**Subject:** Chassis Accessorial in USC-8 for From-Port container bookings

**Purpose:** To inform shippers of the new Chassis Accessorial for the USC-8 contract.

**Be Advised:** This accessorial applies only to bookings on a "from-port" basis, where the USC-8 carrier is asked to provide a chassis. Cost is \$75 for a 20-foot chassis, and \$135 for a 40-foot chassis. This charge does NOT apply to bookings made on a "from-door" basis. This charge does NOT apply to "from-port" bookings when the USC-8 carrier is not asked to provide a chassis. USC-8 PWS paragraph 3.A.14.2 contains additional details.

Shippers requesting "from-port" bookings and requiring a carrier-provided chassis are advised to select the "Chassis" accessorial at the time of booking.

SDDC recommends that – unless specific circumstances mandate the contrary -- container bookings generally be made on a "from-door" basis, both to avoid the chassis accessorial charge and to allow for smoother movement by avoiding handoff from one contractor to another at the POE.
