procedures.

Extra Driver Service: Contractor will provide an extra driver for continuous linehaul service within legal parameters.

Feeder Vessel (Shipping): A vessel used to provide ocean service to a port which is not served directly by the mainline vessel.

Flatrack (Platform) Container: A container without weatherproof sides and/or top to include platforms, which have no sides or ends and flatracks with rigid or collapsible ends. Depending on the configuration, they can be loaded from the end, side, or top.

Free-In Free-Out: When cargo is booked as Free-in or Free-out, the U.S Government shall bring the cargo into the holds, stow it and/or trim it, tally it, lash it and/or secure it (Free-in), and take it from the holds and discharge it (Free-out) with customary dispatch, free of any risk, liability, and expense whatsoever to the Contractor.

Free time: The time allowed for Government shippers and receivers to load or unload Contractor equipment (e.g., containers) before detention charges begin to accrue.

Futile trip: When, due to the fault of the Government, the Contractor incurs costs on trucks that are dispatched but not used.

General Cargo:

Breakbulk: All static (non-wheeled cargo) except the following:

- explosives (excluding IMO Class 1.4),
- helicopters,
- shipper owned containers (SOC),
- excepted cargo, and
- hazardous cargo precluded from carriage by a Contractor under a Contractor's policy.

Container: All container cargo except the following:

- refrigerated cargo,
- explosives (excluding IMO Class 1.4),
- over-dimensional cargo,
- excepted cargo, and
- hazardous cargo precluded from carriage by a Contractor under a Contractor's policy.

Government-Managed Terminal: Terminals operated by SDDC Battalions or other DoD agencies.

Hazardous Cargo: A hazardous substance or material including a hazardous substance, which has been determined by the Secretary of Transportation (Title 49 CFR Parts 171-180) or International Maritime Organization (IMO) to be capable of posing an unreasonable risk to health, safety and property when transported in commerce. For purposes of applying Hazardous surcharges or the use of Hazardous commodity rates, Hazardous cargo is required to be stowed on deck per United States Coast Guard Regulations.

Heavy Lift Cargo: Pieces and packages having a gross weight in excess of 112,000 lbs excluding wheeled or tracked vehicles on RO/RO vessels.

Heavy Vehicles: Breakbulk/RORO cargo – Wheeled or tracked vehicles (unboxed) exceeding 10,000 lbs per unit.

Household Goods: Shipments of household goods and baggage.

Intermodal Move: Being or involving transportation by more than one mode of transportation or type of Contractor during a single journey. An intermodal move occurs when two or more different modes such as rail, truck, barge and/or searift are used to move cargo from origin to destination. The term “intermodal move” can be used interchangeably with “multi-modal service”. Where intermodal service is required, the prime Contractor maintains responsibility and liability for entire movement until delivered to final destination.

Late Gate: Exception to vessel cutoff. Agreement by Contractor to lift cargo to a voyage if received at the terminal after the published cutoff for the voyage.

Light Vehicles: Breakbulk/RORO cargo – Wheeled or tracked vehicles (unboxed) up to and including 10,000 lbs per unit.

Linehaul: The movement of cargo between the Contractor’s terminal at the port where the cargo is loaded to, or discharged from, the vessel and another place outside of the Commercial Zone or modified zone of that United States port city or beyond a 10-mile radius of the city limits of that foreign port city by means other than the Contractor’s principal vessels, such as by highway, railway, canal or river, or in specific instances by feeder vessels, ferry or barge ship system. Linehaul rates include exclusive use of the conveyance.

Liner In/Liner Out: Contractor is responsible for the loading and/or discharging of cargo at port of origin and/or destination and all costs associated thereto.

Liner Terms – Breakbulk: The Contractor provides all services from receipt of cargo at POE to load of cargo on the vessel (liner in) or from discharge of the vessel at POD to loading cargo onto a conveyance (liner out). The Contractor is responsible for the loading and discharging of inland transport within the terminal, along with associated costs, which includes but not limited to any inoperative vehicles fees, whether booked as inoperative or not.

Liner Terms – Container: The Contractor assumes all responsibility and cost for the transportation of the cargo from the port or point where the cargo is received for by the Contractor to the destination port or point where the Contractor makes the cargo available to the consignee. Any costs for the loading or discharging of inland transport within the terminal are for the account of the Contractor.

Live Load: See Spotting of Containers

Live Unload: Contractor delivers a loaded container and the driver waits while the receiver unloads the container

Long Ton: A unit of measurement, in the avoirdupois system of weights, equal to 2240 pounds

Measurement Ton (MTON): A unit of measure for volume. Measurement tons equal total cubic feet divided by 40 (1MTON = 40 cubic feet).

Normal Access: Access to space that permits efficient and expeditious loading and discharging by means routinely employed in commercial practice loading and discharging like cargo in liner service in ships service of the same type as the Contractor’s vessel.

Ocean Cargo Booking Office (OCBO): A SDDC activity subordinate to the OCCA BBO normally at a Battalion or Detachment location.

Ocean Cargo Clearance Authority (OCCA): An SDDC activity, normally at the Brigade level, that has Ordering Authority to book cargo under this contract, performs contract administration and export/import ocean traffic management functions for cargo moving under this contract.

Ordering Activity: Includes the Commander, Surface Deployment and Distribution Command (SDDC), and designees, including authorized agents of the Government.

Ordering Officer (OO): An individual authorized to place orders against indefinite delivery indefinite quantity transportation or transportation-related services contracts awarded by USTRANSCOM, provided the contract terms and monetary limitations specified in the contract are met. The OO is:

- (1) Responsible for distributing and administering orders for services that are placed.
- (2) Responsible for the oversight, management, and control of the distributing and administering of orders for services that the staff has placed.
- (3) Responsible for establishing controls necessary to ensure that all contract terms and conditions are met and that transportation services ordered conform to contract requirements before acceptance is made or payment authorized.
- (4) Responsible for reporting deficiencies in Contractor performance promptly to the Contracting Officer's Representative or the Program Management Office.

Ordering Officers may not make any changes in the terms and conditions of any contracts against which orders are placed.

Over Dimensional Cargo: Cargo booked to be shipped as container cargo with at least one dimension exceeding any external dimension of a container's width (8') or height (8'6") but not exceeding the following maximum weight and dimensions:

Weight: 44,000 lbs. Length: 40'00" Width: 11'00" Height: 11'8"

Oversized Breakbulk Cargo: Cargo that has any one dimension over 50 feet long, more than eleven (11) feet wide or over eleven (11) feet in height, or as determined by the Ordering Officer, requires special handling equipment for loading aboard or discharging from a vessel because of that cargo's atypical size. All wheeled or tracked vehicles regardless of size are excluded from this definition.

Oversized Container Cargo: Cargo which when stowed aboard a cellular container ship would require more space than the space needed to load a 40 ft long, 8'6" high, 8 ft wide dry container; i.e., would require more than one (1) container space of this size. Exceptions to this definition are described as "Over Dimensional Cargo."

