

SDDC-PP ADVISORY # 15-0082

DATE: 20 April 2015

FROM: SDDC-PP SCOTT AFB, IL

TO: Military Service Headquarters Representatives, Worldwide Personal Property Shipping Offices (PPSO), and Transportation Service Providers (TSP)

SUBJECT: DEFENSE PERSONAL PROPERTY SYSTEM (DPS) INCREASING CLICK COUNTS

1. This is a coordinated message between HQ SDDC and the DPS Program Management Office (DPS PMO).
2. For Peak Season 2015, TSPs were encouraged to use the robust DPS blackout capabilities to black out dates by market, GBLOC (Government Bill of Lading Office Code), channel, "ZIP3", code of service, and other combinations as needed. To facilitate TSP blackout entries and accommodate increased DPS user activities, we are increasing the system click counts from 300 clicks per page/per hour (see [SDDC-PP Advisory # 15-0067](#)) to 400 clicks per page/per hour.
3. NOTE: Short fuse shipment click counts will remain at 100 clicks per hour, per SCAC (Standard Carrier Alpha Code). For reference, please review [HQ SDDC Advisory # 15-0035](#) (short fuse shipment policy) or access SDDC's Personal Property Public Page <http://www.sddc.army.mil/PP/default.aspx>.
4. Please email questions relating to this message to: sddc.safb.dpsmaxtsp@us.army.mil.
5. Please report all DPS technical issues to the SDDC Systems Response Center (SRC):
