

SDDC-PP Advisory 15-0061

DATE: 31 March 2015

FROM: AMSSD-PP Scott AFB, IL

TO: Transportation Service Providers (TSPs), Military Service Headquarters Representatives, Worldwide Personal Property Shipping Offices (PPSOs)

SUBJECT: Defense Personal Property Program (DP3) Peak Season Shipment Data & Blackouts
Update #7

1. In preparation for the upcoming 2015 Peak Season, SDDC continues to monitor daily the Shipment Management queues for shipments picking up 15 May 2015 and later as well as TSP blackouts. We encourage TSPs to use this data to manage their blackouts or plan to allocate resources since shipment refusals will not be allowed.
2. Data analysis as of 31 March shows there are 8,882 shipments awaiting creation of traffic distribution lists for 15 May 2015 and beyond. Of those, 7,309 are in the final step (status of 'Transportation Service Provider (TSP) Selection') awaiting the new Traffic Distribution List (TDL).
3. The attached report provides industry with details on the origin, destination, requested pickup date, and estimated weight of all 8,882 shipments (Code of service only available if in the final step of 'TSP selection'). This data is intended to assist industry in anticipation of these shipments being awarded when 2015 TDLs are made available, which will be announced in a separate message.
4. We will continue to monitor and share data on pending shipments leading up to the creation of the TDL, which will be announced in a separate message.
5. Current data shows that the granular blackouts use is being entered but we continue to encourage their use where applicable. For shipment awards 27 March 2015 and later, blackouts are at the following levels. (Increases below are from 27 March)

Domestic (Blackout # increases since 27 March)

Market/Channel:	304 SCACs (9% increase)
Cos/Channel:	277 SCACs (26 % increase)
* Market/Channel/Zip3:	58 SCACs (18% increase)
** Market:	203 SCACS (25% increase)

International

Market/Channel (OCONUS-OCONUS)	18 SCACs (210% Increase)
Market/Channel (OCONUS-CONUS)	23 SCACS (180% Increase)

GBLOC/Channel/COS (CONUS-OCONUS)	6 SCACS (30% Increase)
Market/channel/ZIP 3	19 SCACs (90% Increase)
Blackouts by Market/Zip3 (lhhg)	40 SCACs (23% Increase)

5. Report any DPS technical issues to the SDDC Systems Response Center (SRC):