Package: A class of cargo, irrespective of size, shape or weight, to which some packaging preparation for transportation has been made which facilitates handling, but which does not necessarily conceal or completely enclose the goods. The act of loading cargo into, or upon, a container shall not transform such containerized cargo into a single COGSA package unless such cargo satisfies the COGSA requirements of a single "package" irrespective of the fact that it has been containerized.

Pools: See Spotting of Containers

Port Area: Two or more water ports, close in proximity, that are grouped together to provide an aggregation for simplifying rate structure.

QUADCON: Shipper Owned Container; four QUADCONs have the same external dimensions as a 20-foot shipping container when linked. For rate calculation purposes, linehaul rates will be applied in accordance with Attachment 3, paragraph 1.2.10, and individual accessorial will be applied if booked as breakbulk.

Quality Assurance Office (QAO): An SDDC activity within to the OCCA that has authority to ensure contract compliance and perform related contract administration for cargo moving under this contract.

Receiver: Individual or entity authorized by the consignee to receive and sign for delivered cargo.

Regularly Scheduled Sailings: Sailings at regular intervals between the same port ranges, consisting of regular arrivals, regular departures along established routes, which provide predictable Liner type service.

Required Delivery Date (RDD): The date specified in the booking, which is the latest date that cargo must be delivered to final destination for door shipments and provided to consignee for port shipments. Shipper requested RDDs should be in accordance with Exhibit 2 PWS paragraph 3.B.1 to allow for vessel sail times as well as in-land movements when required.

Round Robin: See Spotting of Containers

Route: A connection between one or two trade areas.

Route Index: A connection between two zones that includes the direction of travel.

SEAVAN Service Codes: DTR codes which indicate the extent of service for which the ocean Contractor is paid. Indicates where the ocean Contractor's responsibility for movement begins or ends:

K – At the Contractor's terminal (Pier Service).

L – In the commercial zone of the US port city or, outside the US, within 10 miles of the port city limits. Certain port cities, which are divided into modified zones as listed in this Contract, are assigned codes 1-9 instead of L (Local Drayage).

1-9 – In a modified zone for certain port cities as defined in this Contract. The number codes used correspond with the zone number in the Contract.

M – At any point not covered by codes K, L, or 1-9.

P – Same as Code M, except that one or more scheduled stop-offs in route to final destination have been booked with the ocean Contractor. Does not apply to local deliveries performed at the expense of the Government.

S – Same as Code T, except that one or more stop-offs in route to final destinations have been booked with the Contractor. Does not apply to local deliveries performed at the expense of the Government.

T – Same as Code L, 1-9, or M except cargo is booked as a "Through Shipment" under Single Factor Rate.

Shipper Owned 20/40 foot Containers (SOC): Breakbulk– Government owned/leased container cargo carried by breakbulk and/or RORO operators under the Breakbulk/RORO section.

Short Stop: A change to the terms of a specific booking whereby the Government orders the Contractor to cease further movement beyond the port of debarkation (or a relay port). Usually, the Government takes delivery at such a port. Occasionally, a new booking may be created with movement originating at such a port.

Shutout: Cargo in Contractor's possession that is available for loading onto the booked vessel, but Contractor failed to load onto said vessel. Shutouts are considered Contractor failures for which an Ordering Officer (OO) may not authorize an extended RDD.

Single Factor Rates: Rates that include all charges except for Currency Adjustment Factor (CAF), Bunker Adjustment (BAF), and accessorial ordered in the booking. Single factor rates can apply to point-to-point, point-to-port, or port-to-point movements, but not to port-to-port movements intended for high-volume, high-frequency lanes, Single Factor Rates may not exceed the associated Multi-Factor Rate.

Spotting containers: Positioning empty containers at shipper's facility for loading by the shipper:

Drop and Pick: Contractor delivers an empty container on chassis and picks it up, normally on a later date, after it has been loaded.

Live Load: Contractor delivers an empty container and the driver waits while the shipper loads the container.

Pools: Contractor maintains a pool of empty containers at the shipper's location to use for bookings with the Contractor.

Round Robin Drop and Pick: The Contractor would position one empty container at the shipper's facility. All other deliveries of empty containers would be scheduled with the pickup of loaded containers.

Staging: A delay in commencement of drayage, linehaul or on-carriage transit requested by the Government. Cargo may be staged at the Contractor's terminal, port facility, or at any other location chosen by the Contractor or Government, such as a railhead or barge terminal.

Constructive Staging: When the Government requests cargo be kept in an intermediate location after release and commencement of on-carriage from the discharge port. Cargo may be staged at any location chosen by the Contractor or Government, such as carrier holding yard, railhead or barge terminal.

Port Staging: A delay in commencement of drayage, linehaul or any other transportation mode prior to the cargo departing from the port. Contractor may request port staging to be approved by the OO if delivery date is later than RDD. The Contractor shall submit a pass-through port storage invoice for the additional costs resulting from port staging.

Trade Area: A geographic area used to establish routes.

Transloading service: Accessorial service provided by the Contractor. Transloading services include all labor, material, and equipment necessary to transfer cargo from one conveyance to another, to include intra-terminal transfers.

TRICON: Shipper Owned Container; three TRICONS have the same external dimensions as a 20-foot shipping container when linked. For rate calculation purposes, linehaul rates will be applied in accordance with Attachment 3, paragraph 1.2.10, and individual accessorial will be applied if booked as breakbulk.

Unit of Measure: For breakbulk cargo the Unit of Measure shall be per Measurement Ton except in cases where Long Tons will generate the highest revenue. For containerized cargo the Unit of Measure shall be per container.

US Flag Service:

Full Service (P1): Service where cargo is only loaded on US Flag ships between ports of embarkation and final port of debarkation.

Combination Service (P2): Service where the cargo is loaded on two or more vessels to complete the ocean movement, at least one of which is a US Flag ship and at least one of which is a Foreign-Flag ship.

Vessel Demurrage: The charge assessed by the Contractor for vessel delays due to delayed loading or discharge operations at Government operated terminals.

Vessel Status Code: The first position of the code describes the type of contract. Codes starting with a F are for SDDC commercial breakbulk bookings and codes starting with a W are for SDDC commercial container bookings. The second indicates whether Government or Contractor is responsible for vessel load and delivery of cargo to/from port. The 2nd Position (Term of Carriage) codes are as follows:

Code	POE	POD
1.	Free-in	Free-out
2.	Liner-in	Liner-out
3.	Free-in	Liner-out
4.	Liner-in	Free-out
5.	Door/Liner-in	Free-out
6.	Door/Liner-in	Liner-out
7.	Free-in	Liner-out/Door
8.	Liner-in	Liner-out/Door
9.	Door/Liner-in	Liner-out/Door

Wheeled or Tracked Vehicles: (Unboxed and Containerized) - Includes all types of unboxed, land or amphibious vehicles, set up on wheels or tracks, whether or not self-propelled.

Zone: A group of water ports within a trade area that proved endpoints for route indices.

## ATTACHMENT 12 TRADE AREAS AND ZONES

### 1. Trade Areas

Africa: Includes all ports on the continent of Africa, and nearby islands detailed in paragraph 2.10 of this attachment.

Alaska: Includes all ports in the state of Alaska, including all islands within the state.

