

CAMP PENDLETON, CA TO THE PORT OF HUENEME, CA

POWER PROJECTION PLATFORM (PPP) ROUTE

10 May 2022

BACKGROUND: Power Projection Platforms (PPPs) are defined as military installations that strategically deploy one or more high-priority active component brigade and/or mobilize and deploy high-priority reserve component units. Increased deployment activity requiring a fast and coordinated response has become the normal operational standard within the continental United States. Routes between PPP installations and their designated Air and Sea Ports of Embarkation (APOEs/ SPOEs) are termed PPP Routes. PPP Routes, a subset of the STRategic Highway NETwork (STRAHNET), are the most critical 5,000 miles of public roadways for supporting the safe, rapid, and efficient movement of DoD personnel and equipment. Highways for National Defense (HND) mission requirements call for ensuring PPP Routes are maintained at a capable design, performance, and condition standard to support national emergency deployments.

INSTALLATION: Marine Corps Base Camp Pendleton (MCBCP), located in San Diego County in Southern California covers more than 125,000 acres. It is the largest employer in North San Diego County with a daytime population of around 70,000 military and civilian personnel. Camp Pendleton's assigned SPOE is the Port of Hueneme.

ROUTE: MCBCP's PPP Route is 153 miles heading north on I-5, then following California SR-73 (Toll Road), I-405 North through Los Angeles, US-101 West into Ventura County, and finally south along Victoria Avenue to the Port Hueneme Victoria Gate. MCAGCC's PPP Route is 218 miles following Adobe Road, Indian Trail, and Lear Avenue to California SR-62, then west on I-10, SR-210, I-210, SR-134, and US-101. From the US-101/ I-405 interchange, convoys follow US-101 and Victoria Avenue (as from MCBCP) to the Victoria Gate.
