

SDDC-PP Advisory 14-0033

DATE: 27 February 2014

FROM: SDDC-PP SCOTT AFB, IL

TO: DOD-Approved Personal Property Transportation Service Providers (TSP)

SUBJECT: Defense Personal Property System (DPS) Rate Filing Update #5

1. This advisory will provide a synopsis of the issues identified with rate rejection notices following Round 1 of Rate Filing. TSPs who received the following error codes are impacted. All other error codes are valid.

- a. Error Code 2- International CFAC violation
  - Analysis discovered coding errors that resulted in International TSPs receiving incorrect rate rejection notices.
- b. Error Code 3-Intra(Unauthorized to file in Market)
  - Analysis discovered code errors that defined Region 15 as an Interstate channel and not as an Intrastate channel. This error only affected TSPs with Intrastate authority.
- c. TSPs not receiving rate rejection notices
  - Due to a DNS server error all rate rejection notices did not transmit correctly.

2. The corrections for error codes 2 and 3 require a code fix that will necessitate running the rates processor again. This will allow the correct rate rejection notices to be transmitted to all TSPs. Any rate rejection notices that were received for error codes other than 2 or 3 are valid, but should be crosschecked with any new notices that are received.

3. As of today, we are still unable to provide a firm start date for the beginning of Round 2. When the rates processor is rerun, we will provide TSPs time needed to analyze the correct rate rejections from Round 1. When certain that all required actions are identified and in place, we will publish a revised schedule that list the inclusive dates for Round 2.

4. If you have any questions, please contact the PP Rates Team via email at: [army.sddc.safb.dpsrates@mail.mil](mailto:army.sddc.safb.dpsrates@mail.mil).

5. This message is approved for release by CAPT Stanley, Director Personal Property, HQ SDDC.