Azores: Includes all ports in Azores Islands.

Black Sea: Includes all ports in Bulgaria, Romania, Ukraine, Georgia, and Black Sea ports in Russia and Turkey.

Caribbean: Includes ports in the Caribbean Area and the following countries/islands: Bahamas, Turks and Caicos, Aruba, Curacao, Bonaire, Bermuda Islands, Cuba, Caymans, Dominican Republic, Haiti, Jamaica, Lesser Antilles, Puerto Rico, Grenadines, Barbados, Grenada, St Vincent, St Lucia, Martinique, Dominica, Guadeloupe, Antigua, Barbuda, Montserrat, Saba, St Kitts/Nevis, St Barthelemy, Anguilla, St Martin/Maarten, Trinidad, Tobago, US Virgin Islands (St. Croix, St. Thomas, St. John), Antigua.

Central America/Mexico: Includes ports within the following countries: Belize, Costa Rica, El Salvador, Guatemala, Honduras, Mexico, Nicaragua, and Panama.

Continental Europe & United Kingdom & Ireland: Includes all ports within the British Isles (England, Scotland, Wales, Northern Ireland and Republic of Ireland, and nearby islands in the territory of the United Kingdom or Ireland including but not limited to the Isle of Man and the Shetland Islands) and ports on the north and west coasts of continental Europe from Germany to the northwestern junction of Spain and Portugal – including all ports in Germany, Netherlands, Belgium, France (excluding Mediterranean Coast), and Spain (Bay Biscay and northwestern ports only). Also includes Faroe Islands, and the Channel Islands including Jersey and Guernsey)

Far East Area: Includes ports within the following countries, areas, islands, and island groups; Japan including Ryukyu Islands (Okinawa) and Bonin Islands; Russian Far East; North and South Korea; China (PRC, Hong Kong, Macau, Taiwan); Philippines, Indonesia, Malaysia, Singapore, Vietnam, Cambodia, Thailand, and East Timor/Timor Leste.

Hawaii: Includes all ports on the islands of: Kahoolawe, Kauai, Kure Island, Lanai, Hawaii, Maui, Molokai, Niihau, Oahu, and Tern Island.

Iceland: Includes all ports in Iceland.

Mediterranean Area: Includes ports in Portugal, Spanish ports between the boundary of Portugal and Gibraltar, ports of the Mediterranean and arms thereof, including the Bosphorus and inlands or island groups within the Mediterranean, but does not include ports of the Black Sea: The Mediterranean is subdivided into three zones Adriatic Sea, Eastern Mediterranean and Western Mediterranean.

Middle East, South Asia, and Indian Ocean: Includes ports in the Red Sea (Excluding Africa), Gulf of Aqaba, Gulf of Suez, Gulf of Aden, Arabian Sea, Gulf of Oman, Persian Gulf, Bay of Bengal, Andaman Sea; and Indian Ocean ports in India, Sri Lanka, Yemen, and Oman. Includes Maldives and Burma/Myanmar.

Oceania: Includes ports in American Samoa, Australia, New Zealand, Micronesia, Northern Marianas Islands, Kiribati, Marshall Islands, Johnston Island, Marcus Island, Palau, French Polynesia, Cook Islands, Tonga, Samoa, Tuvalu, Fiji, Wallis and Futuna, Papua New Guinea, Solomon Islands, New Caledonia, Vanuatu, Guam, Federated States of Micronesia.

Scandinavia/Baltic: Includes ports in Estonia, Latvia, Lithuania, Poland, Norway, Denmark, Finland, Sweden and Russian ports on the Gulf of Finland and Baltic Sea (Kaliningrad region).

South America: Includes ports in Venezuela Colombia, Ecuador (including Galapagos Islands), Peru, Chile, Argentina, Falkland Islands, Uruguay, Brazil, Suriname, French Guiana, and Guyana.

US East Coast: Includes ports in Maine, New Hampshire, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, and Maryland, Virginia, North Carolina, South Carolina, Georgia, and the Atlantic coast of Florida as far south as Key West (inclusive). Excludes Great Lakes ports in New York and

Pennsylvania. When liner term service is ordered and provided, the US East Coast (North) includes all locations from Maine to Maryland, and the US East Coast (South) includes all locations from Virginia to Key West, Florida (inclusive).

US Gulf Coast: Includes ports in Texas, Louisiana, Mississippi, Alabama, and the Gulf Coast ports of Florida.

US West Coast: Includes ports in California, Oregon, and the State of Washington.

## 2. Zones

The routes in this contract have been structured into zones so that countries/ports can be grouped to best reflect market conditions and minimize the number of rates to be submitted by Contractors. Ocean rates apply on a zone-to-zone basis. Below is a description of the zones included in each area and of the ports that are included in each zone. The zones in each list are numbered. This numbering does not match the naming of Route Index /Zone used in the Integrated Booking System (IBS) application and Rate Guide.

The rates are directional for service between different zones of the same area. Rates for service within zones are non-directional except for intra-zone Northeast (N.E.) Asia.

The service provided by Contractors who provide rates for specific zones shall be reflected in vessel schedules maintained within the booking office.

### 2.1 Far East

#### 2.1.1 Applies for service to/from CONUS and North East Asia intrazone

	Country/Port Description
1	South Korea
2	Okinawa
3	Philippines
4	Malaysia
5	Singapore
6	Thailand
7	China
8	Hong Kong and Macau
9	Indonesia and East Timor
10	Taiwan
11	Vietnam
12	Japan
13	Cambodia
14	Russian Far East

#### 2.1.2 Applies to all other service

<u>Group Zone</u>	<u>Countries</u>
N.E. Asia:	Japan (incl. Okinawa), Korea, & Russian Far East
Chinas:	China, including Hong Kong, Macau & Taiwan
Southeast (S.E.) Asia:	Indonesia, East Timor, Malaysia, Philippines, Singapore, Thailand, Vietnam, Cambodia & Laos

The rates are directional between Group zones and within intra-zone N.E. Asia. Within Intra-zones Chinas and Southeast Asia rates are “between rates.”

2.2 Continental Europe and United Kingdom and Ireland

Includes all ports within the British Isles (England, Scotland, Wales, Northern Ireland and Republic of Ireland, and nearby islands in the territory of the United Kingdom or Ireland including but not limited to the Isle of Man and the Shetland Islands) and ports on the north and west coasts of continental Europe from Germany to the northwestern junction of Spain and Portugal – including all ports in Germany, Netherlands, Belgium, France (excluding Mediterranean Coast), and Spain (Bay Biscay and northwestern ports only). Also includes Faroe Islands, and the Channel Islands including Jersey and Guernsey).

