

## 2015

# SDDCTEA Traffic Engineering & Safety Seminars

## Military Surface Deployment and Distribution Command Transportation Engineering Agency

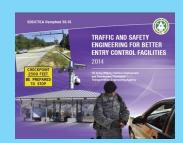

The purpose of these seminars is to provide guidance on traffic engineering and safety considerations along roadways, intersections, and at entry control facilities (ECFs). Information is also provided on planning, design, and operations of ECFs (access control point or gate) considering security, safety, and traffic requirements.

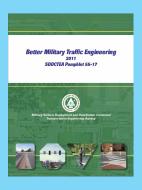

- ✓ ECF Background and SMART\* Traffic Engineering Studies
- Better Military Traffic Engineering (BMTE) Software Demo
- ✓ Speed Management
- ✓ ECF Geometric Design
- ✓ Traffic Control for AVB's
- ✓ Traffic Engineering Studies
- ✓ Roadway Geometric Design
- ✓ Intersection Traffic Control
- ✓ Signs and Markings
- Retroreflectivity and Sign Management Studies
- ✓ Roadway and Pedestrain Safety
- ✓ Speed Limits
- ✓ Traffic Calming and Roundabouts
- Access Management and Parking
- ✓ Traffic Signals and ITS
- ✓ Work Zone Safety
  - \* Security, Manpower, Automation, Roads & Lanes, Traffic & Safety

#### **About SDDCTEA**

Department of Defense (DoD) transportation networks must meet national standards and guidelines. One of the primary objectives of The Military Surface Deployment and Distribution Command Transportation Engineering Agency (SDDCTEA) is to assist installations with their traffic engineering concerns, especially those involving high crash locations or access control issues. Our Mission is to improve highway safety and reduce traffic congestion on DoD installations and on routes providing access to installations.

#### Program goals include:

- Providing guidance and executing approval authority on traffic engineering matters
- Implementing programs that save lives, decrease injuries, minimize lost time, and maintain readiness

To achieve our mission and objectives, SDDCTEA focuses on two key areas:

**Training and Education** – Includes the development of training and educational materials for distribution throughout the military. Materials include traffic engineering and safety bulletins, pamphlets, and interactive training materials.

#### Pamphlets include:

Pamphlet 55-14, *Traffic Engineering for Better Signs and Markings (2011)*Pamphlet 55-15, *Traffic and Safety Engineering for Better Entry Control Facilities (2014)*Pamphlet 55-17, *Better Military Traffic Engineering (2011)* 

**Engineering services** – Includes roadway planning, geometric design, road safety audits, traffic operations analysis, engineering studies, and contract assistance.

**Seminar Cost** – The cost of the seminars and materials is FREE to attendees and is funded by SDDCTEA as part of our mission to provide global surface deployment and distribution services to meet the nation's objectives.

Travel and per diem costs are the responsibility of the attendee's organization.

All seminars are tentative pending final location confirmation and interest.

**Seminar Registration** – All Service branches are welcome to attend any of the seminar locations. DoD and Government employees have priority for attendance, therefore contractors will be placed on a "hold" list until 1 week before workshop. **Seating is limited to 45 people -- Register Early!!!** 

Please complete and submit one registration form for each attendee. PLEASE NOTE: Use actual mailing address and include office symbol - No building numbers, please. To submit the registration form electronically, click the SUBMIT VIA E-MAIL button below.
