SUBJ: DP3 Webinar Training on DPS Analytics

1. This informative training session will show PPSOs and TSPs how to build simple queries using the DPS Analytics module. As time (and questions) dictate, users can learn how to build additional simple or ad hoc queries for specific data analysis requirements, as well as learn tips on building queries for viewing completed Customer Satisfaction Surveys.
2. Please ensure widest dissemination so that all personnel are aware of this training.
3. There are two training sessions: 25 Mar 2014, 1700CDT/1800EDT and 27 Mar 2014, 0900CDT/1000EDT lasting for approximately 30 - 45 minutes. We will utilize voice (Presenter/Host only) through DCO due to limited phone lines available.
4. Please ensure speakers/headphones are attached in order to hear the training and contact your IT personnel if you have any speaker, headset, or software problems.
5. Prior to the day of the webinar, you should log onto <https://www.dco.dod.mil> and become familiar with the website. Those that do not have a CAC or do not want to register their CAC may enter the training classes as a guest.
6. Follow the below steps for the session you would like to attend. Please make sure that you click on the "correct" URL for the session you wish to attend.