2.3 Mediterranean

The Mediterranean area is divided into three zones:

2.3.1 Western Mediterranean shall embrace the coastline from the north Portugal - Spain border until the southernmost point on mainland Italy and includes ports in:

Portugal  
Spain (excluding north and northwest coasts, includes Spain's Mediterranean islands, and Spanish North African enclaves of Ceuta and Melilla)  
Gibraltar  
France (Mediterranean coast and islands, including Corsica)  
Monaco  
Italy (Tyrrhenian and Ligurian coasts, West Coast of Italy as far south as Melito di Porto Salvo inclusive, and islands to the west of the mainland, including Sardinia and Sicily,)  
Malta  
Other islands lying within the zone except those in the territory of Morocco, Algeria, and Tunisia

2.3.2 Eastern Mediterranean shall embrace the remaining area in the Mediterranean located east of Melito di Porto Salvo, Italy, except for (a) ports in Africa, (b) ports in the Black Sea, and (c) those areas identified in Zone 3 (Adriatic Sea) and includes ports in:

Cyprus (entire island)  
Greece (including Crete and all other Greek islands)  
Israel (Mediterranean coast, excludes Eilat)  
Italy (south coast only, between Melito di Porto Salvo and Otranto. Includes Otranto.)  
Lebanon  
Syria  
Turkey (Mediterranean ports including the Bosphorus but not including the Black Sea)  
Other islands lying within the zone

2.3.3 Adriatic Sea includes ports in:

Italy (Adriatic coast only, north of Otranto, excluding Otranto)  
Croatia  
Slovenia  
Montenegro  
Albania  
Islands lying within the Adriatic Sea

2.4 Central America/Mexico

Central America/Mexico is divided into zones as follows.

2.4.1 Central America/Mexico West Coast (WC)

Mexico (WC)  
Guatemala (WC)  
El Salvador  
Honduras (WC)  
Nicaragua (WC)

2.4.2 Central America/Mexico East Coast (EC) (except Honduras)

Mexico (EC)  
Belize  
Guatemala (EC)

2.4.3 Nicaragua (EC) \Honduras East Coast

2.4.4 Panama/Costa Rica

Panama  
Costa Rica

2.5 Caribbean

The Caribbean is divided into zones as follows:

	<u>Zone</u>	<u>Includes</u>
1	Bahamas Area	Bahamas Turks and Caicos
2	Eastern Caribbean	Aruba Curacao Bonaire Trinidad & Tobago Grenadines Barbados Grenada St Vincent St Lucia Martinique Dominica Guadeloupe Barbuda Montserrat Saba St Kitts/Nevis St Barthelemy Anguilla St Martin/Maarten British Virgin Islands
3	Jamaica/Cayman Islands/ Dominican Republic/Cuba	Cayman Islands Jamaica Dominican Republic Cuba

	<u>Zone</u>	<u>Includes</u>
4	Haiti	Haiti
5	Puerto Rico	Puerto Rico
6	US Virgin Islands	US Virgin Islands
7	Bermuda	Bermuda

2.6 Scandinavia/Baltic

	<u>Zone</u>
1	Norway East: South Norway ports east of and including Kristiansand
2	Norway West: Norway ports North of Kristiansand (not inclusive) to Trondheim area (inclusive)
3	Norway North: Norway ports north of Trondheim (not inclusive) and including Tromso port range
4	Sweden
5	Finland
6	Denmark
7	Estonia
8	Latvia
9	Lithuania
10	Poland
11	Russian West Coast (ports on the Gulf of Finland and Baltic Sea / Kaliningrad region)

2.7 Middle East, South Asia, and Indian Ocean Area

	<u>Zone</u>	<u>Description</u>
1	Kuwait	Kuwait
2	Persian Gulf and Gulf of Oman	Saudi Arabia (Persian Gulf Ports) United Arab Emirates (UAE) Bahrain, and Oman north of Muscat (includes Port of Sultan Qaboos / Muscat)
3	Arabian Sea	Oman (south of Muscat) Yemen
4	Pakistan and India West Coast Ports	Pakistan India (WC)
5	Reserved	Reserved
6	Gulf of Aqaba, Gulf of Suez, and Red Sea	Jordan Saudi Arabia (West Coast/Red Sea ports) Eilat, Israel

<u>Zone</u>		<u>Description</u>
7	Bay of Bengal and Andaman Sea	India (EC), Burma (Myanmar) Sri Lanka Bangladesh Maldives
8	Iraq	Iraq
9	Qatar	Qatar

## 2.8 South America

South America includes the following zones:

### 2.8.1 East Coast of South America (zone/countries):

- 1 Colombia (Caribbean ports)
- 2 Brazil
- 3 Uruguay
- 4 Argentina
- 5 French Guiana/Guyana/Suriname
- 6 Venezuela

### 2.8.2 West Coast of South America (zone/countries):

- 7 Colombia (Pacific ports)
- 8 Ecuador
- 9 Peru
- 10 Chile

## 2.9 Oceania

Oceania includes the following zones:

	<u>Zone</u>	<u>Includes</u>
1	Australia	Australia
2	New Zealand	New Zealand
3	Northern Marianas Islands	Saipan Tinian Rota
4	Guam	Guam
5	American Samoa	American Samoa
6	Kwajalein	Kwajalein Atoll, Marshall Islands
7	North Central Pacific	Johnston Island Marcus Island
8	Micronesia	Federated States of Micronesia
9	Marshall Islands	Marshall Islands except Kwajalein Atoll
10	Coral Sea	Papua New Guinea

		Solomon Islands New Caledonia Vanuatu
11	South Pacific	French Polynesia Cook Islands Tonga Samoa Tuvalu Fiji Wallis and Futuna
12	Palau	Palau
13	Kiribati	Kiribati

## 2.10 Africa

Africa includes the following zones:

	<u>Zone</u>	<u>Includes</u>
1	North Africa	Morocco (Mediterranean ports only up to but not including Tangier), Egypt (Mediterranean ports Only), Algeria, Tunisia, and Libya
2	East Africa	Egypt (excluding Mediterranean ports), Sudan, Eritrea, Djibouti, Somalia, Kenya, Tanzania
3	Southern Africa	Mozambique, South Africa, Namibia
4	Central Africa	Angola to Cameroon
5	West Africa	Nigeria to Morocco (Atlantic Ocean Ports Only up to and including Tangier). Includes ports in Sao Tome and Principe
6	Madagascar	Madagascar, Mauritius, Mayotte, Comoros, Reunion & Seychelles
7	Ascension Island	Ascension Island & Saint Helena
8	Cape Verde	Cape Verde, Madeira & Canary Islands

## 3. Designated Ports with Port Arbitraries

Contractors may establish port arbitraries, by the effective date of the contract, for selected countries/ports when ocean rates have not been provided for the route/zone designated to service this area (Group A) or the Contractor's service profile for a route/zone does not include regular service to the specific country/port (Group B). The port arbitrary surcharge is used in conjunction with an accepted ocean rate for a route/zone to link the service on the route/zone with the feeder service to the area (Group A) or port (Group B) covered by the port arbitrary. Arbitraries established after the effective date of the contract are subject to the Contractor Protection from Competition Clause. Port arbitraries may be provided for the following countries/ports:

3.1 Port Arbitrary Group A (areas)

1. Black Sea Ports (Bulgaria, Romania, Georgia, Ukraine, and ports on the Black Sea in Turkey and Russia)
2. Cyprus
3. Iraq
4. Areas in Scandinavia/Baltic:
  - a. Denmark
  - b. Sweden
  - c. Finland
  - d. Estonia
  - e. Latvia
  - f. Lithuania
  - g. Poland
  - h. Russian West Coast (as defined in 2.6)
  - i. Norway East (as defined in 2.6)
  - j. Norway North (as defined in 2.6)
  - k. Norway West (as defined in 2.6)
5. Qatar

