

SDDC-PP Advisory 15-0066

DATE: 9 April, 2015

FROM: SDDC-PP SCOTT AFB, IL

TO: Military Service Headquarters Representatives, Worldwide Personal Property Shipping Offices (PPSO), and Transportation Service Providers (TSP)

SUBJECT: DPS Annual Security Outage 10 April, 2015

1. The DPS PMO has rescheduled the 10 Apr 2015 deployment of the 2.1.0 release to 17 Apr 2015, at 2100 hrs CDT. The release will require a 4-hour system outage. Based on costing errors associated with pack/unpack rates for the future rate cycle, the PMO determined that the 2015 tariff rates for this item code were missing required decimals, resulting in high pack/unpack rates. The reference data will be corrected and uploaded to the system in preparation for next week's install. Release contents include:

- a. SCR 6995 Unable to calculate an estimated cost for Personally Procured Moves (PPM)
- b. SCR 7048 Update Professional Books Papers and Equipment (PBP&E) weight limit and definition
- c. TSCR 7243 replace instances of html type comments into javascript comments
- d. SPR 6784 Fix May 15th date for both 2011 and 2012 rate cycle
- e. SPR 7140 Fix peak vs. non-peak rates that make the rate cycle expiration date equal to the performance period effective date
- f. SPR 7395 Fix estimated weight of PBP&E so it does not default to 10 lbs
- g. SPR 7396 Fix core error that displays as a civilian PPM shipment
- h. SPR 7398 Fix core error filter for PPM Accessorials page
- i. SPR 7400 Initiate warning message for exceeding weight limit on PBP&E for Civilians

2. DISA will conduct an annual password reset on all DPS servers Friday, 10 Apr 2015, at 2100 hrs CDT. The reset will require a 6-hour system outage. DPS will not be available until this maintenance task is completed.
