

SDDC-PP Advisory 16-0041

Date: 31 December 2015

From: AMSSD-PPQ, Scott AFB, IL 62225

To: All Military Service Headquarters Representatives, Worldwide Personal Property Shipping Offices (PPSOs), Personal Property Processing Offices (PPPOs) and DoD Approved Transportation Service Providers (TSPs)

Subject: New Bahrain Code 4 Transit Times

1. In coordination with industry and the Navy, SDDC has increased the transit times for shipments between Bahrain CONUS and OCONUS locations based on an assessment of variables, including current commercial liner schedules.
2. Transit times for shipments East of the Mississippi to/from Bahrain are 75 days and West of the Mississippi to/from Bahrain are 80 days. As of 16 December 2015, the transit tables in DPS have been updated to reflect the new times.
3. In addition, for the 2016 rate filing two new channels have opened for Bahrain to/from Japan (JA01) and Hawaii (US89). The transit times for these channels are 90 days.
4. During the pre-move survey TSPs must review DPS transit times with the customer to establish the agreed upon Required Delivery Date (RDD). Transit times based on the above requirements shall not be extended without the customer's approval.
5. SDDC-PP will continue to review the transit time channels and update the Defense Transportation Regulation (DTR) 4500.9-R-Part IV, Appendix M and N on the SDDC public website accordingly.
6. Any questions/concerns send an email to the Operational Support and Quality Team at [army.sddc.safb.pops@mail.mil](mailto:army.sddc.safb.pops@mail.mil).
7. This advisory is approved for release by the Business Processes Division, HQ SDDC.