3.2 Port Arbitrary Group B (specific ports)

1. Darwin (Australia)
2. Zamboanga (Philippines)

NOTE:	> In accordance with DFARS 252.247-7026, the offeror shall provide the following information with its offer, addressing all covered vessels for which overhaul, repair, and maintenance work has been performed during the period covering the current calendar year, up to the date of proposal submission, and the preceding four calendar years. > Offerors having less than 100% of covered vessels serviced in U.S. shipyards may provide a <b>letter of non-availability, signed by the U.S. Shipyard authority and carrier</b> , demonstrating "no bid" or "non availability" from the U.S. shipyards in response to the carriers' solicitations for repair, overhaul, or maintenance of covered vessels. This documentation may be used to credit the carrier in the evaluation of shipyard repairs with regard to the repair money spent and total days in repair in U.S. shipyards. For purposes of this report, IAW DFARS 252.247-7026, a "U.S. shipyard" means a shipyard that is located in any State of the United States or in Guam. A "foreign shipyard" means a shipyard that is not a U.S. shipyard. > Fields marked with an '*' are calculated fields.											

**COMPANY LETTERHEAD**

Date:

MEMORANDUM FOR: TCAQ and SDDC

SUBJECT: USC-10 Container Pool Establishment Agreement

1. In accordance with USC-10 PWS, paragraph 6.E COMPANY NAME will establish and maintain a container pool at COMMAND below location:

LOCATION ADDRESS  
LOCATION ADDRESS  
LOCATION ADDRESS

2. The container pool will consist of the following equipment:

QUANTITY	EQUIPMENT TYPE
30	40' Dry High Cube
2	20' Dry Container
4	40' Flatrack

3. COMPANY and COMMAND agree to adhere to the below conditions in order to properly establish and maintain the requested container pool.

- a. Containers in the pool will be used for USC shipments only regardless of destination Geographic Combatant Command (GCC).
- b. Containers will only be stuffed upon receipt of an awarded booking with the appropriate USC contractor.
- c. COMMAND will ensure containers provided by COMPANY will only be used for COMPANY's USC bookings. COMPANY's equipment will not be released to or used by other carriers.
- d. COMPANY is responsible to provide equipment in good working order and condition.
- e. COMMAND will ensure maintenance of container(s) and chassis while in the container pool.
- f. COMMAND will ensure empty refrigerated equipment remains turned off until it is being prepared for loading.
- g. COMMAND will notify the USC contractor and cognizant SDDC BDE OCCA QAO of any missing, damaged, improperly used, or unusable containers within 3 business days of identification.
- h. COMMAND will exercise the first in/first out (FIO) policy to prevent dwell of empty containers.
- i. COMMAND will ensure containers are loaded and available for pickup as annotated in the booking with correct documentation.
- j. COMMAND will notify COMPANY that a container is available for pickup. The container will then be considered loaded and no longer part of the pool.
  - i. The COMPANY will replace the container when it picks-up the loaded container unless notified by the COMMAND.
  - ii. COMMAND will notify the COMPANY if waiting for the loaded container to be picked-up would cause a work stoppage and replacement is required by the next business day.
- k. COMPANY will notify TCAQ and SDDC if an increase in equipment quantity is needed.

4. For reduction or disestablishment of container pools:
  - a. COMMAND will coordinate with COMPANY if a reduction or disestablishment of container pools is needed, and an updated Container Pool Memo will be provided to TCAQ and SDDC.
  - b. COMMAND will effectively manage and track the container pool(s) to prevent dwell time of empty containers. For container(s) that dwell unused in pool location(s) for more than 30 calendar days, COMPANY is authorized to reduce quantity of equipment type.
    - i. COMPANY will notify COMMAND, SDDC BDE OCCA QAO and TCAQ of its intention to reduce equipment quantity.
  - c. COMMAND will ensure empty containers are easily accessible for pickup by contractor.
  - d. The pick-up of empties from container pool and/or dis-establishment of container pools will be at no additional cost to the USG.
5. COMMAND or COMPANY will notify the cognizant SDDC BDE OCCA QAO of any issues relating to container pools.

I, COMMAND REP NAME/COMMAND understand my responsibilities above in managing and maintaining a container pool and will ensure compliance for each established container pool. Non-compliance with any items identified above will result in reduction or dis-establishment of the container pool.

**ORDERING PROCEDURES**  
**CONTRACTOR SELECTION**  
**“FAIR OPPORTUNITY PROCESS”**

**1. Fair Opportunity to Compete**

1.1. Fair Opportunity to Compete for Task Order (booking) Awards: Under the multiple award contracts, fair opportunity for booking awards is provided through a “best value” booking process detailed below. Only appointed Ordering Officers (OO) are authorized to book orders. The OOs are responsible for evaluating shipment requirements and for making independent best value booking decisions.

1.2. Ordering: IAW FAR 16.505, Ordering, all multiple award Contractors shall be provided a fair opportunity to be considered for each order in excess of \$10,000.00 pursuant to the procedures established in this section, unless the Contracting Officer (or OO) determines that:

1.2.1. The agency’s need for the services or supplies is of such urgency that providing such opportunity to all such Contractors would result in unacceptable delays.

1.2.2. Only one such Contractor is capable of providing the services or supplies at the level of quality required because the services or supplies ordered are unique or highly specialized.

1.2.3. The task/delivery order should be issued on a sole source basis in the interest of economy or efficiency because it is a logical follow-on to an order already issued under the contract, provided that all awardees were given a fair opportunity pursuant to the procedures in this clause to be considered for the original order.

1.2.4. It is necessary to place an order to satisfy a minimum guarantee.

1.3. All bookings will be awarded in accordance with the Cargo Preference Act of 1904, with a priority given to Contractors enrolled in Voluntary Intermodal Sealift Agreement (VISA).

**2. Ordering Process for Cargo Bookings:**

2.1. This Contract allows for cargo bookings based on a “best value” concept.

2.2. The best value analysis will consider the following factors and sub-factors:

2.2.1. Technical – the OO first evaluates potential Contractors on a pass/fail basis to determine which Contractors can meet the following technical requirements for the shipment or group of shipments that the OO requires to move together:

2.2.1.1. Can meet or exceed RDD based on Contractor submitted vessel schedules in Integrated Booking System (IBS).

2.2.1.2. Has awarded rates for all required services and accessorials

2.2.1.3. Has required equipment and vessel type

2.2.1.4. Meets international, national, local and DoD statutory and regulatory requirements for the commodity, hazard and security classification, category or threat

2.2.1.5. Can meet hard Available Load Date (ALD) based on Contractor submitted vessel schedules in IBS

2.2.2. U.S. Flag and VISA Priorities – Contractors offering a higher U.S. Flag priority and (if equal U.S. Flag priorities) are a VISA participant will be given priority when all technical factors in 2.2.1. are met. The order of

service priority is U.S. Flag service (P1), combination of U.S. Flag and foreign flag service (P2), and foreign flag service (P3).

