

SDDC-PP Advisory # 16-0052

Date: 12 February 2016

From: SDDC-PP Scott AFB, IL 62225

To: Department of Defense Approved Transportation Service Providers (TSPs)

Subject: Blank Fields When Printing the Standard Form (SF) 1200 Government Bill of Lading Correction Notice

1. The SDDC Systems Response Center (SRC) has seen an increase in help desk tickets (i.e., service requests) for printed SF 1200 Correction Notices that contain no information in the Block 11 "Bill of Lading Now Reads" and Block 12 "Correct Bill of Lading to Read" fields. Service Request # 1-64083552 was created for this issue.

2. For an SF 1200 to show information in Blocks 11 and 12, the original SF 1203 Government Bill of Lading (GBL) must be generated as follows:

a. Shipment Management > Print Forms (BL/GBL, etc.) > Print BL/GBL (SF1203) > Confirm Original BL/GBL Print.

b. The above sequence will generate a GBL_CRCTN record with GBL_CRCTN_ORGNL_CD of 'Y' and also populate the LDNG_BL_PRNT_DT for the PPSHPMT record. If this process is followed, then the original GBL Correction record will be generated correctly.

3. Bypassing the listed sequence or directly accessing the Uniform Resource Identifier (URL) that generates the SF 1203 GBL will result in blank entries in the SF 1200 correction notice.

4. Please send questions regarding this advisory to the SDDC Systems Response Center (SRC):

a. Email: usarmy.scott.sddc.mbx.g6-src-dps-hd@mail.mil

b. Telephone: toll free (800) 462-2176 or commercial (618) 589-9445, Option 5