2.2.3. In accordance with DFARS 252.247-7026, the Government must provide an evaluation criterion that considers the extent to which the offeror has had overhaul, repair, and maintenance work for covered vessels performed in U.S. shipyards. U.S. Domestic Shipyard preferences and evaluation will be applied at the task order (booking) level. The preference applied at the task order (booking) level will be applied as follows:

2.2.3.1. Offerors will be evaluated as “1” (highest) or “2” (lowest) based on the formula below:

$$((\text{Repair Money Spent in US} / \text{Total Repair Money Spent}) + (\text{Days of Repair in US} / \text{Total Days of Repair})) / 2 =$$
  
Preference Category “1” or “2.”

- (i) All calculations are based on total number of ships owned by the carrier – whether used on this contract or not.
- (ii) Calculation will NOT include any days or money falling under the exceptions listed at PGI 247.573(b)(2)(iii)(C)(1) and (2) – this means excluding the amount from the “total” as well as from the “in US” numbers.
- (iii) See Exhibit 2, PWS, Attachment 13, Domestic Shipyard Report template for calculation credits.
- (iv) The calculation will be rounded to the nearest tenth (i.e. – 38.7%)

2.2.3.2. The following will be the criteria followed in determining carrier evaluation under the Jones Act:

- (i) Base Period – 15% or more of vessels serviced within US Shipyards will receive a preference of “1” and 14.9% and below will receive a preference “2.”
- (ii) 1st Option Period - 20% or more of vessels serviced within US Shipyards will receive a preference of “1” and 19.9% and below will receive a preference “2.”
- (iii) 2nd Option Period - 25% or more of vessels serviced within US Shipyards will receive a preference of “1” and 24.9% and below will receive a preference “2.”
- (iv) 3rd Option Period - 30% or more of vessels serviced within US Shipyards will receive a preference of “1” and 29.9% and below will receive a preference “2.”
- (v) 4th Option Period - 35% or more of vessels serviced within US Shipyards will receive a preference of “1” and 34.9% and below will receive a preference “2.”

2.2.4. Best Value Determination – if two or more Contractors meet above criteria under 2.2.1., 2.2.2., and 2.2.3., (as applicable), bookings shall be awarded based on the best (lowest) Best Value Number (BVN). BVN is calculated as the numerical value of the total dollar cost of the task order (to include accessories) divided by the Composite Score. The Composite score (except for certain low volume lanes as described in Exhibit 2, PWS, Section 3) consists of two scores: a Lane Score (LS) weighted at 90%, typically (Geographic Combatant Command (GCC) to GCC, and a Worldwide Score (WS) weighted at 10%. The score is a number ranging from 0 to 1; for example, it would be 0.84 (=84%) if carrier’s worldwide score were 75%, and score on the lane in question were 85%.  $(.9 * .85) + (.1 * .75) = .84$ .

2.2.5. The OO reserves the right to book orders to other than the lowest BVN carrier.

2.2.6. Direct Booking agencies may develop their own best value criteria that prioritizes their mission needs but may not deviate from the other factors of the ordering process (e.g., cargo preference).

### **3. Ordering Process for Cargo Bookings Incorporating Readiness Evaluation Factors:**

3.1. Enclosure 6.3 of Department of Defense Instruction (DoDI) 4500.57, Transportation and Traffic Management (September 23, 2019) states: "The DoD relies on TSPs for the transportation of a significant portion of its wartime and peacetime cargo. The relationship between the DoD and the commercial sector is critical to mobilization, deployment, and sustainment of military forces. VISA provides assured access to U.S.-flag commercial ocean transportation to support emergency deployment and sustainment of U.S. military forces. VISA carriers contractually pledge their vessels and intermodal systems capacities in return for priority of DoD peacetime business. "

3.2. USTRANSCOM's mission is to conduct globally integrated mobility operations, lead the broader Joint Deployment and Distribution Enterprise (JDDE), and provide enabling capabilities in order to project and sustain the Joint Force in support of national objectives. In support of the assigned readiness requirement, USTRANSCOM, may include an additional strategic readiness evaluation factor on individual task orders. The strategic readiness evaluation factor will evaluate the capability a carrier brings in support of the USTRANSCOM readiness mission to provide commercial sea transportation and terminal capability to support the global deployment, employment, sustainment, and redeployment of U.S. forces pursuant to the Unified Command Plan.

3.3. Cargo bookings which include a readiness evaluation factor will not be booked in accordance with Exhibit 3, Section 2. A Best Value determination will be made based on the criteria identified at the time the readiness evaluation factor is incorporated.

#### **4. Ordering Process for One-Time-Only (OTO) Task Order/Bookings:**

4.1. If no one Contractor has all required rates or meets the technical requirements listed under paragraph 2.2.1. to receive a task order (booking), an OTO rate shall be solicited via a Request for Quote (RFQ). The RFQ shall be sent to all Contractors for quote. Contractors shall return the RFQ by the closing date specified in the RFQ. Contractor shall furnish a vessel sharing agreement or equivalent document, if the quote includes a vessel owned/operated by another USC-10 Contractor. Failure to provide all required information with the quote may cause the quote to be non-compliant and not considered further.

4.2. OTO Task Orders are evaluated and booked in accordance with the following:

4.2.1. Technical – the OO first evaluates potential Contractors on a pass/fail basis to determine which Contractors can meet the following technical requirements for the shipment or group of shipments that the OO requires to move together:

4.2.1.1. Can meet or exceed RDD based on Contractor submitted vessel schedules in IBS.

4.2.1.2. Has required equipment and vessel type

4.2.1.3. Meets international, national, local and DoD statutory and regulatory requirements for the commodity, hazard and security classification, category or threat

4.2.1.4. Can meet hard ALD based on Contractor submitted vessel schedules in IBS

4.2.1.5. Minimum Guarantee. The Government may consider quotes containing a minimum guarantee for the ocean rates if determined to be in the best interest of the Government. If proposing minimum guarantee ocean rates in response to the OTO RFQ, carriers shall list a required "minimum guaranteed ocean cargo requirement percentage (e.g., 50%, 75%, etc.) to be moved." This information shall be annotated in the "additional info" block of the RFQ in order for it to be considered.

4.2.2. U.S. Flag and VISA Priorities – Contractors offering a higher U.S. Flag priority and (if equal U.S. Flag priorities) are a VISA participant will be given priority when all technical factors listed under 2.2.1 are met. The order of service priority is P1, P2, and P3.

4.2.3. Domestic Shipyard Preference – In accordance with DFARS 252.247-7026, the Government must provide an evaluation criterion that considers the extent to which the offeror has had overhaul, repair, and maintenance work for covered vessels performed in U.S. shipyards. U.S. Domestic Shipyard preferences and evaluation will be applied at the task order (booking) level. The preference applied at the Task Order (booking) level will be applied as follows:

4.2.3.1. Offerors will be evaluated as “1” (highest) or “2” (lowest) based on the formula below:

$$((\text{Repair Money Spent in US} / \text{Total Repair Money Spent}) + (\text{Days of Repair in US} / \text{Total Days of Repair})) / 2 =$$
  
Preference Category “1” or “2.”

- (i) All calculations are based on total number of ships owned by the carrier – whether used on this contract or not.
- (ii) Calculation will NOT include any days or money falling under the exceptions listed at PGI 247.573(b)(2)(iii)(C)(1) and (2) – this means excluding the amount from the “total” as well as from the “in US” numbers.
- (iii) See Exhibit 2, PWS, Attachment 13, Domestic Shipyard Report template for additional calculation credits.
- (iv) The calculation will be rounded to the nearest tenth (i.e. – 38.7%)

4.2.3.2. The following will be the criteria followed in determining carrier evaluation under the Jones Act:

- (i) Base Period – 15% or more of vessels serviced within US Shipyards would receive a preference of “1” and 14.9% and below would receive a preference “2.”
- (ii) 1st Option Period - 20% or more of vessels serviced within US Shipyards would receive a preference of “1” and 19.9% and below would receive a preference “2.”
- (iii) 2nd Option Period - 25% or more of vessels serviced within US Shipyards would receive a preference of “1” and 24.9% and below would receive a preference “2.”
- (iv) 3rd Option Period - 30% or more of vessels serviced within US Shipyards would receive a preference of “1” and 29.9% and below would receive a preference “2.”
- (v) 4th Option Period - 35% or more of vessels serviced within US Shipyards would receive a preference of “1” and 34.9% and below would receive a preference “2.”

4.2.4. Best Value Determination – if two or more Contractors meet above criteria under 4.2.1., 4.2.2., and 4.2.3., (as applicable), bookings shall be awarded based on the best (lowest) Best Value Number (BVN). BVN is calculated as the numerical value of the total dollar cost of the task order (to include accessories) divided by the Composite Score. The Composite score (except for certain low volume lanes as described in Exhibit 3, PWS, Section 3) consists of two scores: a Lane Score (LS) weighted at 90%, typically COCOM to COCOM, and a Worldwide Score (WS) weighted at 10%. The score is a number ranging from 0 to 1; for example, it would be 0.84 (=84%) if carrier’s worldwide score were 75%, and score on the lane in question were 85%.  $(.9 * .85) + (.1 * .75) = .84$ .

4.2.5. The OO reserves the right to book orders to other than the lowest BVN carrier.

4.3 The Contractor shall submit a vessel schedule in IBS and provide the Voyage Document Number (VOYDOC) within 24 hours for non-HAZMAT cargo and 48 hours for HAZMAT cargo of OTO award notification by the Government via the Pipeline Asset Tool (PAT) OTO portal. Failure to provide the vessel schedule within applicable timeframe of notification may result in the Contractor losing the booking.

4.4 The PAT OTO portal will be used to identify which Contractor received the Task Order, flag of service, and awarded OTO price.

4.5 The terms and conditions of the USC-10 contract apply to awarded OTOs.

4.6. For any changes to the OTO after initial award, the Contractor shall only take direction from authorized agents (i.e., Contracting Officers, CORs, and OOs).

"REGISTER OF WAGE DETERMINATIONS UNDER THE SERVICE CONTRACT ACT By direction of the Secretary of Labor		U.S. DEPARTMENT OF LABOR EMPLOYMENT STANDARDS ADMINISTRATION WAGE AND HOUR DIVISION WASHINGTON D.C. 20210
Daniel W. Simms Director	Division of Wage Determinations	Wage Determination No.: 2010-0147 Revision No.: 20 <b>Date Of Last Revision: 12/26/2023</b>

Note: Contracts subject to the Service Contract Act are generally required to pay at least the applicable minimum wage rate required under Executive Order 14026 or Executive Order 13658.

If the contract is entered into on or after January 30, 2022, or the contract is renewed or extended (e.g., an option is exercised) on or after January 30, 2022:	Executive Order 14026 generally applies to the contract. The contractor must pay all covered workers at least \$17.20 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in 2024.
If the contract was awarded on or between January 1, 2015 and January 29, 2022, and the contract is not renewed or extended on or after January 30, 2022:	Executive Order 13658 generally applies to the contract. The contractor must pay all covered workers at least \$12.90 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in 2024.

The applicable Executive Order minimum wage rate will be adjusted annually. Additional information on contractor requirements and worker protections under the Executive Orders is available at [www.dol.gov/whd/govcontracts](http://www.dol.gov/whd/govcontracts).

NATIONWIDE: This wage determination applies to the United States East, Gulf and West Coasts

**\*\*Fringe Benefits Required Follow the Occupational Listing\*\***

Employed on contract for operation and maintenance of deep sea vessels in the above locality (based on Union Dominance (Seafarers International Union):

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors, applies to all contracts subject to the Service Contract Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is the victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at [www.dol.gov/whd/govcontracts](http://www.dol.gov/whd/govcontracts).

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: 1. Health and Welfare and Pension Contribution: \$101.21 per man, per day.

2. Paid Vacation: Employer contribution of 58% of the daily base wage per man, per day.

3. Holidays: Eleven (11) paid Holidays per year - New Year's Day, Martin Luther King Jr.'s Birthday, President's Day, Memorial Day, Juneteenth National Independence Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day.

4. Training and Hiring Fund: \$31.50 per man, per day.

5. Money Purchase Pension Contribution: Employer contribution of 5% of the daily base wage per man, per day.

6. **Penalty Rates:** The rates specified below shall be paid for following work.

A. Penalty Cargoes, Longshore Work, Restriction to Ship, Removing Soot from the bottom Stack, Cleaning Bilges and Oil Spills, Steering Engine Room and Bow Thruster Room.

OFF WATCH: Monday through Friday Group I \$43.58; Group II \$25.88, Group III \$23.02.

ON WATCH: Saturdays, Sundays, and Holidays Group I \$40.86; Group II \$27.94, Group III \$21.84.

#### B. Tank Cleaning:

OFF WATCH: Monday through Friday: Group I \$43.58; Group II \$31.15; Group III \$26.41

ON WATCH: Saturdays, Sundays, and Holidays: Group I \$57.28; Group II \$41.23; Group III \$38.08

#### C. Explosives

When the Unlicensed personnel is required to work explosives at any time, they shall be paid for such work in addition to their regular monthly wages at the rate of ten dollars (\$10.00) per hour unless a higher rate is specified.

#### GENERAL NOTE

I. In determining the class of vessel, horsepower shall be taken from the Record of the American Bureau of Shipping and admeasurement of tonnage as determined by the U. S. Coast Guard, Marine Inspection, Admeasurement Section. Power tonnage is the sum of the gross tons figure added to the horsepower figure.

#### Classification of Vessels

CLASS	SINGLE SCREW	POWER TONNAGE
A-4		70,
001 AND OVER		
A-3		45,
001 TO 70,000		
A-2		35,
001 TO 45,000		
A-1		25,
001 TO 35,000		

A				17,

B				12,
001 TO	17,000			
C				
7,501 TO	12,000			
D				
5,001 TO	7,500			
E		TWIN SCREW	LESS THAN	5,001
A-4				51,
000 AND OVER				
A-3				35,
001 TO	51,000			
A-2				28,
001 TO	35,000			
A-1				20,
001 TO	28,000			
A				
15,001 TO	20,000			
B				
9,001 TO	15,000			
C				
5,501 TO	9,000			
D				
3,501 TO	5,500			
E				
LESS THAN	3,501			

II. Terms utilized in this wage determination not otherwise defined herein shall have meanings and definitions as utilized in the U.S. Coast Guard Regulations and Policy issued pursuant to Title 46 USC and as published by the U.S. Coast Guard in the following publications and others:

1. 46 CFR Parts 1, 10, 15, 26, 35, 157, 175, 185, 186, and 187 as published in the U.S. Federal Register.
2. U.S. Coast Guard Commandant Instruction COMDTINST MI6000.3, Marine Safety Manual, Volume III-Marine Industry Personnel.

III. The term ""service employee"" does not include any employee who qualifies as an executive, administrative, or professional employee as those terms are identified in Regulations, Part 541, issued under the Fair Standards Act. (See CFR, Part 541.)

IV. Subsistence and Quarters: Subsistence and quarters of equivalent value thereof may not be credited toward the provision of minimum wages and fringe benefits required herein.

V. This wage determination applies to United States East, West, and Gulf Coasts.

#### \*\* UNIFORM ALLOWANCE \*\*

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage

determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

**\*\* SERVICE CONTRACT ACT DIRECTORY OF OCCUPATIONS \*\***

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition (Revision 1), dated September 2015, unless otherwise indicated.

**REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE  
Standard Form 1444 (SF-1444)**

**Conformance Process:**

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined (See 29 CFR 4.6(b)(2)(i)). Such conforming procedures shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees (See 29 CFR 4.6(b)(2)(ii)). The Wage and Hour Division shall make a final determination of conformed classification, wage rate, and/or fringe benefits which shall be retroactive to the commencement date of the contract (See 29 CFR 4.6(b)(2)(iv)(C)(vi)). When multiple wage determinations are included in a contract, a separate SF-1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award, the contractor prepares a written report listing in order the proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, U.S. Department of Labor, for review (See 29 CFR 4.6(b)(2)(ii)).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or

disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour decision to the contractor.

6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF-1444 or bond paper.

When preparing a conformance request, the ""Service Contract Act Directory of Occupations"" (the Directory) should be used to compare job definitions to ensure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination."

## **Voluntary Intermodal Sealift Agreement (VISA) Activation Liner Terms**

### **SECTION 1 VISA SCOPE UNDER USC-10**

#### **1.1 Overview & Scope**

VISA, as defined in the Federal Register (79 FR 64462), dated 29 October 2014, provides for contingency sealift services that may arise in any part of the world. The general scope of VISA services, under USC-10 contracts, include the provision of ocean transportation liner services for worldwide port-to-port ocean movements and related intermodal movements, infrastructure, services, and management expertise. VISA liner services, under USC-10, are provided on a bilateral basis via the One-Time-Only (OTO) process during a DoD contingency for intermodal, infrastructure, and sustainment purposes. Current VISA participants, that are also USC-10 Contractors, have the option to NOT agree to provide VISA liner services under USC-10 in the event of VISA activation.

#### **1.2 Applicability**

1.2.1 This exhibit only applies to USC-10 Contractors that are currently enrolled as VISA participants. If interested in becoming a VISA participant, please visit the Maritime Administration (MARAD) website at [www.maritime.dot.gov](http://www.maritime.dot.gov) for instructions.

1.2.2 This exhibit only applies during a VISA activation and until all VISA participants have been deactivated in accordance with deactivation procedures outlined in the VISA contract.

1.2.3 This exhibit only applies to the Geographic Combatant Command (GCC) Area of Responsibility (AOR), or region identified in the VISA activation.

1.2.4 USC-10 Contractors providing liner services during a VISA activation shall refer to their respective VISA contingency contracts for all other applicable terms and conditions (activation instructions, Joint Planning Advisory Group (JPAG) meetings, etc.).

#### **1.3 General Requirements**

The Contractor assumes all responsibility for the transportation of the cargo from the port or point where the cargo is received by the Contractor to the destination port or the point where the Contractor makes the cargo available to the Government. The Contractor shall provide a delivery receipt for the consignee or consignee's agent to sign to acknowledge receipt of the containers or pieces and to annotate any exceptions.

#### **1.4 Basic Services**

The Contractor shall provide basic services, as outlined in the following sections, and corresponding intermodal services and infrastructure supporting DoD contingency operations. Such services and infrastructure include but are not limited to pick-up and inland transport, active tracking, port clearance, delivery of containers and shipments to and from CONUS and international locations, reporting, and command center interface. The Contractor shall maintain the highest possible on-time performance rate.

### **SECTION 2 BUSINESS RULES**

2.1 During an activation of VISA, this USC-10 contract shall be used to move liner DoD contingency cargo, using standard USC-10 OTO booking procedures outlined in Exhibit 3, Paragraph 4, of the USC-10 contract. USC-10 bookings shall contain a designation indicating cargo is moving under VISA/contingency liner terms. VISA, within the context of this Exhibit, contemplates a smooth transition from regular USC-10 services to VISA DoD contingency services via the OTO process.

2.2 Before and during activation, DoD may use the rates, terms, and conditions of the USC-10 contracts to support DoD contingency operations. When the USC-10 contract is used to support a DoD contingency, the Contractor has the right to refuse to perform in the defined theater of operations if it is not safe or practical to operate and/or exercise contractual provisions to modify its established service into the theater of operations, as reflected in the USC-10 contract.

2.3 Requests for volunteers may be issued to all potential offerors including non-VISA participants and foreign flag operators. DoD selection of volunteers shall be based on operational requirements and the Secretary of Defense approved priorities for the award of sealift contracts, which are incorporated in VISA.

2.3.1 DoD may use the volunteer stage (pre-VISA activation) to obtain additional services to meet DoD contingency operation requirements. The volunteer stage shall not be used to renegotiate existing USC-10 contract rates. VISA participants with existing USC-10 contracts that can satisfy DoD's requirements shall receive priority over Contractors without such contracts. New offers of service will be treated as late rates that receive last priority for use, provided participant services meet DoD's contingency requirements.

### **SECTION 3 VISA ACTIVATION AND DEACTIVATION**

3.1 VISA is activated by USTRANSCOM Commander, with the approval of Secretary of Defense, as required, to support contingency operations.

3.2 The decision to deactivate VISA and release participants from activation will be made by USTRANSCOM Commander based on the operational requirement. Deactivation considerations may also include costs to DoD and minimizing the Contractor's commercial disruption by returning commercial assets for use in peacetime business.

**Exhibit 6 – Small Business Subcontracting Plan  
(Carrier-specific)**

Note: This attachment does not apply to all USC-10 carriers; Small Business Subcontracting Plan applies to large businesses only, i.e., USC-10 carriers who certified as a large business concern for NAICS code 483111.

As denoted by the last column, the following USC-10 carriers have an approved Subcontracting Plan:
